

Settlement and Protection Profiling

Camp 9 Ukhiya, Cox's Bazar, Bangladesh

July 2019 and November 2019 comparison

Round 6

November 2019

Background and methodology

Since August 2017, an estimated 744,400 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 914,998.¹ The majority are reliant on humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH in partnership with UNHCR conducted periodic Settlement and Protection Profiling in order to support evidence-based monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The sixth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 28 October - 28 November, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 9, where 106 households were surveyed.

Where relevant, findings are compared to those of SPP Round 5 which took place from 25 June - 5 August, 2019.² November 2019 data is presented in **dark blue**, and July 2019 data is presented in **light blue**.

Key Camp Information

Camp Management	RRRC
Site Management Support	IOM / IOM
Population (individuals) ¹	36,817
Population (families) ¹	8,715
Camp Area	0.65 km ²
Population density	56,195 individuals/km ²

Demographics

Household composition by gender and age:

52% of individuals are under 18
77% of individuals are women and children

There is an average of **5** individuals reported per household

12% of households reported the presence of members with disabilities⁴

From UNHCR Key Demographic Indicators dataset¹

Families with PSN **29%**

% of families with Persons with Specific Needs (PSN), by need³

Separated child(ren)	2%	Unaccompanied child(ren)	1%
Older person(s) at risk	5%	Person(s) with disability	4%
Older person(s) at risk with children	3%	Single male parent with infants	1%
Serious medical condition(s)	6%	Single female parent	12%

75% of households arrived on 25 August 2017 or later

Protection

Five most frequently reported interventions needed to improve the sense of safety and security in the camps⁵:

November 2019		July 2019
58%	Improved paths and roads 1	Improved paths and roads 53%
40%	Advice about safety issues 2	Better camp management 45%
34%	Better camp management 3	Advice about safety issues 43%
28%	Increased community watch groups 4	Increased community watch groups 28%
26%	Natural disaster warning system 5	Natural disaster warning system 23%

2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018.

<https://data2.unhcr.org/en/documents/details/71873>

3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" <https://bit.ly/2GnJE0h>.

4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.

5. Respondents could give up to three answers.

Settlement and Protection Profiling

Camp 9

Round 6
November 2019

Three most frequently reported perceived risks faced by individuals in the camp^{6,7}:

November 2019

Men

July 2019

29%	No issues	1	No issues	56%
26%	Violence in the community	2	Fear of kidnapping	25%
25%	Fear of kidnapping	3	Violence in the community	23%

Women

34%	Violence in the home	1	No issues	57%
29%	Violence in the community	2	Natural hazards	26%
28%	Natural hazards	3	Fear of kidnapping	19%

Boys

42%	Fear of kidnapping	1	No issues	44%
25%	Road accident	2	Fear of kidnapping	37%
25%	Natural hazards	3	Fear of trafficking	22%

Girls

45%	Fear of kidnapping	1	Fear of kidnapping	48%
42%	Road accident	2	No issues	38%
26%	Fear of trafficking	3	Fear of trafficking	27%

Three most frequently reported preferred sources of support for various forms of security incidents⁸:

	Involving self or family, with persons inside the camps		Involving self or family, with persons outside the camp		Witness to security incident within the camps	
	November 2019	July 2019	November 2019	July 2019	November 2019	July 2019
1	Mahji	Mahji	Mahji	Mahji	Mahji	Mahji
2	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge	Camp-in-Charge
3	Army	Army	Army	Army	Army	Army

95% of households reported feeling safe in their shelter 88%

94% of households reported being satisfied or very satisfied with the community watch groups in their area of the camp⁹ 98%

6. Respondents could give up to three answers.

7. These results are based on the respondent's subjective perception of risks in the camp, and not the actual number of security incidents.

