

Settlement and Protection Profiling

Camp 27 Teknaf, Cox's Bazar, Bangladesh

July 2019 and November 2019 comparison

Round 6

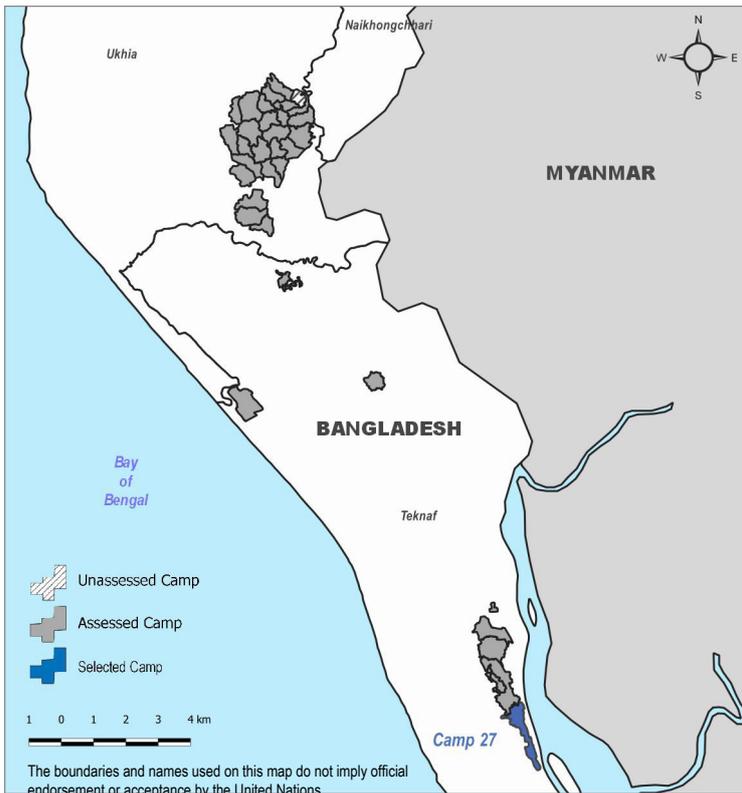

November 2019

Background and methodology

Since August 2017, an estimated 744,400 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 914,998.¹ The majority are reliant on humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH in partnership with UNHCR conducted periodic Settlement and Protection Profiling in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The sixth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 28 October - 28 November, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 27, where 96 households were surveyed.

Where relevant, findings are compared to those of SPP Round 5 which took place from 25 June - 5 August, 2019.² November 2019 data is presented in **dark blue**, and July 2019 data is presented in **light blue**.

Demographics

Household composition by gender and age:

54% of individuals are under 18
78% of individuals are women and children

There is an average of **5.3** individuals reported per household

9% of households reported the presence of members with disabilities⁴

From UNHCR Key Demographic Indicators dataset¹

Families with PSN **33%**

% of families with Persons with Specific Needs (PSN), by need³

Separated child(ren)	2%	Unaccompanied child(ren)	0%
Older person(s) at risk	3%	Person(s) with disability	3%
Older person(s) at risk with children	1%	Single male parent with infants	1%
Serious medical condition(s)	2%	Single female parent	23%

90% of households arrived on 25 August 2017 or later

Protection

Five most frequently reported interventions needed to improve the sense of safety and security in the camps⁵:

November 2019	July 2019
43% Advice about safety issues	57% Advice about safety issues
43% Increased community watch groups	48% Better camp management
40% Better camp management	45% Improved paths and roads
35% More lighting	33% Natural disaster warning system
26% Increased policing by authorities	16% Increased community watch groups

2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018.

<https://data2.unhcr.org/en/documents/details/71873>

3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" <https://bit.ly/2GnJE0h>.

4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.

