# Refugee Access to Livelihoods and Housing, Land, and Property

May 2019 **UGANDA** 

#### CONTEXT

Uganda is currently hosting the largest number of refugees in the region with over 1.2 million refugees and asylum seekers, primarily from South Sudan, the Democratic Republic of Congo (DRC), and Burundi.1 Recently arrived refugees have joined Rwandese, Somali, and other refugees that have lived in Uganda for decades. Due to the large number of refugees, the range of countries of origin, and the varying lengths of displacement, there are key information gaps on how access to or lack of housing, land, and property (HLP) for refugees impact their potential for sustainable livelihoods. In partnership with Norwegian Refugee Council (NRC), REACH conducted an assessment from 3 December 2018 to 15 March 2019 to collect baseline data on refugees' access to livelihoods and HLP. The assessment aims to provide a better understanding of the conditions of refugee access to livelihoods and HLP, the linkages, and other factors influencing sustainable livelihoods and potential movement within Uganda.

#### METHODOLOGY

A mixed methods approach was used, driven by a **POPULATION PROFILE OF** household-level structured survey, semi-structured key informant interviews (KIIs) and focus group discussions (FGDs). The quantitative household-level survey produced results representative for the refugee population in 30 refugee settlements (considered as 25 due to five combined settlements in Adjumani) across 11 districts, as well as select divisions of Kampala (Makindye, Kampala Central, and Kawempe) with a 95% confidence level and 10% margin of error at the settlement level for all questions asked to the entire sample size. A total of 3,165 households were interviewed for this assessment. All questions referring to a subset are footnoted.

KIIs and FGDs were used to triangulate the data and provide context to quantitative findings. KIIs targeted settlement leadership, including Office of the Prime Minister (OPM) commandants and UNHCR staff, refugee welfare committee leaders, district local government officials, and key partners working in relevant sectors. Semi-structured FGDs were stratified by gender and conducted with refugee and host community groups in each location.

Findings in this factsheet are representative of refugee households living in Nyumanzi refugee settlement. A total of 114 refugee households were interviewed in Nyumanzi.

# REFUGEES IN UGANDA

Female-headed households (HHs): 67%

Average household size:

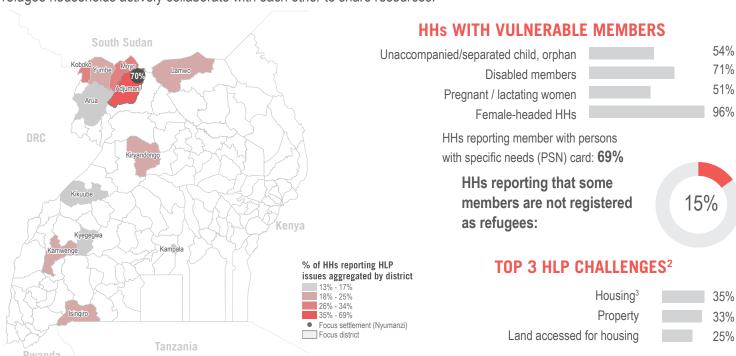

#### Displacement demographic

Top countries of origin:1

- South Sudan (65%)
- DRC (27%)
- Burundi (3%)
- Somalia (2%)

#### **BRIEF OVERVIEW OF NYUMANZI IN ADJUMANI DISTRICT**

After opening in January 2014, Nyumanzi has become the largest refugee settlement in Adjumani district in terms of population size. Despite their relatively recent arrival, residents are already well-established and a strong community has emerged in which refugee households actively collaborate with each other to share resources.

<sup>&</sup>lt;sup>1</sup> Figures based on United Nations High Commissioner for Refugees (UNHCR) and Office of the Prime Minister (OPM)population figures updated as of April 2019.

<sup>&</sup>lt;sup>3</sup> Respondents could answer more than one option for this question.

<sup>&</sup>lt;sup>2</sup>This question was only asked to the 70% of respondents facing HLP challenges. The level of confidence may thus be lower than 95%.

## HOUSING

**UGANDA** 

SETTLEMENT: NYUMANZI

**DISTRICT: ADJUMANI** 

HHs perceiving themselves at risk of eviction:

100%

#### **TENURE ARRANGEMENTS**

% of HHs by shelter tenure:

85% Owned by the head of the household14% Owned jointly between household members

1% Owned by the spouse

0% of HHs have documentation proving ownership or legal occupancy of shelter.

