

IDP Hosting Sites in Ibb

Context & Methodology

As part of their regular programming, the CCCM Cluster and partners, with the support of REACH, are implementing the Site Report to build a profile of IDP hosting sites in Yemen. This activity is carried out to inform a more targeted, evidence-based humanitarian response. The findings presented here provide an overview of basic information on population demographics, site conditions, service access, site threats and community needs. A total of **28 IDP hosting sites out of 61 IDP hosting sites** in Ibb governorate were surveyed, with a total population of 10,749 individuals out 16,889 individuals. Data was received between January 2022 - May 2022 through key informant interviews with community representatives in each site. The findings presented should be generally read as the proportion of assessed sites as reported by key informants. Findings should be considered as both indicative and incomplete. All information is for humanitarian use only.

Ibb assessment coverage: Districts assessed through the Site Report

Site overview

Land ownership

Type of site

Tenancy agreement

Proportion of assessed sites with a tenancy agreement

Proportion of assessed sites with a tenancy agreement reportedly facing eviction threat

Displacement

Most common governorates of origin of displaced households, by proportion of assessed sites

Most common districts of origin of displaced households, by proportion of assessed sites

* Additionally, Al Mudhaffar, At Taiziyah, Ad Durayhimi districts were also reported as most common districts of origin in 4% of assessed sites.

Most common reason for displaced households to leave their place of origin, by proportion of assessed sites*

*Respondents could select multiple options for these questions, and therefore overall figures may not add up to 100%.

Most common movement intention of displaced households for the coming three months, by proportion of assessed sites

Demographics

Proportion of assessed sites with presence of High-Risk Groups*

Proportion of assessed sites with population groups other than IDPs*

*Respondents could select multiple options for these questions, and therefore overall figures may not add up to 100%.

Infrastructure/Resources

Proportion of assessed sites with cooking fuel in site / close proximity

Proportion of assessed sites with electricity / solar power

Proportion assessed of sites with markets in site / close proximity

Access to Services

Proportion of assessed sites by adequacy of services, per service type

	Adequate	Inadequate	Non-existent
RRM distributions	4%	29%	68%
Shelter / maintenance services	4%	54%	43%
NFI distributions	4%	36%	61%
Food distributions	4%	50%	46%
Cash distributions (multi-purpose)	0%	50%	50%
WASH services	11%	61%	29%
Healthcare services	0%	7%	93%
Education services	4%	25%	71%
Livelihood services	0%	0%	100%
Protection services	0%	46%	54%
Nutrition services	0%	18%	82%
Waste disposal services	4%	25%	71%

Priority Needs

Proportion of assessed sites per priority needs

	First	Second	Third
Cash assistance	0%	4%	25%
Education	0%	0%	4%
Food	54%	14%	4%
Water	4%	7%	14%
Legal services	0%	0%	0%
Livelihood assistance	0%	0%	4%
Medical assistance	0%	11%	18%
Non-food items	11%	50%	11%
Protection services	0%	0%	0%
Sanitation services	4%	0%	18%
Shelter / maintenance	25%	14%	4%
Nutrition services	0%	0%	0%

Primary Shelter Type

Proportion of sites per primary shelter type

Primary Latrine Type

Proportion of sites per primary latrine type

Primary Water Source

Proportion of sites per primary water source

Site Threats

Most common threats to sites by proportion of assessed sites*

Fire Safety Measures

Most common fire safety measures adopted in the sites, by proportion of assessed sites*

Data Collection Partners

The following **CCCM partner** supported the data collection for the CCCM Site Report in Ibb governorate from January 2022 - May 2022:
Tamdeen Youth Foundation, IOM, Yemen Family Care Association (YFCA)

*Respondents could select multiple options for these questions, and therefore overall figures may not add up to 100%.