5. Respondents could give up to three answers.

Key Camp Information

Camp Management	RRRC
Site Management Support	UNHCR / ADRA
Population (individuals) ¹	14,269
Population (families) ¹	3,150
Camp Area	1.33 km ²
Population density	10,758 individuals/km ²

Three most frequently reported perceived risks faced by individuals in the camp^{6,7}:

Three most frequently reported preferred sources of support for various forms of security incidents⁸:

	Involving self or family, with persons inside the camps		Involving self or family, with persons outside the camp		Witness to security incident within the camps	
	November 2019	July 2019	November 2019	July 2019	November 2019	July 2019
①	Mahji	Mahji	Camp-in-Charge	Mahji	Mahji	Mahji
②	Camp-in-Charge	Camp-in-Charge	Mahji	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge
③	Community members	Army	Army	Army	Army	Army

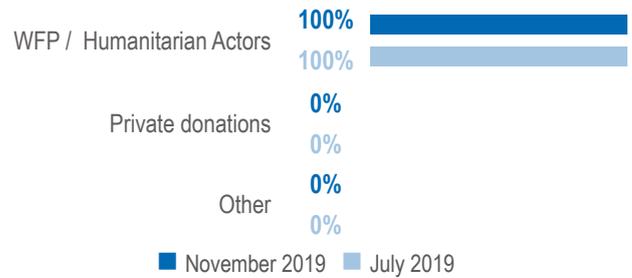

6. Respondents could give up to three answers.
 7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents.
 8. Respondents could give multiple answers.
 9. This question was asked to a subset of 81 households that reported a community watch group in their area.
 10. This question was asked to a subset of 61 households that contained children under 5.
 11. Findings on specific issues are reported as a percentage of households who reported any issues accessing latrines.

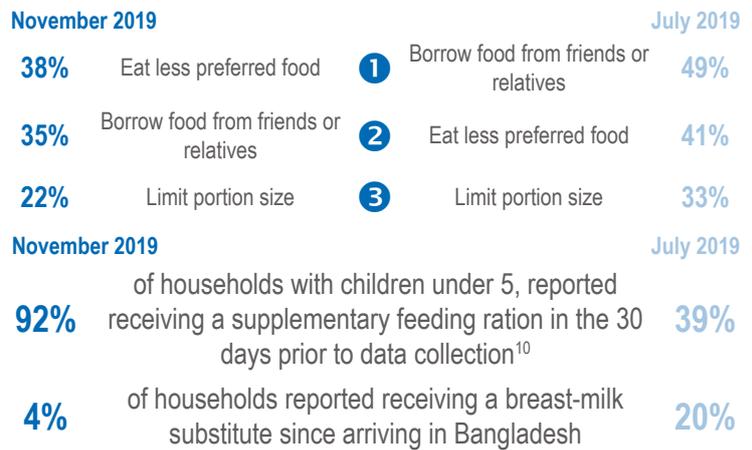

Food Security and Nutrition

November 2019 97% of households reported receiving food assistance in the month prior to data collection. Of these, the sources of assistance were⁸: July 2019 97%

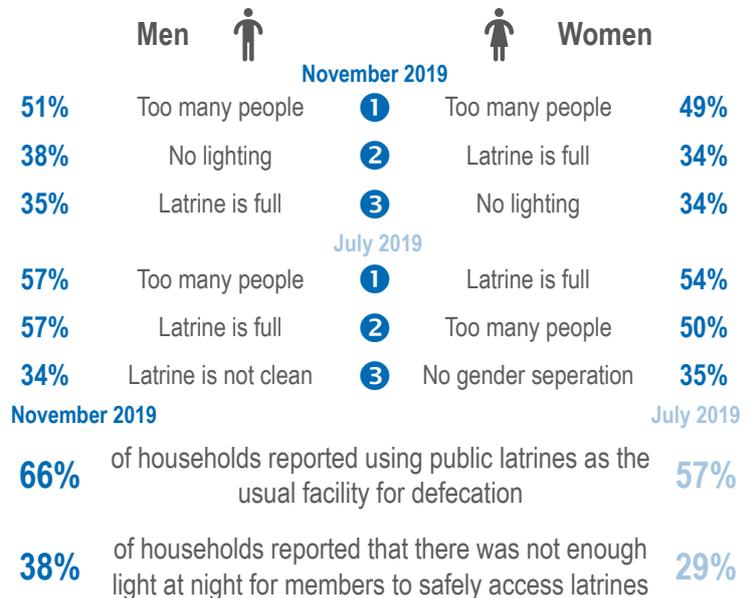

Three most frequently reported consumption coping strategies⁸:

