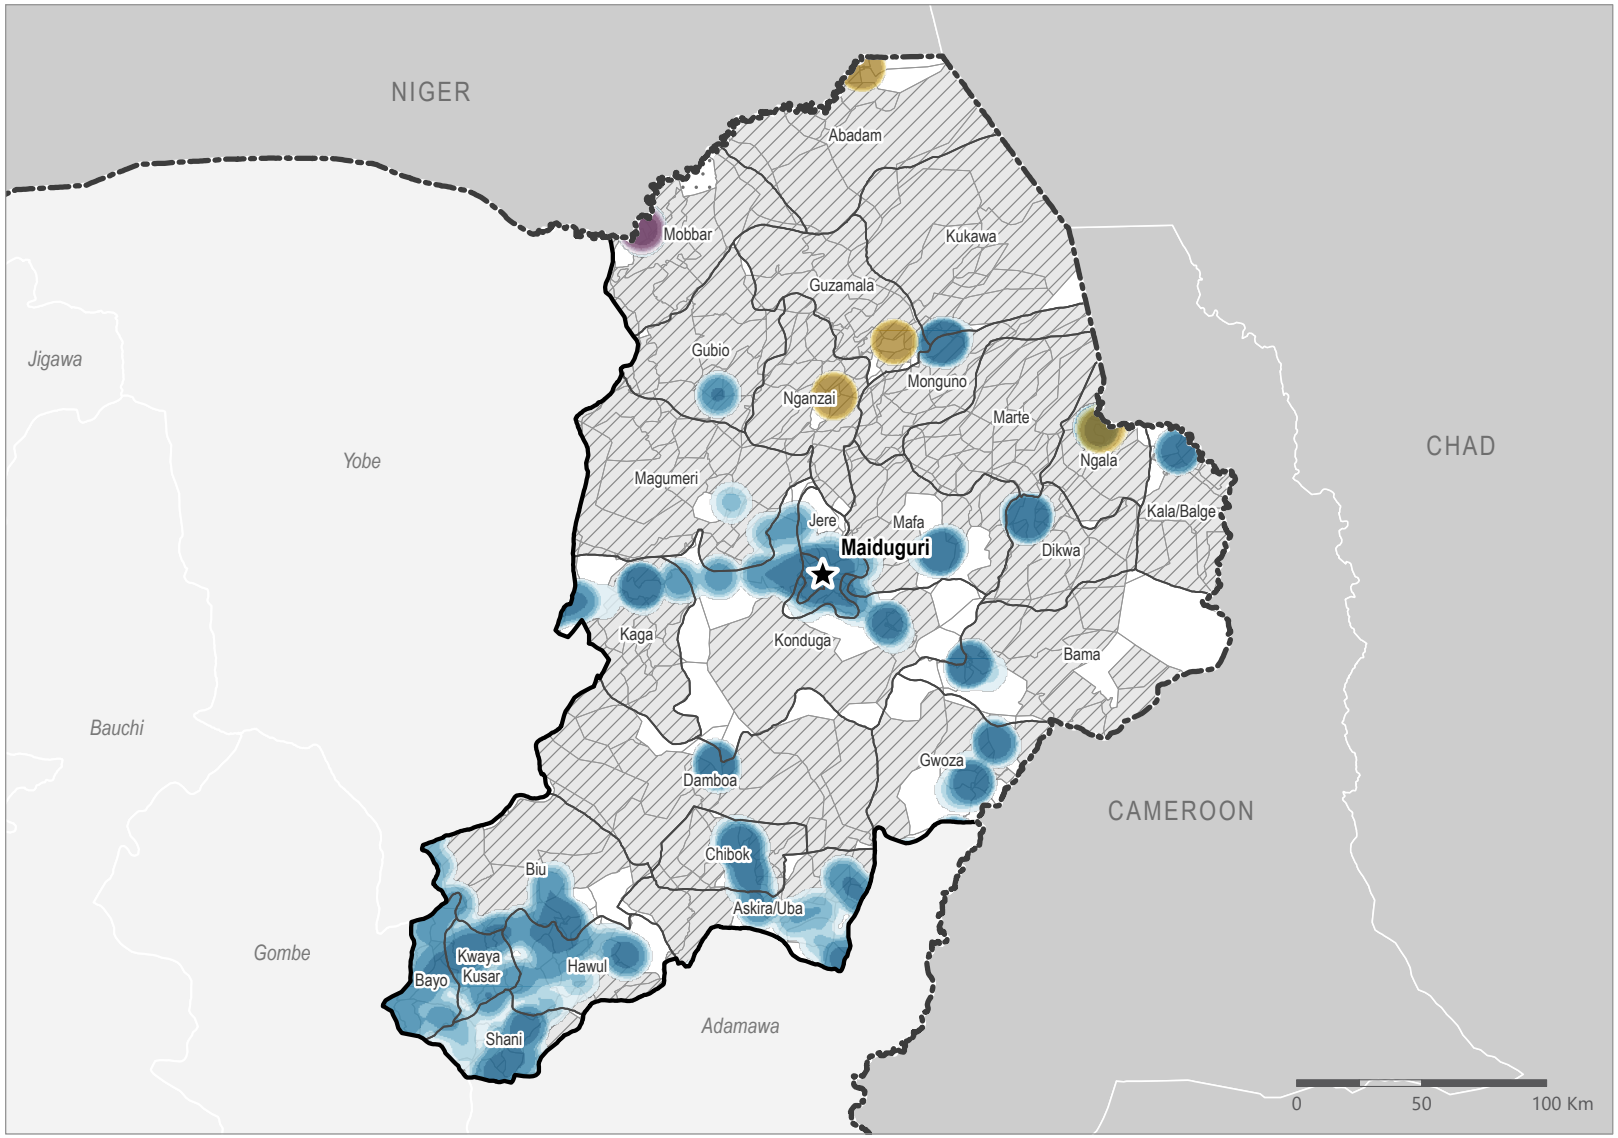
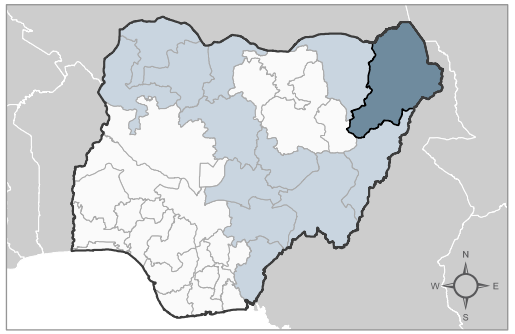
NIGERIA – Borno State

