

Rapid Response Mechanism (RRM): Central African Republic

#1

01 - 31 January 2022
Monthly factsheet

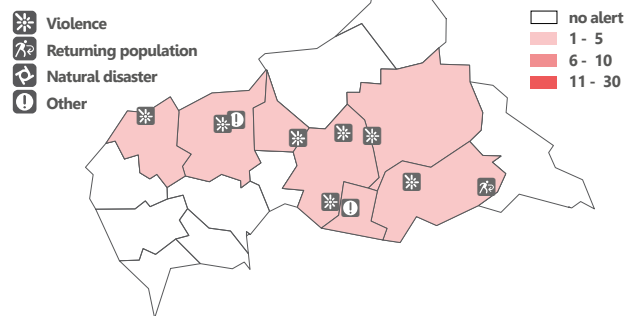

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian action, conduct multisector assessments (MSAs) of needs and to implement several types of emergency responses, including distributions of essential non-food items (NFI) and high emergency biscuits (HEBs), emergency water, sanitation and hygiene (WASH) interventions, as well as cash transfer programming (CTP). Currently, the RRM is made possible through the support of the European Commission Civil Protection and Humanitarian Aid Operations department (ECHO), the United States Agency for International Development (USAID), the Swedish International Development Cooperation Agency (SIDA) and the Swiss Agency for Development and Cooperation (SDC). All RRM products are available on the [Humanitarian Response](#) portal.

Rapatriates⁹
Boys

NFI distributions in January 2022 :

WASH interventions in January 2022 :

¹ Assessments and interventions, which were not finished by the 31st January 2022, are not included. Those numbers do not include the data of 3 alerts that lead to 3 interventions in WASH and 1 intervention in NFI, as detailed data are not available on the 10/02/2022. ² Exploratory missions. ³ Nutrition screenings. ⁴ Post-distribution monitoring. ⁵ MSA-R are not triggered following a RRM alert. MSA-R aim at gathering information on areas not recently affected and/or not recently accessed by humanitarian actors. ⁶ The term 'host community' refers to individuals that have not been displaced as the result of a humanitarian-related event. ⁷ The term 'returnees' refers to people who have come back to their pre-crisis location following a period of internal displacement. ⁸ The term 'repatriates' refers to former refugees who have returned from neighbouring countries.
