## Legend

-- Bairros

## Vila Massane - Unimproved Water Sources - As of 17 April 2019

## buildings total\* 6.650 buildings within 50m of an 2,614 unimproved water source\*\* of neighbourhood within 50m 39% of unimproved water sources

\*according to UNOSAT-REACH analyst building count

\*\*unimproved water sources are open wells, open water catchments and other unprotected water sources identified through a rapid infrastructure assessment of Beira by REACH. Other water sources are protected wells, motorized/hand pumped boreholes, tapstands, and municipal piped water. REACH was unable to map the piped water system due to its extent, so water analysis is focused on highlighting areas with unimproved sources.

Coordinate System: GCS WGS 1984 *File: MOZ\_Map\_CycloneIda\_WaterAnalysis\_VilaMassane\_25APR2019 Contact: reach.mapping@impact-initiatives.org* 

Note: Data, designations and boundaries contained on this map are not warranted to be error-free and do not imply acceptance by the REACH partners, associated, donors mentioned on this map.
