

Settlement and Protection Profiling

Camp 24 Teknaf, Cox's Bazar, Bangladesh

July 2019 and November 2019 comparison

Round 6

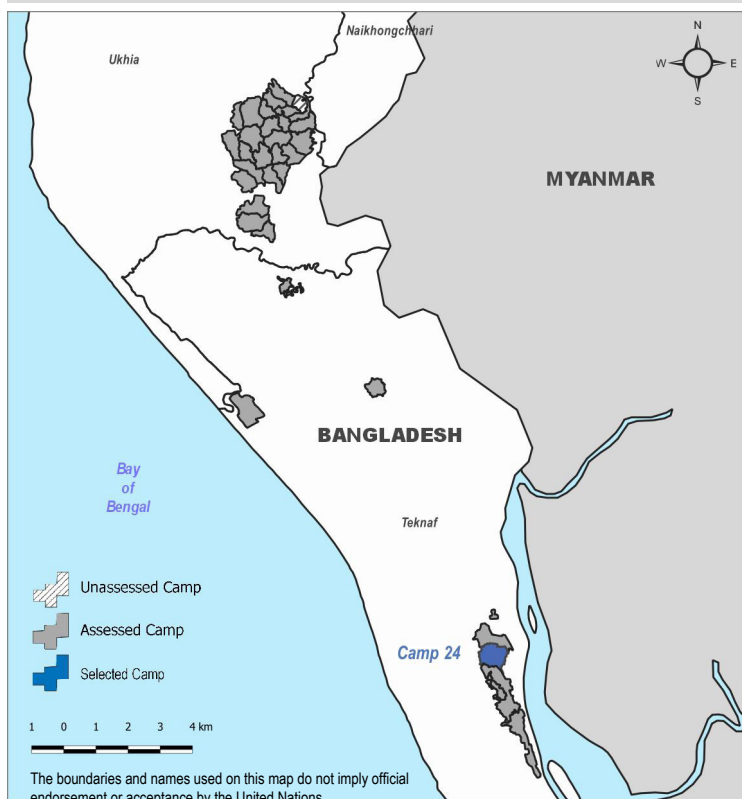

November 2019

Background and methodology

Since August 2017, an estimated 744,400 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 914,998.¹ The majority are reliant on humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH in partnership with UNHCR conducted periodic Settlement and Protection Profiling in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The sixth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 28 October - 28 November, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 24, where 99 households were surveyed.

Where relevant, findings are compared to those of SPP Round 5 which took place from 25 June - 5 August, 2019.² November 2019 data is presented in **dark blue**, and July 2019 data is presented in **light blue**.

Key Camp Information

Camp Management	RRRC
Site Management Support	IOM / IOM
Population (individuals) ¹	33,540
Population (families) ¹	7,760
Camp Area	1.18 km ²
Population density	28,551 individuals/km ²

Demographics

Household composition by gender and age:

55% of individuals are under 18
78% of individuals are women and children

There is an average of **4.9** individuals reported per household

5% of households reported the presence of members with disabilities⁴

From UNHCR Key Demographic Indicators dataset¹

Families with PSN **34%**

% of families with Persons with Specific Needs (PSN), by need³

Separated child(ren)	2%	Unaccompanied child(ren)	1%
Older person(s) at risk	4%	Person(s) with disability	4%
Older person(s) at risk with children	2%	Single male parent with infants	1%
Serious medical condition(s)	3%	Single female parent	21%

65% of households arrived on 25 August 2017 or later

Protection

Five most frequently reported interventions needed to improve the sense of safety and security in the camps⁵:

November 2019		July 2019
54%	Advice about safety issues	53%
54%	More lighting	46%
38%	Improved paths and roads	43%
33%	Better camp management	29%
29%	Increased community watch groups	23%

2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018.

<https://data2.unhcr.org/en/documents/details/71873>

3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" <https://bit.ly/2GnJE0h>.

4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.

5. Respondents could give up to three answers.

Settlement and Protection Profiling

Camp 24

Round 6
November 2019

Three most frequently reported perceived risks faced by individuals in the camp^{6,7}:

November 2019

Men

July 2019

38% No issues 1 Fear of kidnapping 43%

31% Violence in the community 2 No issues 33%

28% Fear of kidnapping 3 Violence in the community 27%

Women

49% No issues 1 No issues 37%

24% Fear of sexual assault 2 Violence in the community 26%

19% Violence in the home 3 Fear of sexual assault 24%

Boys

40% Fear of kidnapping 1 Fear of kidnapping 58%

31% Road accident 2 No issues 28%

31% No issues 3 Violence in the community 21%

Girls

47% Road accident 1 Fear of kidnapping 59%

38% Fear of kidnapping 2 Fear of trafficking 31%

25% Fear of trafficking 3 Natural hazards 27%

Three most frequently reported preferred sources of support for various forms of security incidents⁸:

