

## Introduction

This multi-sector needs assessment is part of a monthly data collection exercise which aims to gather information about needs and the humanitarian situation inside Syria. The factsheets present information collected in April 2016, referring to the situation in March 2016.

These factsheets present information at the community/village level for each sub-district in Al Hasakeh governorate. In Al Hasakeh and Qamishli Cities, neighbourhood level data has been collected so information is presented at this level\*. Selected key indicators for the following sectors are included in the factsheets: displacement, shelter, NFIs, health, food security, WASH, education. The factsheets do not cover the entire range of indicators gathered in the questionnaire.

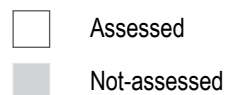

For full visualisation of all indicators collected, please see the SIMAWG Needs Identification Dynamic Reporting Tool, available here: <http://www.reach-info.org/syr/simawg/>

## Methodology and limitations

These findings are based on data collected remotely (in Jordan, Lebanon, Kurdistan Region of Iraq and Turkey) from Key Informants residing in their community of origin in Syria.

Information was collected from Key Informants in 78 communities in all 12 sub-districts of Al Hasakeh governorate. For each question asked, confidence levels are assigned based on the Key Informant's area of expertise and knowledge of the sector-specific situation.

For a full description of the methodology, please see the Terms of Reference, available on the [REACH Resource Centre here](#) (link).

## Shelter

### Most common shelter

- Independent apartment or house
  - Shared apartment or house
  - Collective public space not for shelter
  - Private space not for shelter
  - Unfinished apartment or house
  - No IDPs
  - No information
- Min - Max: rent paid per room (where known)

### Um Hajra Almoqbela

IDPs NDP  
  
 No rent information

### Western Sabe Skur

IDPs NDP  
  
 No rent information

### Safya

IDPs NDP  
  
 No rent information

### Tal Tawel (Mahshosh)

IDPs NDP  
  
 No rent information

### Tal Tawel (Marsho)

IDPs NDP  
  
 3500 - 4000 SYP

## Livelihoods

### Most common strategies used to cope with lack of income / resources

### Um Hajra Almoqbela

Borrowing from family/friends  
 Spending days without eating

### Tal Tawel (Mahshosh)

Selling household assets  
 Reducing meal size

### Western Sabe Skur

Taking loans/buying on credit  
 High risk/illegal work  
 Selling household assets

### Tal Tawel (Marsho)

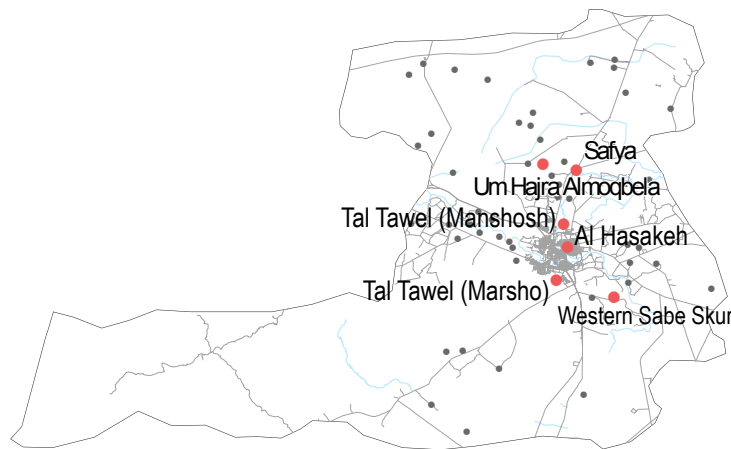

Borrowing from family/friends

### Safya

Borrowing from family/friends

### Assessed communities (7/52)
