

Settlement and Protection Profiling

Camp 7 Ukhiya, Cox's Bazar, Bangladesh

July 2019 and December 2018 comparison

Round 5

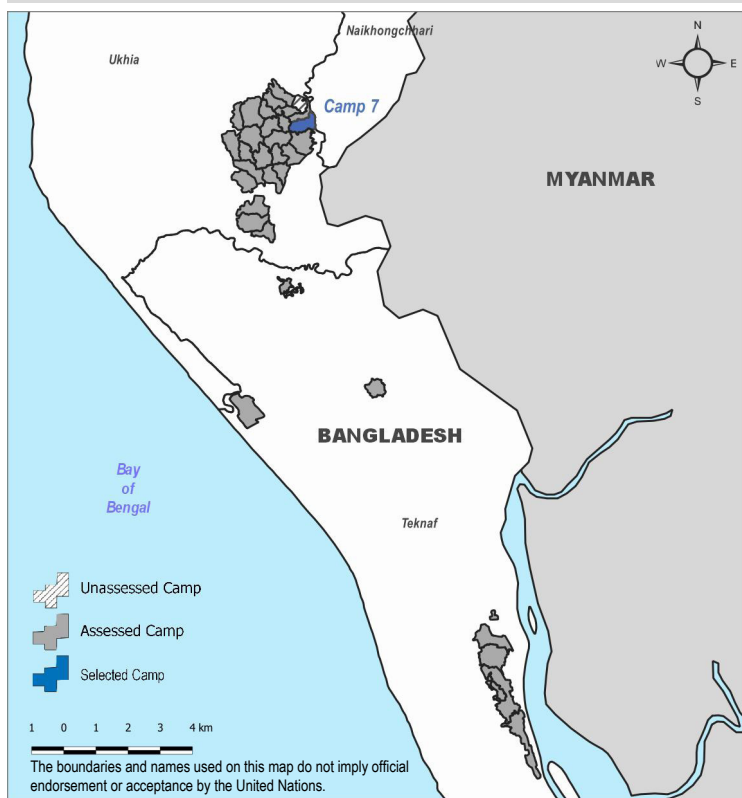

July 2019

Background and methodology

Since August 2017, an estimated 741,000 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 910,000.¹ The majority are reliant on overstretched humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH, in partnership with UNHCR, continued Round 5 of the Settlement and Protection Profiling (SPP) Assessment in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The fifth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 25 June - 5 August, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 7, where 94 households were surveyed.

Where relevant, findings are compared to those of SPP Round 4 which took place from 25 November - 17 December, 2018.² July 2019 data is presented in **dark blue**, and December 2018 data is presented in **light blue**.

Key Camp Information

Camp Management	RRRC
Site Management Support	UNHCR / DRC
Population (individuals) ¹	38,488
Population (families) ¹	9,156
Camp Area	0.71 km ²
Population density	53,898 individuals/km ²

Demographics

Household composition by gender and age:

56% of individuals are under 18
77% of individuals are women and children

There is an average of **5.3** individuals reported per household

5% of households reported the presence of members with disabilities⁴

From UNHCR Key Demographic Indicators dataset¹

% of families with Persons with Specific Needs (PSN), by need³

Separated children	2%	Unaccompanied children	0%
Older person at risk	4%	Person with disability	4%
Older person at risk with children	3%	Single male parent with infants	1%
Serious medical condition	5%	Single female parent	14%
Families with PSN	30%		

93% of households arrived on 25 August 2017 or later

Protection

Five most frequently reported interventions needed to improve the sense of safety and security in the camps⁵:

July 2019		Dec 2018
73%	Improved paths and roads ①	Improved paths and roads 54%
63%	Increased community watch groups ②	Advice about safety issues 53%
37%	Better camp management ③	Better camp management 40%
29%	Advice about safety issues ④	Natural disaster warning systems 27%
28%	Natural disaster warning system ⑤	Increased policing 15%

1. RRRC/UNHCR population data and key demographic indicators, 15 August 2019.

2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018. <https://data2.unhcr.org/en/documents/details/68127>

3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" <https://bit.ly/2GnJE0h>.

4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.

