1. REACH enumerators conducted a full sweep of all sites and camps (as per boundaries defined by ISCG) and used an Open Data Kit (ODK) form to log all key infrastructure observed during this sweep, with further

details to be logged for WASH infrastructure.

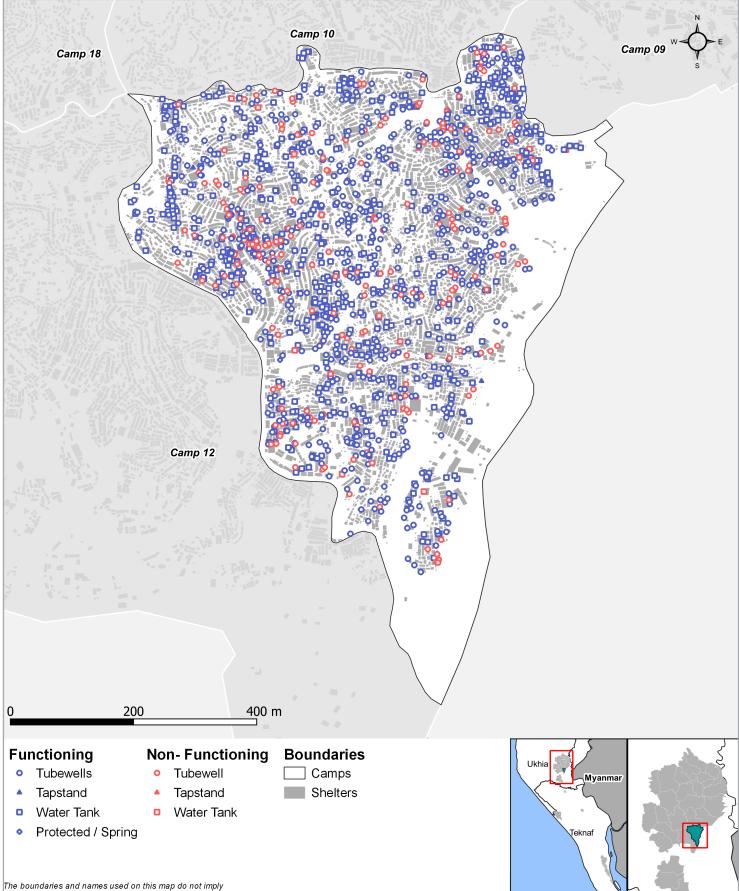

Safe refers to fully covered latrines (i.e. a latrine with four walls, a roof and a lockable door).
 This includes handpumps / tube wells, tapstands and water tanks.
