

Market Monitor – Refugee Hosting Areas

Refugee Settlement Price and Market Functionality Snapshot, 1-31 August 2021

REACH Informing more effective humanitarian action

UGANDA

OVERVIEW AND METHODOLOGY

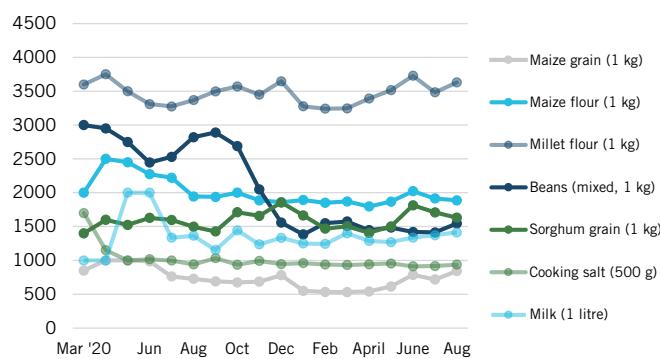

Uganda is one of the top refugee-hosting countries in the world, with a protracted refugee situation and ongoing influxes of refugees from neighboring countries. The country hosts 1,499,562¹ refugees as of 25 August 2021, with nearly 95% of refugees living in settlements primarily in the West Nile and Southwest regions of Uganda.

In view of this situation, the World Food Programme (WFP) has established a regular market price monitoring system across refugee settlements to inform cash-based response approaches. These monitoring efforts predate the COVID-19 crisis. However, due to the changing situation and ongoing COVID-19 containment measures, there is a risk that markets could be significantly affected and beneficiaries receiving cash assistance may not be able to access critical goods. In response, with the technical support of the Market Analysis Task Force and REACH in particular, this market price monitoring system has been expanded to capture crucial information to understand the impact of COVID-19 on commodity prices and functionality of markets in refugee communities across Uganda.

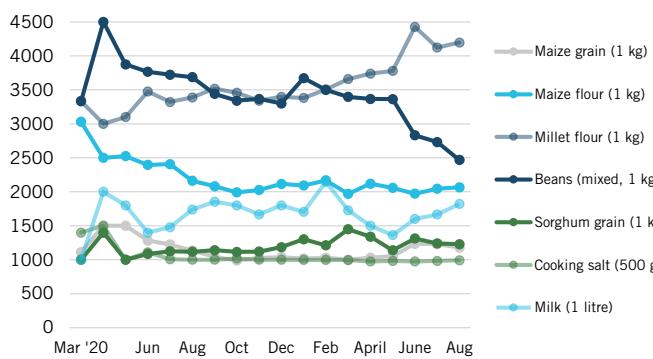

WFP collected the data through key informant (KI) interviews with traders, individuals selling key commodities, in markets across 13 refugee settlement locations from 1-31 August 2021. Part of the data was collected remotely, using the mobile Vulnerability Analysis and Mapping (mVAM) phone-based survey system. Data for sold loose items was collected in person with items purchased and weighted where possible.

Finally, KIs were purposively sampled, meaning the findings are indicative only. The figures represented in this factsheet are presented at the national and regional² levels, unless stated otherwise. In total, 180 traders were interviewed nationwide in this round. Of these, 79 were from the **Southwest Region (SWR)** and 101 were from the **West Nile Region (WNR)**.

Graph 1: Changes in food prices in Ugandan Shillings (UGX) in the SWR

Graph 2: Changes in food prices in UGX in the WNR

A full data set with commodity prices can be provided upon request.

KEY FINDINGS

Average cost of the **full MEB** in August 2021:
414,534 UGX

Average cost of the **food MEB** in August 2021:
256,811 UGX

▼ -6% compared to the full MEB March 2021.³

▼ -7% compared to the food MEB March 2021.

