PoC1 shelters averagely measure 15m² - *** Based on the last population registration counting 14,545 IDPs in PoC

Site Overview

Site management:	ACTED
Site population:	13,300 (re-registration currently ongoing)
Accommodation:	2,636 between official and unauthorized structures
Planned capacity:	3,172 structures
Site area:	88710.9 m ²
IDP origin:	The majority of IDPs arrived from Juba or elsewhere in Central Equatoria State

CCCM Mechanisms

The following structures are in place:

- Site management committee
- Chiefs committee
- Other committees
 - Women & Youth
 - Religious leaders
 - Community Watch Group

Key Developments

The registration / verification process is ongoing in PoC1 and is expected to finish by the end of June. There is no officially released figure but the IDP population is expected to significantly decrease in PoC1 (by approximately 5,000 IDPs) due to relocation, however its noted the PoC is still receiving new arrivals.

The GFD will start as soon as the registration exercise comes to an end, but the inclusion of Blanket Supplementary Feeding and Vouchers in the General Food Distribution might cause delays.

There was no Blanket Supplementary Feeding distribution in the past month since CSB+ was not available. Other health activities are ongoing like screening for malnutrition and a Handicap International one month training resulting on the selection of 6 attendees from PoC1 and 3 to work with the community providing counselling.

Location Map

Reported Priority Needs

Priority needs were reported and ranked by camp management as:

- Food
- Shelter
- Medical Assistance
