

BANGLADESH - Rohingya Refugee Crisis - Cox's Bazar District

Camp 10 - Potential Flood and Landslide Impact on Facilities

For Humanitarian Purposes Only
Production date: 19 March 2018

This map highlights the potential impact of flood and landslide on camp facilities. Facilities shown in black intersect either one or both of the hazard areas. Facilities shown in green fall outside of the hazard areas (Note: this does not necessarily mean the location is free from risk).

Facility locations are from round 4 of the camp infrastructure mapping exercise. Facility labels correspond to the unique IDs in the datasets currently available on HDX here:

General Infrastructure:

Health Facilities:

The high risk landslide areas were produced by the Asian Disaster Preparedness Center at the request of UNHCR. These replace an earlier version.

The flood areas, prepared by IOM and UNHCR, predate the construction of the Military Road and should be seen as indicative only.