	Involving self or family, with persons inside the camps		Involving self or family, with persons outside the camp		Witness to security incident within the camps	
	November 2019	July 2019	November 2019	July 2019	November 2019	July 2019
1	Mahji	Mahji	Camp-in-Charge	Mahji	Mahji	Mahji
2	Camp-in-Charge	Camp-in-Charge	Mahji	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge
3	Community leader	Army	Army	Army	Army	Army

98% of households reported feeling safe in their shelter 79%

99% of households reported being satisfied or very satisfied with the community watch groups in their area of the camp⁹ 96%

6. Respondents could give up to three answers.

7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents.

8. Respondents could give multiple answers.

9. This question was asked to a subset of 79 households that reported a community watch group in their area.

10. This question was asked to a subset of 67 households that contained children under 5.

11. Findings on specific issues are reported as a percentage of households who reported any issues accessing latrines.

November 2019

71%

of households would report if they witnessed an incident of child abuse, neglect, or exploitation

July 2019

80%

Food Security and Nutrition

November 2019

98%

of households reported receiving food assistance in the month prior to data collection. Of these, the sources of assistance were⁸:

July 2019

Settlement and Protection Profiling

Camp 24

Round 6
November 2019

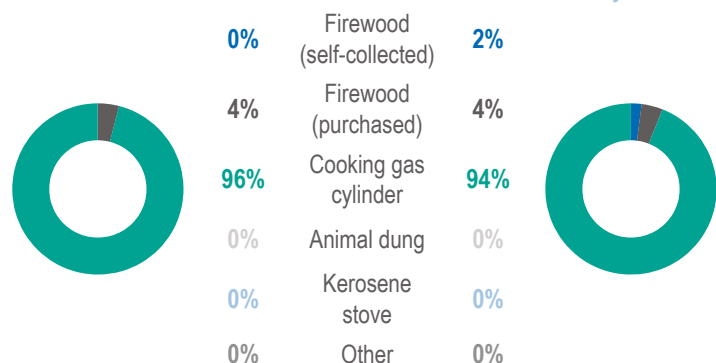

Shelter and Non-Food Items (NFIs)

% of households reported their main source of fuel:

November 2019

July 2019

November 2019

July 2019

100% of households reported cooking inside their shelter **99%**

76% of households reported having a lock either inside or outside of their shelter **75%**

59% of households reported having a lock both inside and outside of their shelter **21%**

Three most frequently reported items needed to address household shelter and NFI needs¹³:

November 2019

July 2019

69%	Blanket	1	Solar light	62%
52%	Solar light	2	Cooking items	54%
43%	Mat	3	Shelter materials	38%

Health

November 2019

July 2019

35% of household members were reported to have an illness serious enough to require medical treatment in the 30 days prior to data collection¹⁴ **28%**

44% households reported being visited by a community health worker in the two weeks prior to data collection **38%**

Three most frequently reported challenges in accessing NGO clinics in the camps¹⁵:

November 2019

July 2019

83%	Crowded	1	Crowded	73%
55%	Supplies unavailable	2	Supplies unavailable	22%
24%	Treatment unavailable	3	Treatment unavailable	21%

13. Respondents could give up to three answers.

14. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals.

15. Respondents could give multiple responses.

16. In July, this question was asked to households with children under the age of 18. In November 2019, it was asked to all households reporting the presence of members aged between 3 and 18 years old.

Education

November 2019

July 2019

93% of households reported being satisfied or very satisfied with the education available in the camps¹⁶ **93%**

Three most frequently reported education priorities for children^{14,16}

61%	Supplies	1	Supplies	69%
47%	Money for education	2	Improved curriculum	36%
46%	Better teachers	3	Money for education	35%

CwC and Site Management

Three most frequently reported preferred methods of receiving information¹⁵:

November 2019

July 2019

91%	Face to face	1	Face to face	95%
27%	Phone call	2	Loudspeakers	61%
23%	Loudspeakers	3	Information hub	1%

54% of households reported wanting to have community representation in their camps **59%**

76% of households reported knowing how to access available assistance **84%**

November 2019

July 2019

1% of households reported facing barriers in accessing assistance in the camps **3%**

84% of households reported feeling that assistance providers listen to their opinion **87%**

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps¹⁵:

81%	Mahji	1	Mahji	80%
75%	Camp In Charge	2	Camp In Charge	62%
23%	Community leader	3	Government authorities/army	5%

Priority Needs

Three most frequently reported priority needs:

1	Access to food	58%	43%
2	Electricity/solar	21%	26%
3	Electricity/solar	25%	21%