- Across regions, prices for key food items in the Minimum Expenditure Basket (MEB) have remained mostly stable. Since May, the price of beans in the WNR has decreased by 27% from 3,363 to 2,468 UGX. The price of 1 liter of milk has increased by 33% from 1,364 UGX to 1,821 UGX since May.
- More than half (52%) of the interviewed vendors reported accepting mobile money payments across the country. In the WNR, this proportion increased from 33% to 44% since July.
- Nationally, 18% of the interviewed vendors reported difficulties in meeting demand. However, in the SWR only 13% of the vendors reported difficulties, while in the WNR the proportion was much higher (23%).
- While 82% of traders nationwide reported no difficulties in meeting demand, 12% expressed concerns about running out of stock within one week. This percentage was slightly higher in the WNR (13%) compared to SWR where 10% of traders expressed this concern.
- The market price of the WFP GFA food basket decreased marginally by 2% from July to August 2021. Overall, the WFP cash transfer value was enough to meet the cost of the food basket in all the settlements except in Palabek.
- The average cost of the food MEB decreased by 4% from July to August 2021. Overall, the cost of the food MEB in August 2021 was 7% lower than the reference value of March 2021. By August 2021, the WFP cash transfer value could cover only 37% of the food MEB (39% in SWR and 36% in WNR).

KEY CHALLENGES

Top 3 challenges reported by traders⁴:

1	Lack of customers	53%
2	Price fluctuation of commodities	41%
3	Lack of cash to purchase more stock	26%

1. United Nations High Commissioner for Refugees, [Uganda Comprehensive Refugee Response Portal](#).

2. For analysis purposes, the 13 refugee settlement locations have been aggregated to two regions: West Nile (Palorinya, Palabek, Bidi Bidi, Imvepi, Rhino Camp, Lobule, Adjumani, Kiryandongo settlements) and Southwest (Kyangwali, Rwamwanja, Kyaka, Oruchinga, Nakivale settlements).

3. The March MEB cost constitutes the calculated national reference MEB cost for Uganda in 2021. This calculation is based on average and median commodity prices in the six months prior, October 2020 - March 2021.

4. These challenges are presented at the national level. Vendors could select multiple options. Therefore, percentages might not add up to 100%.

Market Monitor – Refugee Hosting Areas

Refugee Settlement Price and Market Functionality Snapshot, 1-31 August 2021

UGANDA

Uganda Minimum Expenditure Basket (MEB)

Food Items (monthly)

Maize flour	43.5 kg	Cassava (fresh)	3 kg
Beans	27 kg	Salt	0.75 kg
Sorghum grain	7.5 kg	Leafy vegetables	15 kg
Oil	3.75 L	Fish (smoked)	3 kg
Milk	1.5 L		

Non-Food Items (monthly)

Laundry soap	2.25 kg	Clothing*	3,806 UGX
Firewood	165 kg		

Other Components (monthly)

Water*	3,750 UGX	Livelihoods*	37,705 UGX
Education**	28,667 UGX	Transport*	11,001 UGX
Health*	2,669 UGX	Communication*	4,256 UGX
Lighting*	5,000 UGX		

Other Items (once per year)

Reusable sanitary pads	8 pc	Saucepan	3 pc
Jerry can (20 L)	2 pc	Plate	5 pc
Jerry can (5 L)	1 pc	Serving spoon	2 pc
Bucket with lid	1 pc	Cup	5 pc
Blanket	5 pc	Mingle (stirrer)	2 pc

