

South Sudan - Camp Coordination and Camp Management

Assessment of Hard-to-Reach Areas in South Sudan

South Sudan Displacement Crisis

February 2018

Overview

The continuation of conflict since December 2013 has created a complex humanitarian crisis in the country, restricting humanitarian access and hindering the flow of information required by aid partners to deliver humanitarian assistance to populations in need. To address information gaps facing the humanitarian response in South Sudan, REACH employs its Area of Knowledge (AoK) methodology to collect relevant information in hard-to-reach areas to inform humanitarian planning and interventions outside formal settlement sites.

Using the AoK methodology, REACH remotely monitors needs and access to services in the Greater

Upper Nile, Greater Equatoria and Greater Bahr el Ghazal regions. AoK data is collected monthly and through multi-sector interviews with the following typology of Key Informants (KIs):

- KIs who are newly arrived internally displaced persons (IDPs) who have left a hard-to-reach settlement in the last month
- KIs who have had contact with someone living or have been in a hard-to-reach settlement in the last month (traders, migrants, family members, etc.)
- KIs who are remaining in hard-to-reach settlements, contacted through phone

Selected KIs are purposively sampled and have knowledge from within the last month about a specific settlement in South Sudan, with data collected at the settlement level. About half of settlements assessed have more than one KI reporting on the settlement. In these cases, data presented at the settlement level is the modal (most frequent) response for KIs reporting on that settlement. If there is an even number of 'yes/no' responses, data is aggregated as 'no consensus'.

All percentages presented in this factsheet, unless otherwise specified, represent the proportion of settlements assessed with that specific response.

The findings presented in this factsheet are indicative of the broad CCCM (Camp Coordination and Camp Management) trends in assessed settlements in February 2018, and are not statistically generalisable.