Multi-Sector Needs Assessment (MSNA) 2026 data collection coverage, 14 Aug – 15 Oct 2026

Production date: 6 November 2026





Borno other assessed states

Borno: key figures

Household samples
- Main sample: **3,749**
  - Non-IDP: **1,405** IDP: **2,344**
- MSNA Light (H2R) sample: **567**
- Refugee sample: **71**

LGAs surveyed: **25**

Sampled clusters: **354**

Interviews per 100 km²

Main sample	MSNA Light (H2R) sample	Refugee sample	
			0.5 – 2.4
			2.5 – 4.9
			5 – 9.9
			10 – 24.9
			25 or more

Where surfaces overlap, colours mix

Ward accessibility at the close of data collection (15 Oct 2026)

- Accessible
- Reported inaccessible
- No accessibility report (outside partner coverage)
- Ward boundary
- LGA boundary
- State boundary (Borno)
- International boundary
- ★ State capital

Method: Smoothed density of interviews (quartic kernel, 10 km radius, 500 m cells). Main sample: by sampling cluster. MSNA Light (H2R) and refugee households: by interview location. Full methodology: terms of reference.

Accessibility: Ward accessibility as reported by data collection partners. Some interviews were collected in areas that were later reported inaccessible, but are still included within the overall sample. Areas within 20 km of the border with Niger in Borno and Yobe (5 km elsewhere) were excluded from the sample for security reasons.

Components: The main sample is a two-stage stratified cluster sample. MSNA Light (H2R) and refugee samples are non-probability (refugees by quota); their results are indicative and are not added to the main sample results.

Borno: MSNA Light (H2R) covers four LGAs that were largely inaccessible. In Abadam, Guzamala and Nganzai, interviews took place in the main settlement only.

Terms: LGA: Local Government Area. IDP: internally displaced person. H2R: Hard to Reach.

Data sources:
MSNA 2026 cleaned datasets (data collected 9 Aug – 15 Oct 2026)
Ward accessibility: partner reports, as of 15 Oct 2026
Boundaries: OCHA COD-AB (17 Apr 2019); GRID3 wards v1 (Aug 2020)
Coordinate system: WGS 1984 UTM Zone 32N
