

Yambio Road Monitoring

Yambio County, Western Equatoria State, South Sudan

South Sudan Displacement Crisis

October 2020

CONTEXT AND METHODOLOGY

Yambio town is located in Yambio County, Western Equatoria State, near South Sudan's border with the Democratic Republic of Congo (DRC). Yambio town was the centre of significant armed clashes and widespread displacement in 2016, and hosts a large population of internally displaced persons (IDPs) many of whom have started to return home as of early 2018.

This factsheet provides results from the REACH road monitoring exercise in Yambio town, Yambio County. REACH monitors three bus/car parks in Yambio town to record the arrivals and departures of people on a daily basis. Daily data is synthesised into a monthly factsheet to provide an overview of wider movement trends, including push/pull factors and intentions.¹

The following findings are based on primary data collected over 20 days between 5 and 30 October 2020, during which 175 departing HHs (304 individuals) and 31 arriving HHs (51 individuals) were recorded through Yambio's three bus/car parks.²

Not all movements in and out of Yambio town were covered. Some arrivals and departures reportedly took place outside of data collection hours (9:00 a.m - 5:30 p.m) and were therefore not included. Moreover, departures are likely to be over-represented due to many arrivals getting off buses early as a result of the matatu system.³ As such, the data presented in this factsheet is not representative, rather **indicative** of movement trends for the assessed population.

GENERAL MOVEMENT TRENDS

Average daily number of individuals departing (red) and arriving (grey) with the intention to stay longer than six months, November 2019 to October 2020.

TRANSITS THROUGH YAMBIO TOWN

Transits recorded in Yambio (5 HHs) in October were few and consisted of HHs travelling through Yambio Town as part of longer journeys. Most HHs came from Tambura and Ibba and travelled to Juba or Nzara. Push and pull factors mainly revolved around rejoining family and presence/lack of markets or goods in the markets and attending ceremonies. No HHs were recorded to be transiting to and from the DRC in October. However, cross border movement is likely more prevalent in areas of Yambio County closer to the border with DRC, where REACH is currently not collecting data.

ARRIVALS TO YAMBIO

Demographics

Children 16%
Women 33%
Men 51%

100% of arriving households were partial households.⁴

Reasons for leaving previous location

Most commonly reported primary reason for leaving previous location for Yambio:^{5,6}

Reasons for coming to Yambio

Primary reported pull factors for coming to Yambio town July - October 2020⁵

	July 2020	August 2020	September 2020	October 2020
Presence of markets/goods	38%	40%	38%	50%
Rejoining family/home	50%	47%	46%	40%
Presence of job opportunities	4%	3%	7%	7%

Vulnerabilities

16% of total arriving HHs reported that at least one member of the HH was breastfeeding.

Previous county location[‡]

Reported county or state from which arriving households were coming:

Intended duration of stay in Yambio

Reported length of time that respondents intended to stay in Yambio:

Notes:

- These are indicative trends; REACH does not record all arrivals and departures.
- Due to the limited number of transits recorded, a detailed analysis of the dynamics of transiting households was not included in this factsheet, apart from a short narrative section.
- The matatu system involves buses that follow a set route in which passengers get on and get off at pre-determined stops. This means that many arriving passengers often get off at their stops before reaching Yambio town, while departing vehicles are nearly always full.
- "Partial" in the sense that not all members of the HHs were travelling with the interviewed HHs.

DEPARTURES FROM YAMBIO

Demographics

Children 25%
Women 48%
Men 27%

100% of departing households were partial households.⁴

Reasons for going to final location

Most commonly reported primary reason for travelling to desired location from Yambio:⁵

Reasons for leaving Yambio

Primary reported push factors for departing Yambio town July - October 2020:^{5,6}

	July 2020	August 2020	September 2020	October 2020
Distance from family/home	64%	67%	63%	54%
Lack of markets/goods	7%	10%	10%	12%
Lack of health services	7%	1%	5%	6%

Vulnerabilities

26% of total departing HHs reported that at least one member of the HH had a vulnerability, including:⁷

Destination county location[‡]

Reported county to which departing households were going:

Intended duration of stay in destination[‡]

Reported length of time that respondents intended to stay in destination:

Notes, continued:

- Reported presence of services or opportunities is indicative of respondents' perception and does not necessarily reflect availability.
 - In addition, 3% of arriving HHs and 18% of departing HHs reported that their travel was motivated by pull factors only, with no specific push factors driving them from their previous location.
 - Respondents could select multiple answers.
 - In addition, physically disabled HH member was reported by 2% of departing HHs.
 - This included 1% of departing HHs travelling to Makpandu camp in Yambio County.
- ‡. Percentages are rounded to the nearest integer, so responses may not add up to 100% exactly.
