Statistics, 15 July 2015:
999 households
5,284 individuals
10 water points
16 water taps
330 residents per tap
(average)

Residents per Water Tap

Sphere standard:
Maximum of 250
residents per water tap

250 - 300 301 - 400 401 - 500 501 - 600 601 - 700

The polygons in the map above represent the **service areas** of each water point. A service area is defined as the area of land closer to that water point than to any other. All else being equal, camp residents will prefer to use the water point that is closest to their household.
