

OVERALL FINDINGS: 5 - 11 June

- 159 out of 1,183 ISMI-covered communities in Aleppo, Ar-Raqqa, Deir-ez-Zor, Hama, Homs and Idleb governorates experienced inward or outward movement of IDPs:
 - 9,552 IDP departures
 - 9,487 IDP arrivals
- Ongoing conflict in northern Hama governorate resulted in the outward displacement of 1,169 individuals from Oqeirbat sub-district to ISMI-covered communities in Aleppo governorate.
- An escalation of conflict in and around Ar-Raqqa sub-district led to the internal displacement of 3,881 IDPs across Ar-Raqqa governorate, including 980 IDPs to Al-Thawrah sub-district.

About ISMI & This Factsheet

The **IDP Situation Monitoring Initiative (ISMI)** is an initiative of the Camp Coordination and Camp Management (CCCM) Cluster, implemented by REACH and supported by Syria Relief Network (SRN) and other cluster members.

Following a baseline assessment conducted between 23 October and 21 November 2016, weekly data collection cycles have been initiated to provide regular updates on IDP movements. Based on 1,183 communities in the governorates of Aleppo, Ar-Raqqa, Deir-ez-Zor, Hama, Homs and Idleb during the baseline, this factsheet presents a summary of reported inward and outward movements of IDPs. **From 5-11 June 2017, such displacements were reported in 159 communities out of all ISMI-covered communities.**

Displacement was identified through an extensive key informant (KI) network, either through alert initiated by KIs or follow-up by enumerators. A range of 2-3 KIs were interviewed in each community, while collected information was further triangulated through other sources, including CCCM member data and humanitarian updates. This approach allows for regular updates on IDP movements at a community level across ISMI coverage areas. However, movement updates are limited to areas covered by ISMI and there are, therefore, displacements that are not reported here.