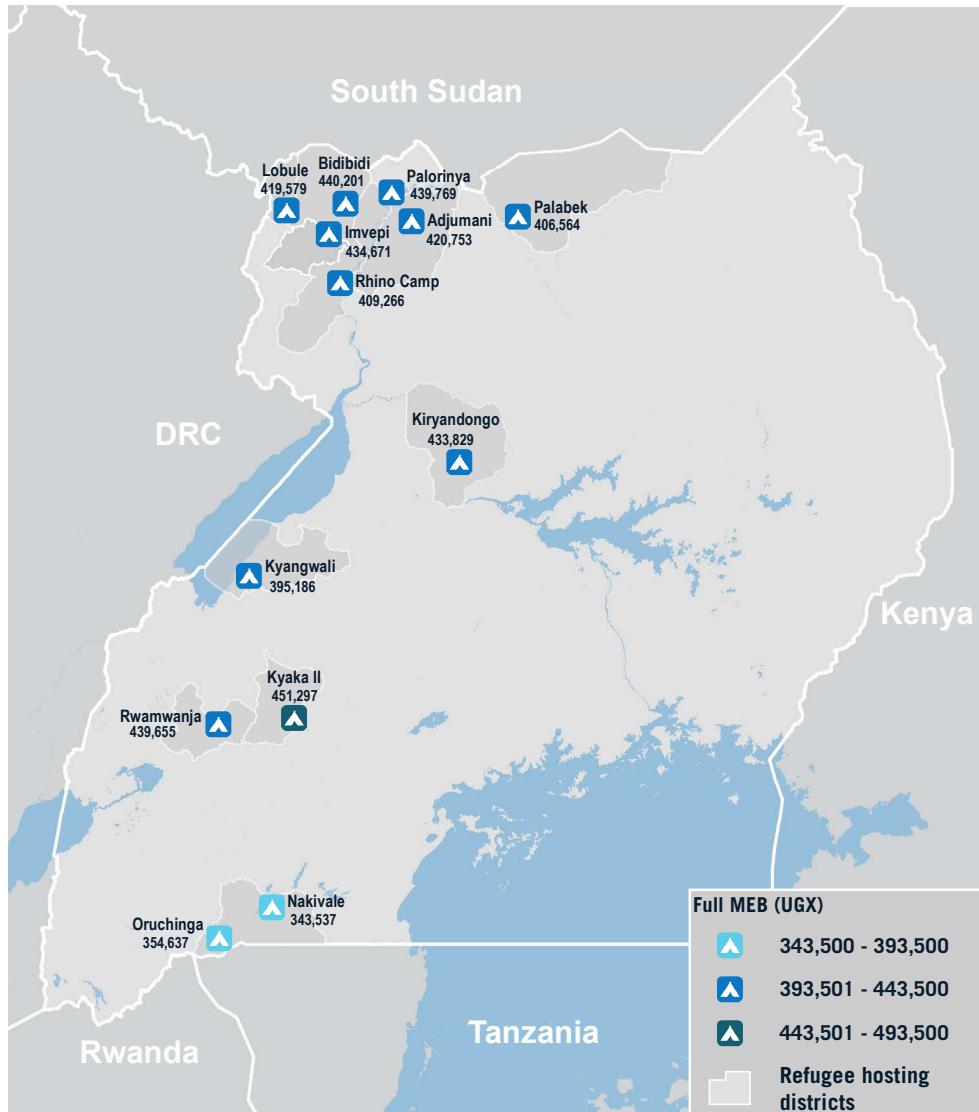

The MEB represents the minimum culturally adjusted group of items required to support a five-person refugee household in Uganda for one month. It is used as an operational tool to identify and quantify the average minimum cost of the regular or seasonal basic needs of a median household that can be covered through the local market.

Several core items were identified as being required once per year, so the total cost was divided by 12 to calculate the monthly amount. The MEB's contents were defined by the Cash Working Group in consultation with relevant sector leads. Some components were calculated based on item cost and others through a combination of analysis of household expenditures and sector-expert opinion.

*The starred items or components were calculated based on average sectoral or component cost per month based on expenditure data.

**Education costs were calculated based on average cost of school fees per year.

Map 1: Average cost of full MEB by settlement

Settlements with the least expensive average full MEB costs:

1. Nakivale
2. Oruchinga
3. Kyangwali

Settlements with the most expensive average full MEB costs:

1. Kyaka
2. Bidibidi
3. Palorinya

Full MEB cost percentage change since March 2021 (left) and July 2021 (right):

