Joint Multi-Cluster Needs Assessment: Baidoa District Profile

Bay Region, Somalia August 2017

Background

The ongoing drought has contributed to a rapid deterioration of the humanitarian context in Somalia, with a predicted high risk of famine in 2017. In support of the humanitarian planning response, the Clusters and the Assessment Working Group developed the Joint Multi-Cluster Needs Assessment (JMCNA) with the support of REACH in order to assess needs and access to basic services in Somalia.

The Somalia population was sampled for statistical representativeness at the district level with a confidence level of 90% and a margin of error of +/- 10%, employing a cluster sampling approach using the Population Proportional to Size method with replacement. Data collection was conducted by AAHI, ACF, ACTED, ADESO, Aid Vision, CARE, DBG, DRC, Galmudug MoH, HINNA, INTERSOS, IOM, NRC, PAH, REACH, SADO, SCI, SHARDO and SI.

This factsheet presents an analysis of data collected in Baidoa District between 15 and 20 July 2017 as part of the JMCNA. In total, 134 households were surveyed across Baidoa District.

†√**†** Demographics

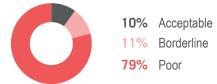

Household composition, by gender and age:

of households reported that they are not from the community they currently reside in.

Food Security

Food Consumption Scores (FCS) of households:

Coping Strategies Index (CSI) scores of households3:

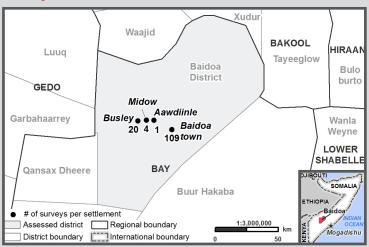

0	Minimum score
7	Average score
20	Maximum score

Reported challenges experienced by households when attempting to access food over the past three months²:

occood room over the past thirds intentine i		
Lack of resources to buy food	67%	
Lack of food items available to purchase	25%	
Lack of cooking utensils	15%	
Lack of cooking fuel	10%	
None of the above	22%	

days on average that households' food stocks will reportedly last.

Survey Locations

Vulnerabilities

% of households reporting the following members:

43%	Pregnant or lactating woman
21%	Sick child
4%	Disabled or chronically ill person
0%	Unaccompanied or separated child

Priority Needs

Top 3 priority needs reported by households1:

1. Water	84%
2. Food	73%
3. Healthcare	54%
