

## Introduction

This multi-sector needs assessment is part of a monthly data collection exercise which aims to gather information about needs and the humanitarian situation inside Syria. The factsheets present information collected in June 2016, referring to the situation in May 2016.

These factsheets present information at the community/village level for each sub-district in Al Hasakeh governorate. In Al Hasakeh City (within Al Hasakeh sub-district), neighbourhood level data has been collected so information is presented at this level\*. Selected key indicators for the following sectors are included in the factsheets: displacement, shelter, NFIs, health, food security, WASH, education. The factsheets do not cover the entire range of indicators gathered in the questionnaire.

For full visualisation of all indicators collected, please see the SIMAWG Needs Identification Dynamic Reporting Tool, available here: <http://www.reach-info.org/syr/simawg/>

## Methodology and limitations

These findings are based on data collected remotely (in Jordan, Lebanon, Kurdistan Region of Iraq and Turkey) from Key Informants residing in their community of origin in Syria.

Information was collected from Key Informants in 78 communities in 13 sub-districts of Al Hasakeh governorate. For each question asked, confidence levels are assigned based on the Key Informant's area of expertise and knowledge of the sector-specific situation.

For a full description of the methodology, please see the Terms of Reference, available on the [REACH Resource Centre here](#) (link).

## Shelter

### Most common shelter

- Independent apartment or house
- Shared apartment or house
- Collective public space not for shelter
- Private space not for shelter
- Unfinished apartment or house
- No IDPs
- No information

Min - Max: rent paid per room (where known)

### Tal Tawel (Marsho)

IDPs NDP   
3500 - 4000 SYP

### Tal Tawel (Mahshosh)

IDPs NDP   
No rent information

### Safya

IDPs NDP   
No rent information

### Western Sabe Skur

IDPs NDP   
No rent information

## Livelihoods

Most common strategies used to cope with lack of income / resources

### Tal Tawel (Marsho)

Borrowing from family/friends  
Selling household assets

### Safya

Borrowing from family/friends  
Selling household assets

### Tal Tawel (Mahshosh)

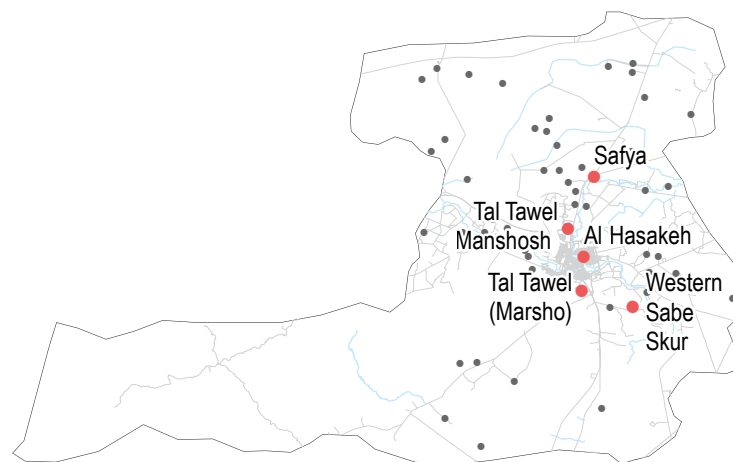

Taking loans/buying on credit  
Spending days without eating

### Western Sabe Skur

Borrowing from family/friends  
Reducing meal size

### Assessed communities (7/52)

- Tal Tawel (Marsho)
- Tal Tawel (Mahshosh)
- Western Sabe Skur
- Safya
- Al Hasakeh city (3 communities assessed within Al Hasakeh city are shown on next factsheet)

## Displacement

### Tal Tawel (Marsho)

26-50%   
 9000 - 10000 SYP

### Tal Tawel (Mahshosh)

51-75%  
 500 - 2000 SYP

### Western Sabe Skur

51-75%  
 800 - 8000 SYP

### Safya

76-100%  
 800 - 1500 SYP

## NFIs
