

Rapid Response Mechanism: Central African Republic

#09

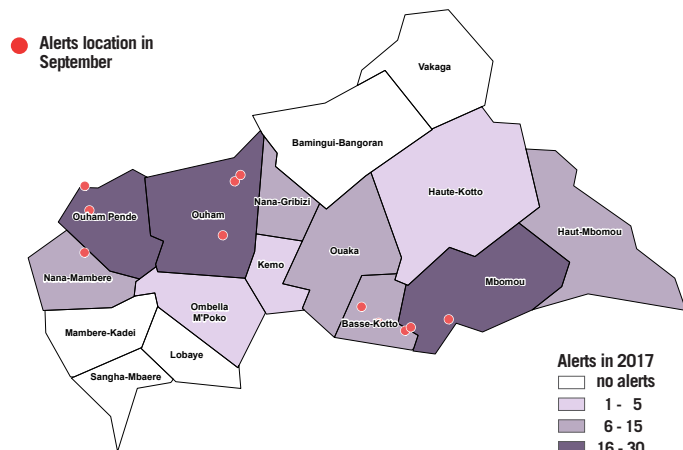

01 - 30 September 2017
Monthly dashboard

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian action, conduct multisector assessments, emergency non-food items distributions (NFI) and water, sanitation and hygiene interventions (WASH) when there is no capacity on site. Currently, RRM is made possible through the generous support of the CHF, ECHO, OFDA, Japan and Sweden. All RRM products are available on the [Humanitarian Response](#) portal.
