

**Included Indicators\***

1. % of IDPs/returnees over total population (18%)
2. % of populated area with high flood susceptibility (6%)
4. % of IDP HHs in IDP sites reporting access to market in site or close proximity (4%)
5. % of HHs whose primary shelter type is instable or non-existent (20%)
- 6b. % of civilian houses and private dwelling partially/completely uninhabitable due to damage or destruction (20%)
7. % of people living in IDP hosting sites relative to total district population (4%)
8. % of IDP HHs in IDP sites who have basic services (fuel & electricity) in sites or close proximity (8%)
9. % of IDP HHs in IDP sites who have essential sectoral services in shelters/sites or close proximity (4%)
10. % of HHs facing eviction threats (17%)
11. % of HHs who report being able to pay rent regularly (15%)
12. % of district area exposed to violence (-16%)

\* % highlight each indicator's weight in the severity score calculations

**Severity Score per District**

- |                |                    |
|----------------|--------------------|
| 1 - No/Minimal | 4 - Extreme        |
| 2 - Stress     | 5 - Catastrophic   |
| 3 - Severe     | Excluded Districts |

*This map highlights the severity of 2021 Shelter Needs in those Yemeni districts, where long-term Shelter assistance (i.e. rehabilitation, structural/reconstruction repairs) could be potentially implemented. The higher the Severity Score, the more need for long-term solutions in this district. Findings are based on 11 indicators, which were informed by a secondary data review and expert discussions.*

*NOTE: Findings are to be considered as indicative. Data, designations and boundaries contained on this map are not considered to be error-free and do not imply acceptance by REACH partners, associates or donors mentioned on this map.*
