

Background and methodology

The aim of the Emergency Needs Tracking (ENT) System is to track the key priority needs of internally displaced persons (IDPs) in northwest Syria, as well as identifying communities with households in direct need of humanitarian assistance. The ENT assesses communities that have experienced any of the following in the three days prior to data collection: more than 40 IDP arrivals, natural hazards (including storms, fires, and flooding), conflict escalation, or any other event which impacts humanitarian needs. This information should serve to better inform immediate humanitarian operations, as well as provide a wider contextual understanding of the ongoing situation. As the humanitarian situation remains complex, it is critical to fill information gaps across sectors to ensure a well-coordinated humanitarian response.

Data was collected between 25 January and 31 January (excluding Friday and Saturday). Information was collected via a Key Informant (KI) methodology with one KI interview conducted per community. Findings should be considered indicative only. 87 communities, including 10 camps, were assessed overall across northern Aleppo and Idlib governorates. **The full dashboard can be accessed [here](#) and the full catalogue of datasets can be accessed [here](#).**

Protection

Percentage of assessed communities in which KIs reported the presence of newly-arrived IDPs with the following vulnerability types:¹

	%
Women headed households	54%
Elderly headed households	32%
Orphans	6%
Disabled headed households	6%
Elderly travelling alone	5%
Women travelling alone	3%
Child headed households/children travelling alone	3%

Food security

Most commonly reported food sources for newly-arrived IDPs in assessed communities:^{1 3}

- 1 Stores/markets in this community 86%
- 2 Relying on food stored previously 59%
- 3 Stores/markets in other communities 53%

97% of newly-arrived IDP households (803) were reportedly eating one meal or more per day

Shelter

Number and percentage of newly-arrived IDP households by shelter type:²

	#	%
Solid/finished buildings	407	49%
Functioning tents	227	27%
Unfinished/ damaged buildings	164	20%
Designated collective centres	22	3%
Makeshift shelter	2	<1%
Residing without any form of shelter	0	0%

NFI Non-Food Items (NFIs)

Number and percentage of newly-arrived IDP households without the following NFIs:²

	#	%
Households without fuel for heating	457	55%
Households without fuel for cooking	278	33%
Households without cooking utensils	123	15%
Households without bedding	109	13%
Households without mattresses	107	13%

Livelihoods

Most commonly reported currency used for purchasing basic/essential commodities:³

- 1 Turkish Lira 75%
- 2 Syrian Pound 18%
- 3 United States Dollar 7%

Health

94%

of newly-arrived IDP households (784) reportedly could access essential healthcare

¹ KIs could choose from multiple answer options so answers may exceed 100%

² Refers to percentage of total newly-arrived IDP households

³ Refers to percentage of assessed communities

IDP Priority Needs

Top ranked priority needs for newly-arrived IDPs
(by % of 87 assessed communities where KIs selected a first, second, and third priority need for IDPs):³

Type	First priority need (# of assessed communities reporting)	First priority need (% of assessed communities reporting)	Second priority need (# of assessed communities reporting)	Second priority need (% of assessed communities reporting)	Third priority need (# of assessed communities reporting)	Third priority need (% of assessed communities reporting)
Winterisation kits	14	16%	25	29%	26	30%
Multi-purpose cash grants	44	51%	15	17%	5	6%
Cash for rent	3	3%	7	8%	3	3%
Tools for repair	0	0%	0	0%	0	0%
New/additional shelters	10	11%	7	8%	1	1%
Food rations (in-kind)	9	10%	17	20%	29	33%
Cash for work	4	5%	2	2%	6	7%
Tools for home food production	0	0%	1	1%	0	0%
Employment support	2	2%	2	2%	1	1%
NFI kits	0	0%	5	6%	10	11%
Water provision/rehabilitation	1	1%	0	0%	2	2%
Hygiene kits	0	0%	2	2%	2	2%
Education support	0	0%	2	2%	2	2%
Child protection services	0	0%	1	1%	0	0%
Reproductive health and obstetric	0	0%	1	1%	0	0%

Water, Sanitation and Hygiene (WASH)

Most commonly reported drinking water sources for newly-arrived IDP households in assessed communities:^{1,3}

- 1 Informal water trucking conducted by private citizens 62%
- 2 Piped water network 31%
- 3 Formal water trucking conducted by authorities or an NGO 30%

4% of newly-arrived IDP households (36) reportedly did not have access to a sufficient quantity of drinking water, while 5% (41) reportedly did not have access to a sufficient quantity of water for other purposes such as cooking, bathing, and washing

15% of newly-arrived IDP households (123) reportedly did not have access to functioning hand-washing facilities with water and soap

3% of newly-arrived IDP households (28) reportedly did not have access to a functioning toilet

44% In 38 communities, KIs reported that soap and hygiene items are too expensive for some newly-arrived IDPs

Humanitarian Assistance

84%

In 73 communities, KIs reported that the preferred modality of assistance for newly-arrived IDPs was cash/ voucher assistance

94%

In 82 communities, KIs reported that no barriers were present for humanitarian actors when accessing the community

About REACH

REACH Initiative facilitates the development of information tools and products that enhance the capacity of aid actors to make evidence-based decisions in emergency, recovery and development contexts. The methodologies used by REACH include primary data collection and in-depth analysis, and all activities are conducted through inter-agency aid coordination mechanisms. REACH is a joint initiative of IMPACT Initiatives, ACTED and the United Nations Institute for Training and Research - Operational Satellite Applications Programme (UNITAR-UNOSAT).