Settlement	March 2021 (%)	July 2021 (%)
Adjumani	-10%	+9%
Bidibidi	-2%	+1%
Imvepi	+3%	+2%
Kiryandongo	-6%	+3%
Lobule	-9%	-4%
Kyaka II	+7%	0%
Kyangwali	-14%	-2%
Nakivale	-16%	-19%
Oruchinga	-12%	-11%
Palabek	-15%	-3%
Palorinya	+13%	+9%
Rhino Camp	-14%	-5%

Some of the above listed commodities (*) are not traded in standard units (litres or kg), but in informal units ("bundles" or "basins"). These informal units are not strictly defined by weight, can vary from vendor to vendor or by time, and are therefore not directly comparable. To address this issue, price data needs to be determined via the actual purchase of a given commodity, by its weight and conversion into standard units. Due to COVID-19 restrictions, the price data of these commodities could not be collected for the month of June as enumerators were unable to make access the markets and make purchases. Prices reflect the weights and prices imputed based on April and May average.

6. One United States Dollar (USD) was equivalent to 3,690 UGX as of 9th of January 2021, according to [Oanda currency converter](#).

7. Price data for items listed under 'other MEB items' and underwear are only collected once every 6 months and can therefore only be compared against prices from March 2021 (upper).

8. Regional and national price aggregations are only reported, if enough price data exists across various settlements. Price changes are only reported where price data for a given item exists for both this reporting round and the reference periods, i.e. March 2021 and the last reporting round.

