

Background and Methodology

Since late 2013, intensification of conflict in North and Central Iraq has resulted in large scale displacement with 3,385,692 internally displaced persons (IDPs) identified across Iraq as of August 2016.¹ Of these, 506,409 individuals are registered as living in 63 formal camps across Iraq.² To monitor these camps comprehensively and inform a more effective humanitarian response, the CCCM Cluster and REACH Initiative (REACH) conduct Quarterly IDP Camp Profiling that aims to provide regular and updated information on developments, needs, and gaps in all accessible IDP camps across Iraq.

Round VI of the Quarterly IDP Camp Profiling round was conducted in August-September 2016, during which 48 formally recognized IDP camps across Iraq were assessed. A key change between this round and the previous two rounds (conducted in December 2015 and April 2016) is the coverage of the assessment, which had expanded into camps in Anbar, Kirkuk and Najaf. Previously the CCCM cluster and REACH had conducted five rounds of IDP Camp Profiling and mapping – in October 2014, January 2015, September/October 2015, December 2015 and April 2016.

A mixed-methods research methodology was used which incorporates household-level sampling in each assessed IDP camp, Key Informant Interviews (KIIs) with each camp manager, satellite imagery analysis, and participatory mapping. Household data collection took place during 17th August -19th September 2016. All household-level sampling was conducted with a 95% level of confidence and 10% margin of error at the camp level, while analysis at the governorate-level was weighted according to the population sizes of camps. In total, 4,097 households were assessed.

This dashboard provides a comparative sectorial overview of all IDP camps that were assessed. The forthcoming edition of the Quarterly Directory of IDP Camp Profiles, which includes updated infrastructure maps of each camp, will provide further information on each of the sites assessed will be released in the coming weeks.

Comparative Sector Overview, by Governorate and Camp
