

Settlement and Protection Profiling Ukhiya, Cox's Bazar, Bangladesh Camp 4e

Round 6 November 2019

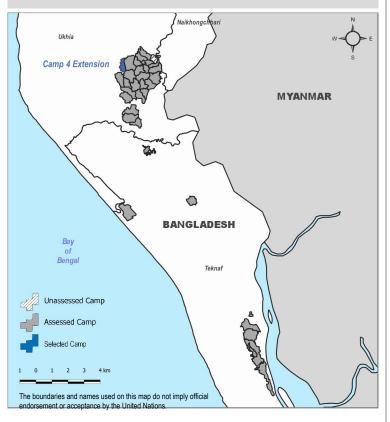

July 2019 and November 2019 comparison

Background and methodology

Since August 2017, an estimated 744,400 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 914,998.1 The majority are reliant on humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH in partnership with UNHCR conducted periodic Settlement and Protection Profiling in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The sixth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 28 October - 28 November, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 4e, where 94 households were surveyed.

Where relevent, findings are compared to those of SPP Round 5 which took place from 25 June - 5 August, 2019.² November 2019 data is presented in dark blue, and July 2019 data is presented in light blue.

Key Camp Information

The UN Refugee Agency

Camp Management	RRRC
Site Management Support	UNHCR / ACTED
Population (individuals) ¹	6,172
Population (families) ¹	1,492
Camp Area	0.5 km²
Population density	8,700 individuals/km ²

i **Demographics**

Household composition by gender and age:

79% of individuals are women and children

There is an average of 4.7 individuals reported per household

of households reported the presence of members with 10% disabilities4

2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018. https://data2.unhcr.org/en/documents/details/71873

3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" https://bit.ly/2GnJE0h.

4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication

5. Respondents could give up to three answers.

Settlement and Protection Profiling Camp 4e

Round 6 November 2019

Three most frequently reported perceived risks faced by individuals in the camp^{6,7}:

November 2019		Me	in Ju	uly 2019
35%	Fear of kidnapping	0	No issues	63%
34%	No issues	2	Fear of kidnapping	21%
33%	Risk of detention	B	Violence in the community	18%
	Ť	Wor	nen	
39%	No issues	0	No issues	65%
27%	Violence in the community	2	Fear of kidnapping	15%
20%	Fear of sexual assault	B	Fear of sexual assault	13%
	Ť	Boy	/S	
46%	Road accident	0	No issues	55%
37%	Fear of kidnapping	2	Fear of kidnapping	26%
37%	Fear of sexual assault	в	Road accident	20%
	*	Gir	s	
62%	Road accident	0	No issues	49%
45%	Fear of kidnapping	2	Fear of kidnapping	34%
22%	Fear of trafficking	3	Road accident	34%

Three most frequently reported preferred sources of support for various forms of security incidents⁸:

	Involving self or family, with persons inside the camps		Involving self or family, with persons outside the camp		Witness to security incident within the camps	
	November 2019	July 2019	November 2019 July 2019		November 2019	July 2019
0	Mahji	Mahji	Camp-in- Charge	Mahji	Mahji	Mahji
2	Camp-in- Charge	Camp-in- Charge	Mahji	Camp-in- Charge	Camp-in- Charge	Camp-in- Charge
₿	UN/NGO	Imam	UN/NGO	Army	Police	Community members

89% of households reported feeling safe in their shelter 96%

of households reported being satisfied or very
 91% satisfied with the community watch groups in their 91% area of the camp⁹

6. Respondents could give up to three answers.

7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents.

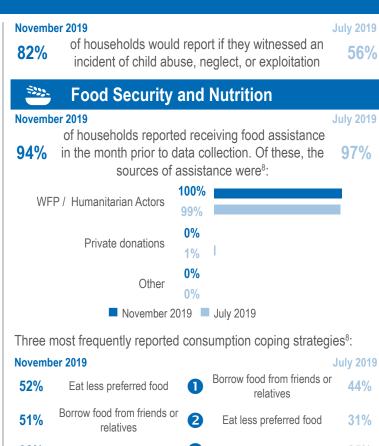

8. Respondents could give multiple answers.

9. This question was asked to a subset of 45 households that reported a community watch group in their area.

10. This question was asked to a subset of 67 households that contained children under 5

The UN Refugee Agency

11. Findings on specific issues are reported as a percentage of households who reported any issues accessing latrines.

32%	Limit portion size	3 Limit portion size	25%
Novembe	er 2019		July 2019
84%	receiving a supplement	nildren under 5, reported ary feeding ration in the 30 data collection ¹⁰	87%
7%		d receiving a breast-milk rriving in Bangladesh	18%

Water, Sanitation, and Hygiene

Three most frequently reported perceived issues with latrines for men and women^{8,11}:

	Men 👖	🛉 Women	
CO 0/		mber 2019	740/
68%	No lighting	 No lighting 	71%
37%	Too many people	2 No gender seperation	39%
26%	No gender seperation	3 Too many people	35%
