CONTEXT

Akobo town is located in the eastern side of Akobo County, Jonglei State, close to land and river border crossings with Ethiopia. Akobo is a key point of trade and transit between South Sudan and Ethiopia.

Since the beginning of the crisis this route has been used by South Sudanese citizens heading to or coming back from Ethiopian refugee camps. Since May 2015, REACH and ACTED staff in two locations - Tirgol Port and Market Port - record arrivals and departures of South Sudanese on a daily basis. In order to provide an indication of wider trends, data is collected on the volume of movement and the motivation and intentions of those traveling.

Unless specifed, the following findings are based on primary data collected between the 1st and 29th of July 2016.

Methodological notes

Data has been collected regularly at both Tirgol Port and Market Port since May 2015. Data is collected from 9 - 4 on weekdays, thus evening, weekend and holidays movements are unaccounted for. Due to insecurity and other issues, data is not always collected on a consistent daily basis.

To correct for this lack of consistency, data presented across time within this fact sheet have been normalized by the number of collection days each month. This allows for comparison of data across different months.

Please note that the data presented here is indicative, not representative.
