

Overall, less than 1 in 4 households indicated facing issues in accessing the desired healthcare service. Where difficulties were reported, the primary factors pointed overwhelmingly to lack of availability of appointments (49%), issues with documentation (23%), insufficient medicines / pharmaceuticals (16%) and a lack of doctors (14%). Complaints related to distance and lack of availability of medication were reported in a minority of cases to varying degrees.

Percentage of HHs reporting difficulties to access social services - by neighborhood

- None
- 1 - 25%
- 26 - 50%