Assessment Coverage

1,458 Key Informants interviewed

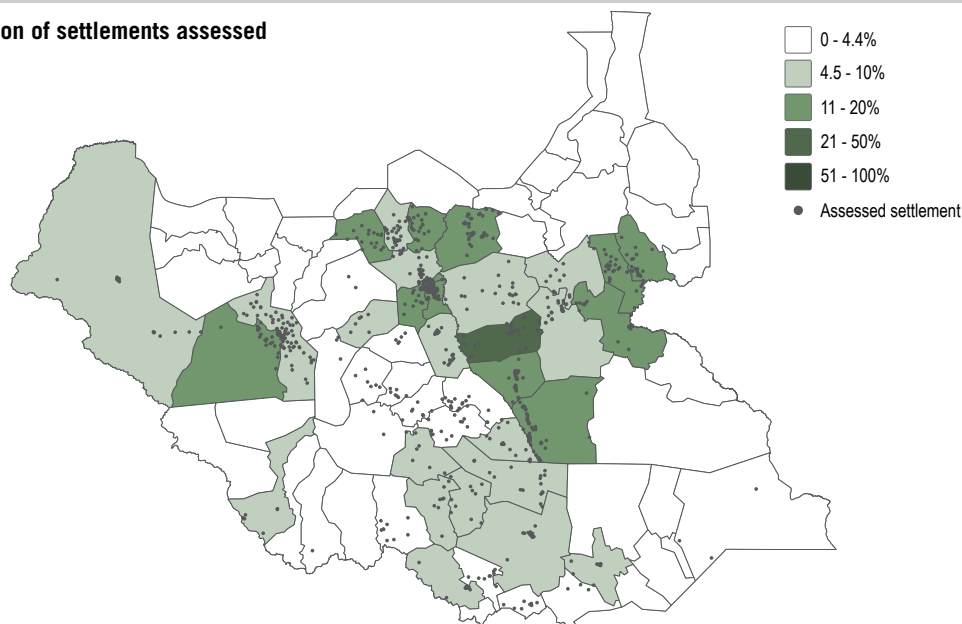

848 Settlements assessed

45 Counties assessed

30 Counties with 4.5% or more coverage¹

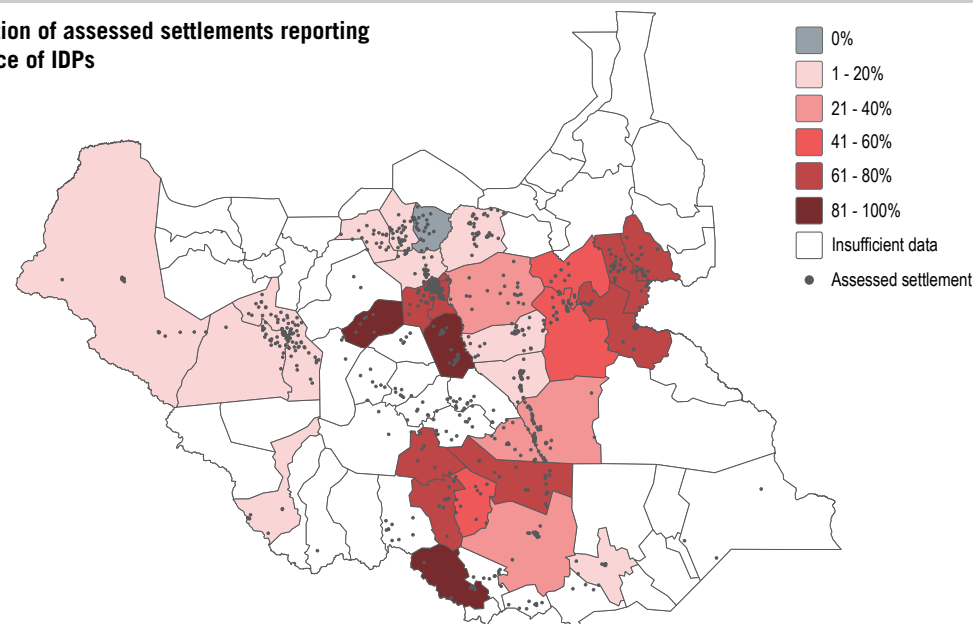

Assessment coverage

Proportion of settlements assessed

IDP Presence

Proportion of assessed settlements reporting presence of IDPs

¹ Data is only represented for counties in which at least 5% of settlements have been assessed. The most recent OCHA Common Operational Dataset (COD) released in February 2016 has been used as the reference for settlement names and locations.

February 2018

Leadership Structures and IDP Representation

Proportion of assessed settlements reporting the absence of local leadership structures in the community

Proportion of assessed settlements reporting IDPs not included in local community leadership structures

Leadership meetings

Top five assessed counties reporting community leadership meetings occurring once every few months

Mundri West	50%
Mundri East	40%
Tonj East	40%
Duk	32%
Ezo	29%

Most recent information: IDPs

Top five assessed counties reporting IDPs last receiving information from their pre-displacement location more than one month ago

Yei	58%
Akobo	48%
Nyirol	31%
Mvolo	29%
Mayendit	22%

Information sources

Top five assessed counties reporting IDPs accessing information from pre-displacement locations in person

Tonj East	67%
Leer	63%
Mayendit	58%
Akobo	52%
Mundri East	50%

Living conditions: IDPs

Top five assessed counties reported where most IDPs are staying in temporary shelters or in the open

Yei	67%
Ulang	38%
Leer	33%
Tonj East	33%
Nyirol	31%

South Sudan Displacement Crisis

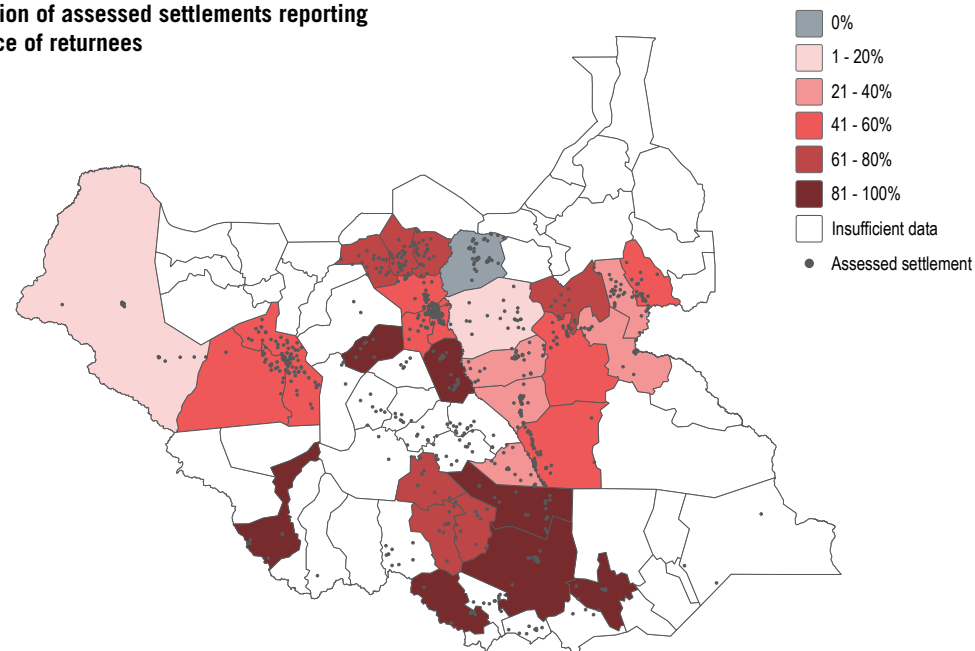

February 2018

Displacement and Population Movement

Proportion of assessed settlements with IDPs who have arrived within the last three months

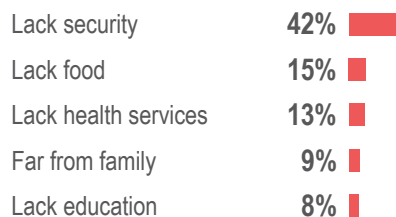

Proportion of assessed settlements reporting presence of returnees

Push factors: IDPs

Primary reported reason newly arrived IDPs left their previous location

Pull factors: IDPs

Primary reported reason newly arrived IDPs came to their current location

Previous locations: IDPs

Top five states reported by newly arrived IDPs as previous location

Intentions: IDPs

Amount of time that newly arrived IDPs intend to stay