Market Monitor – Refugee Hosting Areas

Refugee Settlement Price and Market Functionality Snapshot, 1-31 August 2021

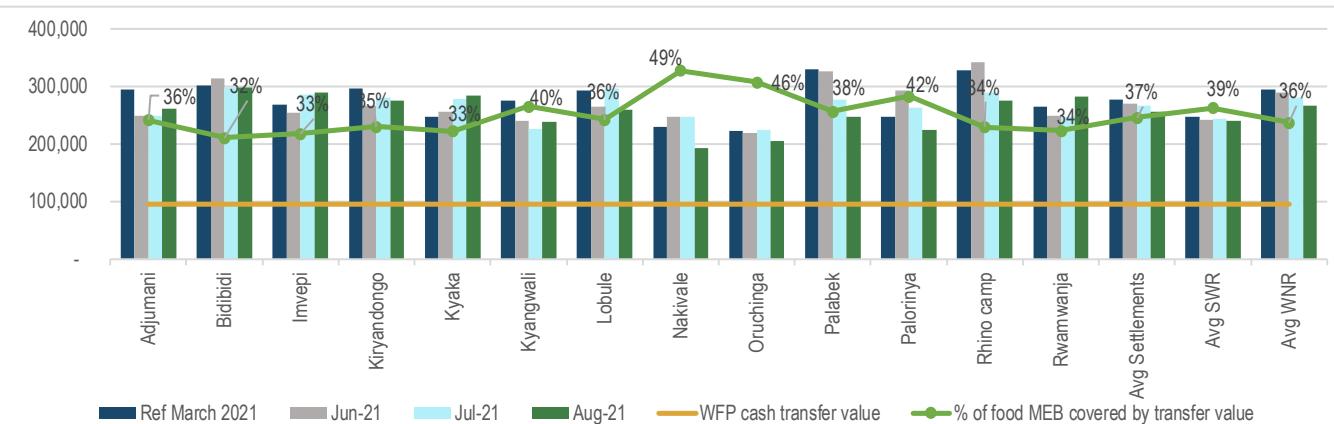

UGANDA

ANALYSIS OF WFP GENERAL FOOD ASSISTANCE (GFA) BASKET

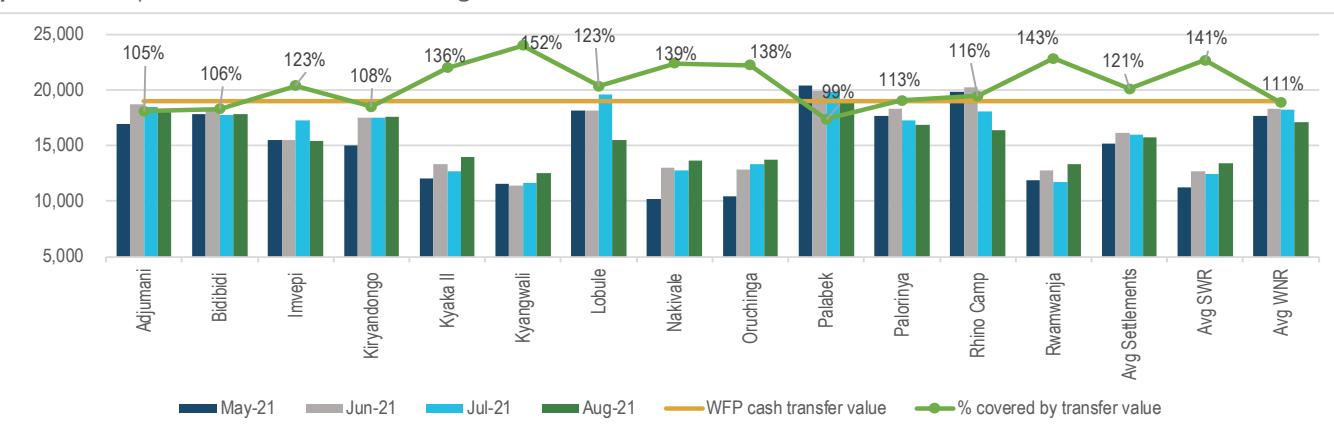

The analysis focuses on the market prices of commodities that make up the in-kind food basket that WFP provides to refugees for GFA and compares the price of the GFA basket with the GFA cash transfer value (19,000 UGX/person/month). The food basket consists of the following items and quantities: 7.56kg of maize grain, 1.8kg of beans, 0.54kg of vegetable oil and 0.09kg of salt per person per month. The quantities represent 60% of the normal WFP GFA basket as a result of ration cuts that were implemented starting February 2021. The analysis further compares the cost of the food MEB basket with the cash transfer value.

- Overall, the market price of the WFP GFA food basket⁹ decreased marginally by 2% from July to August 2021. At regional level, the price of the GFA food basket increased by 8% in SWR, whereas the WNR registered a 6% decrease during the same period (graph 4).
- In August 2021, the average cost of the WFP GFA food basket when averaged across all settlements was UGX 15,709/person/month (UGX 17,128 in WNR and UGX 13,438 in SWR). The cost of the WFP GFA food basket in WNR was 27% greater than the cost in SWR.
- In August 2021, the WFP cash transfer value could on average cover 121% of the cost of the WFP GFA food basket (111% in WNR and 141% in the SWR).
- The WFP cash transfer value was enough to meet the cost of the WFP GFA food basket in all the refugee settlements except in Palabek where it could cover 99% of the cost of the GFA food basket.

Graph 3: WFP cash transfer value vs. food MEB cost

Graph 4: Market price of the GFA basket in refugee settlement locations

The analysis further compares the WFP cash transfer value with the cost of the food MEB (detailed in graph 3) across settlements.

- The average cost of the food MEB decreased by 4% from UGX 266,810 in July to UGX 256,811 in August 2021. Both SWR (1%) and WNR (5%) recorded a decrease in the cost of the food MEB during the same period (graph 3).
- At regional level, the cost of the food MEB was lower than reference value of March 2021 in both SWR (13%) and WNR (4%). Overall, the cost of the food MEB in August 2021 was 7% lower than the reference value of March 2021.
- By August 2021, the WFP cash transfer value could cover only 37% of the food MEB (39% in SWR and 36% in WNR).
- The food MEB was most expensive in Bidibidi settlement (UGX 299,446), where the WFP cash transfer value could cover only 32% of the food MEB. The food MEB was least expensive in Nakivale settlement (UGX 193,250) where the WFP transfer value could cover 49% of the food MEB.

9. The GFA food basket represents 60% of the normal WFP GFA ration due to further ration cuts that started in February 2021. Similarly, the transfer value for cash beneficiaries reduced from 22,000 per person per month to UGX 19,000 per person per month in February 2021.