Water, Sanitation, and Hygiene

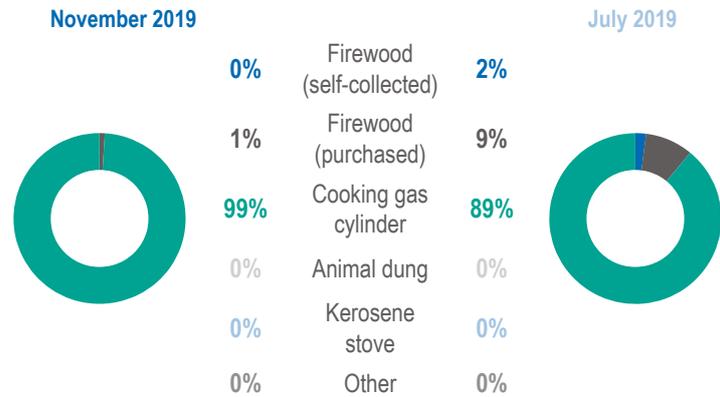

Three most frequently reported perceived issues with latrines for men and women^{8,11}:

Shelter and Non-Food Items (NFIs)

% of households reported their main source of fuel:

November 2019 **July 2019**

100% of households reported cooking inside their shelter **100%**

90% of households reported having a lock either inside or outside of their shelter **84%**

72% of households reported having a lock both inside and outside of their shelter **43%**

Three most frequently reported items needed to address household shelter and NFI needs¹³:

November 2019	July 2019
70% Blanket 1	61% Solar light
44% Solar light 2	60% Cooking items
39% Mat 3	45% Shelter materials

Health

November 2019 **July 2019**

29% of household members were reported to have an illness serious enough to require medical treatment in the 30 days prior to data collection¹⁴ **32%**

56% households reported being visited by a community health worker in the two weeks prior to data collection **29%**

Three most frequently reported challenges in accessing NGO clinics in the camps¹⁵:

November 2019	July 2019
67% Crowded 1	68% Crowded
49% Supplies unavailable 2	36% Supplies unavailable
32% Treatment unavailable 3	26% Treatment unavailable

13. Respondents could give up to three answers.
 14. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals.
 15. Respondents could give multiple responses.
 16. In July, this question was asked to households with children under the age of 18. In November 2019, it was asked to all households reporting the presence of members aged between 3 and 18 years old.

Education

November 2019 **July 2019**

93% of households reported being satisfied or very satisfied with the education available in the camps¹⁶ **96%**

Three most frequently reported education priorities for children^{14,16}

48% Better teachers 1	76% Supplies
46% Supplies 2	44% Better teachers
39% Age appropriate curriculum 3	26% Money for education

CwC and Site Management

Three most frequently reported preferred methods of receiving information¹⁵:

November 2019 **July 2019**

95% Face to face **1** **89%** Face to face

49% Loudspeakers **2** **64%** Loudspeakers

24% Phone call **3** **4%** Information hub

45% of households reported wanting to have community representation in their camps **35%**

86% of households reported knowing how to access available assistance **51%**

November 2019 **July 2019**

5% of households reported facing barriers in accessing assistance in the camps **3%**

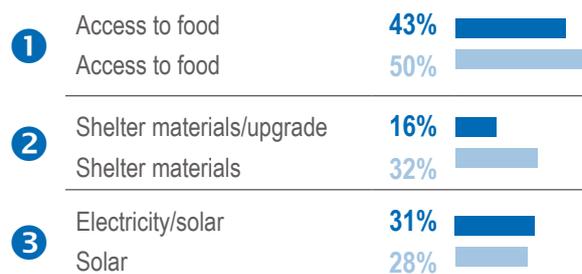

88% of households reported feeling that assistance providers listen to their opinion **82%**

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps¹⁵:

82% Mahji 1	91% Mahji
74% Camp In Charge 2	61% Camp In Charge
17% Site Management Support agency 3	12% Site Management Support agency

Priority Needs

Three most frequently reported priority needs:

■ November 2019 ■ July 2019