% of HHs by methods of shelter acquisition:

Construct	99%
Acquire	1%

Of the 99% of HHs that reported constructing their shelter, most commonly reported ways of acquiring materials:<sup>3</sup>

Nature	75%
Purchased	69%
Assistance	13%

#### SHELTER CHALLENGES

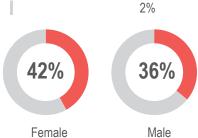

96% of HHs reported shelter damage. Of those, the most commonly reported parts of the shelter damaged are:<sup>3</sup>

Damage to roof	98%
Damage to windows and/or doors	13%
Damage to wall material	11%

44% of HHs reported not being able to conduct repairs. Of those, the most commonly reported reasons include:<sup>3</sup>

% of HHs reporting members do not feel safe in their current shelter:

88%

38%

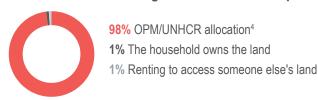

## LAND

#### **ACCESS TO LAND**

% of HH reporting:3

#### Method of accessing land around shelter plot:

4% of HHs reported accessing land outside their shelter. Of those, the most commonly reported methods of accessing that land are:<sup>3</sup>

OPM/UNHCR allocation	60%
Accessing someone else's land for free	40%

### **USE OF LAND FOR CULTIVATION**

94% of HHs reported using their shelter plot for cultivation. Of those, the following reported on sufficiency of the land to provide food for the HH in the most recent harvest.

#### FORMAL AGREEMENTS

Of the 2% that access land around shelter plot through renting, free access, or ownership, 0% of HHs that have a formal agreement to access the land

Of the 40% of land accessed outside of shelter plot through renting, free access, or ownership, 0% are accessed through formal agreement

<sup>&</sup>lt;sup>4</sup> The Government of Uganda allocates land for residential and agricultural purposes, to refugees, irrespective of ethnicity and origin. This is done via OPM with the support of UNHCR.

# **HLP Challenges**

**UGANDA** 

**DISTRICT: ADJUMANI** 

SETTLEMENT: NYUMANZI

70% of HHs reported facing HLP challenges. Of those:

Most commonly reported areas of HLP issues (% of HLP issues):3

Most commonly reported types of HLP issues (% of HLP issues):3

#### **HLP ISSUE RESOLUTION**

35% of the 96 HLP issues reported were attempted to be resolved by the household

Out of the HLP issues that HHs attempted to resolve, the following mechanisms were used:3

Refugee Welfare Committee	60%
Help desk	38%
Family	12%

30% of the HLP issues reported were resolved

# **PROPERTY**

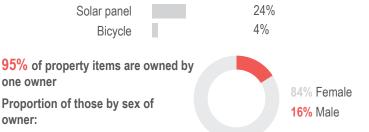

24% of HHs reported having no property at all. Out of the 76% who do:

HHs with income-generating property:

66%

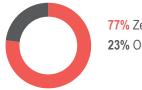

Most commonly reported type of property:

Livestock

of HHs that own property/assets reported having documentation proving ownership or legal access

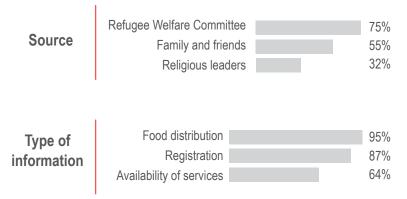

% of HHs owning number of income-generating property items:

77% Zero income-generating items 23% One income-generating item

# **ACCESS TO** INFORMATION

Most commonly reported sources and types of information HHs access:3

97% of HHs reported trusting the information they

Most commonly reported information needs of HHs by area:3

Availability of services	62%
Food distribution	52%
Registration	43%

owner:

## **LIVELIHOODS**

**UGANDA** 

**DISTRICT: ADJUMANI** 

**SETTLEMENT: NYUMANZI** 

### HHs reporting perceived livelihoods challenges:

100%

#### LIVELIHOODS SOURCES

Out of the 100% of HHs who reported having a source of income, the most commonly reported sources are:<sup>3</sup>

Most commonly reported livelihood groups HH members participate in:<sup>3</sup>

Farmers' group	38%
Village Savings and Loan Associations	21%
Farmer field school (FFS)/Pastoral Field School(PFS)	15%

#### Most commonly reported livelihoods challenges:3

#### **SKILLS AND ASPIRATIONS**

87% of HHs have men of working age and 99% of HHs have women of working age. Of those:

Most commonly reported livelihoods skills gained in country of origin:<sup>3</sup>

	Ť	•	<b>†</b>	
F	arming	77%	Farming	79%
L	ivestock	65%	Domestic work in the home	66%
D	omestic work in the home	39%	Livestock	27%

Most commonly reported livelihoods aspirations:3

Ť		<b>†</b>	
Health worker	26%	Street trade	43%
NGO or social work	21%	Tailoring	33%
Teacher	21%	: : Farming	24%

# **MOVEMENTS WITHIN UGANDA**

#### **PAST MOVEMENTS**

% of HHs that had at least one member move in the year prior to data collection:

#### Of those:

Types of destinations:

#### Most commonly reported reasons for moving:3

Presence of education services	58%
Presence of health services	17%
Joining other family members	8%

#### **MOVEMENT INTENTIONS**

% of HHs that have at least one member planning to move in the 6 months following data collection:
