## Key Developments

Since the last camp profile (published 22 Oct) four community shelters outside of the warehouse have been replaced with tents. In this assessment 93% of tents had a secondary cover, but no tents had a winterised plinth.

99% of assessed households reported that they had sufficient water for purposes other than drinking and 89% felt they had enough drinking water in the past week.

13% received a food package in the past month containing less than a standard Family Food Parcel or equivalent (staple carbohydrates, dry pulses, oil, sugar and iodized salt).

12% of households reported having a member with a mental or physical disability, 26% included a pregnant or lactating woman and 14% had a member who was missing civil documents.
