JORDAN - Al Za'atari Refugee Camp Number of Refugees per Septic Tank by Block - March 2017

For Humanitarian Purposes Only Production Date: 24 April 2017

Scale for A1 - 1:4,400

In March 2017, REACH undertook a assessment of all septic tanks in Za'atal. This map uses the current population at the time of the assessment, and compares it to the number of septic tanks found at the block.

District Boundary

This map presents a rough comparison of the stress placed on tanks throughout the camp but it is important to note that it does not take into account the varying volumes of septitanks. However, volume data is only available through an external dataset, and therefore has not been included in this map.

Data Sources: UNHCR, REACH

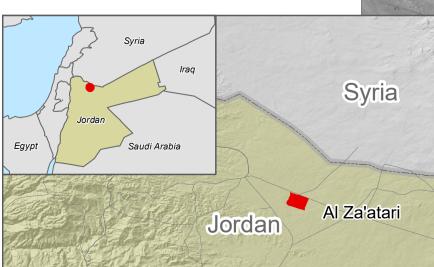

Satellite Acquisition Date: 30/06/2016 by DigitalGlobe Provided by: UNOSAT
