Location Map

Summary

This profile provides an overview of water, sanitation and hygiene (WASH) infrastructure within Kutupalong RC in Ukhiya, Cox's Bazar. Primary data represents infrastructure present as of 9 November 2017.¹ Findings should be considered indicative only.

Access to Water

Three most commonly identified types of water points, by functionality

Key sectoral achievements

Targets based on WASH Sector Standards/Indicators for the Rohingya response, Sphere Minimum Standards/Indicators as well as Department of Public Health and Environment (DPHE) Minimum Standards/Indicators • Minimum standard/indicator reached, • 75%-99% minimum standard/indicator reached, • 50-74% minimum standard/indicator reached, • Less than 50% of minimum standard/indicator reached

| | Target | Previous Round | Current Round | Achievement |
|---|-----------------------|----------------|---------------|-------------|
| # of people per functioning hand pump | max. 500 ³ | N/A | 116 | |
| % of shelters within 200 metres of a functioning hand pump⁴ | 100% | N/A | 100% | |

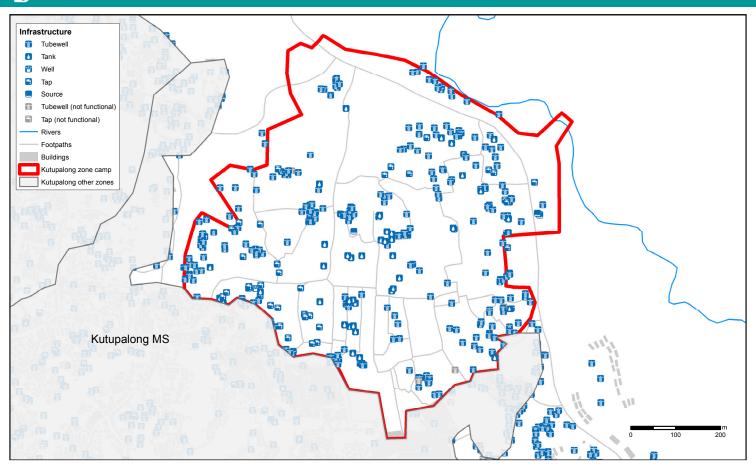

¹Primary data for this round was collected between 20 October and 9 November 2017. REACH enumerators conducted a full sweep of all sites and camps (as per boundaries defined by ISCG) and used an Open Data Kit (ODK) form to log all key infrastructure observed during this sweep, with further details to be logged for WASH infrastructure. ²Safe refers to fully covered latrines (i.e. a latrine with four walls, a roof and a door) ³ This target is based on standards for the long term (6 months+), for the immediate and medium phase (0-6 months) it is 500. ⁴ The distance is based on standards for the long term (6 months+), 500 metres.
