

Map Notes: The polygons surrounding each community are generated by the ArcToolbox tool "Create Thiessen Polygons" utilising the OCHA Populated Places dataset SYR_Adm4. These polygons do not represent the physical boundaries of each community, but rather are a spatial representation of their areas of influence. The total number of IDPs at a subdistrict level is represented by the grey scale. Communities without a P-code are not represented on this map.

Data sources:
OCHA COD: Geographic Boundaries
