

As part of a wider project to understand the profile and motivations of people migrating to the European Union, this factsheet presents key findings related to migration from Niger. Information presented here is based on interviews with key informants, who were asked to report on migration from their community. Findings presented here are based on a small, purposive sample of respondents and should be considered indicative only.

Date of data collection: 7-29 April 2016

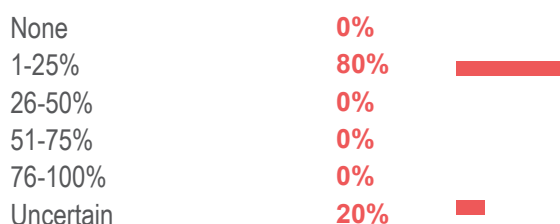

Number of participants interviewed: 46