8. Respondents could give multiple answers.

9. This question was asked to a subset of 66 households that reported a community watch group in their area.

10. This question was asked to a subset of 72 households that contained children under 5.

11. Findings on specific issues are reported as a percentage of households who reported any issues accessing latrines.

November 2019

86%

of households would report if they witnessed an incident of child abuse, neglect, or exploitation

July 2019

66%

Food Security and Nutrition

November 2019

93%

of households reported receiving food assistance in the month prior to data collection. Of these, the sources of assistance were⁸:

July 2019

92%

Three most frequently reported consumption coping strategies⁸:

November 2019

48%

Eat less preferred food 1 Borrow food from friends or relatives

July 2019

58%

47%

Borrow food from friends or relatives 2 Eat less preferred food

40%

31%

Limit portion size 3 Limit portion size

28%

November 2019

75%

of households with children under 5, reported receiving a supplementary feeding ration in the 30 days prior to data collection¹⁰

July 2019

87%

11%

of households reported receiving a breast-milk substitute since arriving in Bangladesh

17%

Water, Sanitation, and Hygiene

Three most frequently reported perceived issues with latrines for men and women^{8,11}:

Men

November 2019

63%

Too many people

1 Too many people

74%

46%

Latrine is full

2 No gender separation

51%

39%

Latrine is not clean

3 Latrine is full

37%

July 2019

64%

Too many people

1 Too many people

57%

34%

Too far away

2 No gender separation

41%

28%

Latrine is full

3 Too far away

32%

November 2019

75%

of households reported using public latrines as the usual facility for defecation

July 2019

66%

38%

of households reported that there was not enough light at night for members to safely access latrines

13%

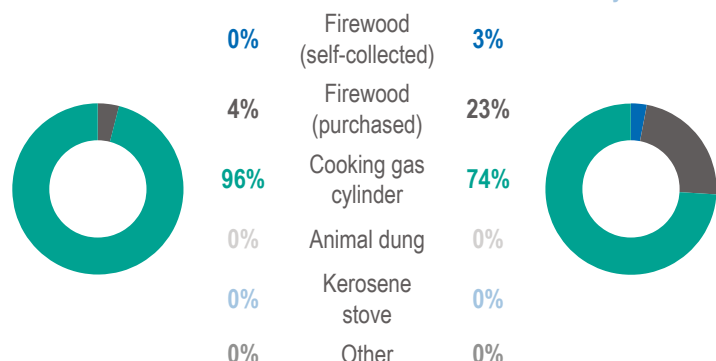

Shelter and Non-Food Items (NFIs)

% of households reported their main source of fuel:

November 2019

July 2019

November 2019

July 2019

97%	of households reported cooking inside their shelter	99%
85%	of households reported having a lock either inside or outside of their shelter	68%
83%	of households reported having a lock both inside and outside of their shelter	59%

Three most frequently reported items needed to address household shelter and NFI needs¹³:

November 2019

July 2019

56%	Blanket	1	Solar light	56%
52%	Solar light	2	Shelter materials	42%
38%	Cooking items	3	Cooking items	38%

Health

November 2019

July 2019

32%	of household members were reported to have an illness serious enough to require medical treatment in the 30 days prior to data collection ¹⁴	29%
57%	households reported being visited by a community health worker in the two weeks prior to data collection	44%

Three most frequently reported challenges in accessing NGO clinics in the camps¹⁵:

November 2019

July 2019

69%	Crowded	1	Crowded	63%
39%	Supplies unavailable	2	Supplies unavailable	38%
26%	Treatment unavailable	3	None	29%

13. Respondents could give up to three answers.

14. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals.

15. Respondents could give multiple responses.

16. In July, this question was asked to households with children under the age of 18. In November 2019, it was asked to all households reporting the presence of members aged between 3 and 18 years old.

Education

November 2019

July 2019

99% of households reported being satisfied or very satisfied with the education available in the camps¹⁶ 98%

Three most frequently reported education priorities for children^{14,16}

51%	Supplies	1	Supplies	68%
30%	Better teachers	2	Better teachers	38%
27%	Money for education	3	Money for education	35%

CwC and Site Management

Three most frequently reported preferred methods of receiving information¹⁵:

November 2019

July 2019

83%	Face to face	1	Face to face	78%
75%	Loudspeakers	2	Loudspeakers	75%
16%	Printed leaflet	3	Radio	7%

60% of households reported wanting to have community representation in their camps 57%

83% of households reported knowing how to access available assistance 74%

November 2019

July 2019

2%	of households reported facing barriers in accessing assistance in the camps	1%
87%	of households reported feeling that assistance providers listen to their opinion	82%

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps¹⁵:

90%	Mahji	1	Mahji	77%
72%	Camp In Charge	2	Camp In Charge	74%
13%	Site Management Support agency	3	Directly to service providers	15%

Priority Needs

Three most frequently reported priority needs:

1	Access to food	41%	Access to food	36%
2	Electricity/solar	21%	Shelter materials	22%
3	Access to food	18%	Solar	27%
