# **Settlement and Protection Profiling**

Camp 15 Ukhiya, Cox's Bazar, Bangladesh

July 2019 and November 2019 comparison

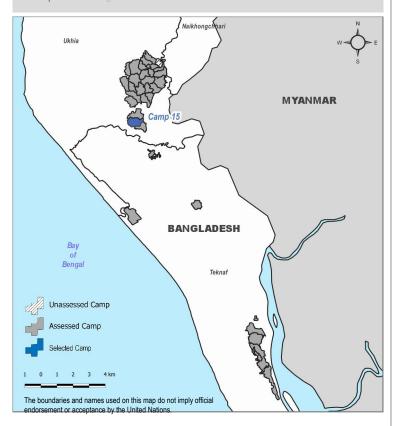

Round 6
November 2019

#### **Background and methodology**

Since August 2017, an estimated 744,400 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 914,998.¹ The majority are reliant on humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH in partnership with UNHCR conducted periodic Settlement and Protection Profiling in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The sixth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 28 October - 28 November, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 15, where 112 households were surveyed.

Where relevent, findings are compared to those of SPP Round 5 which took place from 25 June - 5 August, 2019.<sup>2</sup> November 2019 data is presented in dark blue, and July 2019 data is presented in light blue.

## ■■ Key Camp Information

Camp Management RRRC

Site Management Support IOM / Christian Aid

Population (individuals)¹49,400Population (families)¹11,175Camp Area0.99 km²

Population density 49,855 individuals/km<sup>2</sup>

#### **\*\*\*** Demographics

Household composition by gender and age:

49% of individuals are under 18

**75%** of individuals are women and children

There is an average of **4.8** individuals reported per household

8% of households reported the presence of members with disabilities<sup>4</sup>

#### From UNHCR Key Demographic Indicators dataset<sup>1</sup>

Families with PSN 29%

% of families with Persons with Specific Needs (PSN), by need<sup>3</sup>

,, ,, ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,		(),	<b>.</b>
Separated child(ren)	2%	Unaccompanied child(ren)	1%

Older person(s) at risk with children	2%	Single male parent with infants	1%
Serious medical condition(s)	4%	Single female parent	14%

93% of households arrived on 25 August 2017 or later

#### Protection

Five most frequently reported interventions needed to improve the sense of safety and security in the camps<sup>5</sup>:

Novemb	per 2019	J	uly 2019	
65%	Improved paths and roads	0	Improved paths and roads	55%
42%	More lighting	2	Better camp management	45%
40%	Advice about safety issues	8	Advice about safety issues	41%
26%	Better camp management	4	Increased community watch groups	38%
23%	Locks in shelters	6	Natural disaster warning system	34%

- 1. RRRC/UNHCR population data and key demographical indicators, 30 September 2019. https://data2.unhcr.org/en/documents/details/71792
- 2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling Round 4, December 2018. https://data2.unhcr.org/en/documents/details/71873
- 3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" https://bit.ly/2GnJE0h.
- 4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.
- 5. Respondents could give up to three answers.

# **Settlement and Protection Profiling** Camp 15

Three most frequently reported perceived risks faced by individuals in the camp<sup>6,7</sup>:

38% No issues 1 Natural hazards 44 22% Fear of kidnapping 2 No issues 37	0/

58%	Blanket	•	Shelter materials	57%
50%	Mat	2	Solar light	55%
42%	Solar light	3	Cooking items	50%

## **Health**

Novemb	er 2019	July 2019
29%	of household members were reported to have an illness serious enough to require medical treatment in the 30 days prior to data collection <sup>14</sup>	27%
62%	households reported being visited by a community health worker in the two weeks prior to data collection	29%

Three most frequently reported challenges in accessing NGO clinics in the camps<sup>15</sup>:

November 2019			July 2019	
67%	Crowded	0	Crowded	51%
46%	Supplies unavailable	2	Supplies unavailable	38%
22%	Treatment unavailable	3	None	28%

- 13. Respondents could give up to three answers.
- 14. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals.
- 15. Respondents could give multiple responses.
- 16. In July, this question was asked to households with children under the age of 18. In November 2019, it was asked to all households reporting the presence of members aged between 3 and 18 years old.

#### Education

November	2019	July 2019
95%	of households reported being satisfied or very satisfied with the education available in the camps 16	95%

Three most frequently reported education priorities for children<sup>14,16</sup>

51%	Supplies	0	Supplies	69%
40%	Money for education	2	Better teachers	42%
30%	Retter teachers	8	Money for education	20%

#### 🖺 🖍 CwC and Site Management

Three most frequently reported preferred methods of receiving information<sup>15</sup>:

November 2019 July 2019			
84%	Face to face	1 Loudspeakers	85%
80%	Loudspeakers	2 Face to face	<b>72</b> %
17%	Phone call	3 Information hub	5%
49%	of households reported representation in their	d wanting to have community camps	34%
81%	of households reported knowing how to access available assistance		
November 2019 July 2019			
4%	of households reported assistance in the camp	facing barriers in accessing	2%
80%	of households reported providers listen to their	feeling that assistance opinion	78%

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps<sup>15</sup>:

86%	Mahji	0	Mahji	88%
<b>76%</b>	Camp In Charge	2	Camp In Charge	44%
9%	Site Management Support agency	3	Site Management Support agency	6%

#### **¥** Priority Needs

Three most frequently reported priority needs:

0	Access to food Access to food	39%
2	Clothing Clothing	26% 17%
3	Electricity/solar Solar	19% 20%