5. Respondents could give up to three answers.

Three most frequently reported perceived risks faced by individuals in the camp^{6,7}:

Three most frequently reported preferred sources of support for various forms of security incidents⁹:

	Involving self or family, with persons inside the camps		Involving self or family, with persons outside the camp		Witness to security incident within the camps	
	July 2019	Dec 2018	July 2019	Dec 2018	July 2019	Dec 2018
1	Mahji	Mahji	Mahji	Mahji	Mahji	Mahji
2	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge
3	Army	Army	Army	Army	Army	Army

79% of households would report if they witnessed an incident of child abuse, neglect, or exploitation⁸

100% of households reported being satisfied or very satisfied with the community watch groups in their area of the camp^{8,10,11}

87% of households reported feeling safe in their shelter⁸

6. Respondents could give up to three answers.

7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents.

8. Round 5 data only. These indicators were not included in SPP Round 4.

9. Respondents could give multiple answers.

10. This number is a combination of households that reported 'satisfied' and 'very satisfied'.

11. This question was asked to a subset of 57 households that reported a community watch group in their area.

12. This question was asked to a subset of 65 households that contained children under 5.

13. Findings on specific issues are reported as a percentage among households who report any issues accessing latrines.

14. In July 2019, this question was asked separately for female and male household members. In December 2018, it was asked once for the household in general.

Food Security and Nutrition

July 2019

Dec 2018

96% of households reported receiving food assistance in the month prior to data collection. Of these, the sources of assistance were⁹:

Three most frequently reported consumption coping strategies⁹:

July 2019

Dec 2018

49% of households with children under 5, reported receiving a supplementary feeding ration in the 30 days prior to data collection¹²

27% of households reported receiving a breast-milk substitute since arriving in Bangladesh **26%**

Water, Sanitation, and Hygiene

Three most frequently reported issues with latrines^{9,13}:

Dec 2018: three most frequently reported issues with latrines for the household^{9,13,14}

July 2019

Dec 2018

82% of households reported using public latrines as the usual facility for defecation **80%**

23% of households reported that there was not enough light at night for members to safely access latrines **3%**

Shelter and Non-Food Items (NFI)

% of households reported their main source of fuel:

July 2019

Dec 2018

July 2019

99% of households reported cooking inside their shelter

Dec 2018

97%

93% of households reported living in lockable shelters

94%

Three most frequently reported forms of support needed to address household shelter needs¹⁵:

July 2019

66%	Solar light	1	Fuel	80%
50%	Cooking items	2	Clothing	51%
40%	Fan	3	Cooking items	48%

Dec 2018

80%

51%

48%

Health

32% of individuals reported having an illness serious enough to require medical treatment in the 30 days prior to data collection¹⁶

Three most frequently reported challenges in accessing NGO clinics in the camps¹⁷:

July 2019

79%	Crowded	1	Supplies unavailable	45%
38%	Clinic too far away	2	None	34%
23%	Supplies unavailable	3	Clinic too far away	23%

Dec 2018

45%

34%

23%

33% households reported being visited by a community health worker in the two weeks prior to data collection¹⁸

Education

July 2019

98%

of households reported being satisfied or very satisfied with the education available in the camps^{19,20}

Dec 2018

94%

Three most frequently reported education priorities for children^{16,19}

60%	Supplies	1	Improved curriculum	61%
53%	Money for education	2	Better teachers	36%
41%	Improved curriculum	3	Religious education	36%

CwC and Site Management

Three most frequently reported preferred methods of receiving information¹⁷:

July 2019

98%

Face to face

1

Face-to-face

Dec 2018

90%

78%

Loudspeakers

2

Loudspeakers

70%

%

3

Phone call

38%

43% of households reported wanting the opportunity to have community representation in their camps

87% of households reported knowing how to access available assistance¹⁸

July 2019

1%

of households reported facing barriers in accessing assistance in the camps.

Dec 2018

3%

85% of households reported feeling that assistance providers listen to their opinion

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps¹⁷:

- 85%** Mahji
- 65%** Camp In Charge
- 16%** Site Management Support agency

Priority Needs

Three most frequently reported priority needs:

1	Access to food	37%	
	Access to food	41%	
2	Shelter materials	23%	
	Fuel	31%	
3	Solar	23%	
	Household/cooking items	9%	

■ July 2019 ■ Dec 2018

15. Respondents could give up to three answers.

16. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals.

17. Respondents could give multiple responses.

18. Round 5 data only. These indicators were not included in SPP Round 4.

19. In July, this question was asked only to households with children under the age of 18. In December 2018, it was asked to all households.

20. This number is a combination of households that reported 'satisfied' or 'very satisfied'.
