

### Introduction

This multi-sector needs assessment is part of a monthly data collection exercise which aims to gather information about needs and the humanitarian situation inside Syria. The factsheets present information collected in February 2016, referring to the situation in January 2015.

These factsheets present information at the community/village level for each sub-district in Al Hasakeh governorate. In Al Hasakeh City, Quamishli City and Al Malikeyyeh City, neighbourhood level data has been collected so information is presented at this level\*. Selected key indicators for the following sectors are included in the factsheets: displacement, shelter, NFIs, health, food security, WASH, education. The factsheets do not cover the entire range of indicators gathered in the questionnaire.

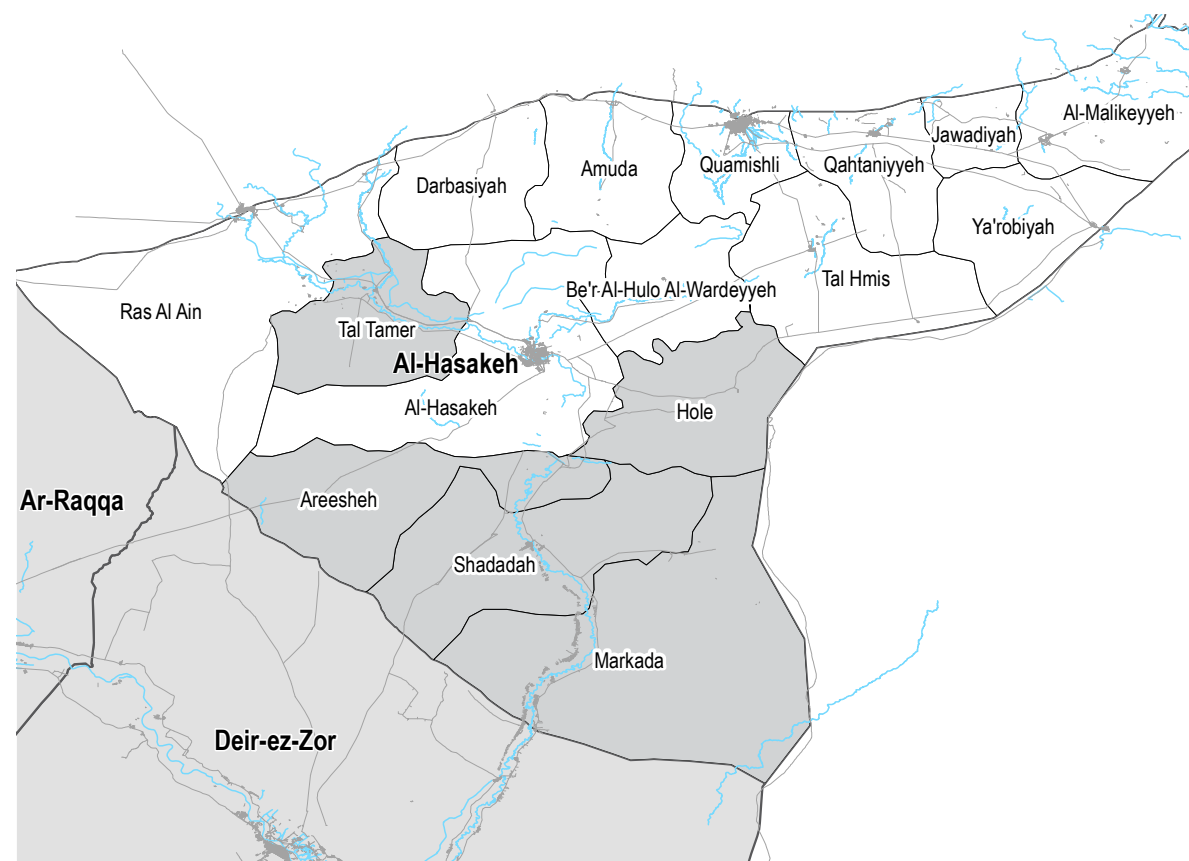

For full visualisation of all indicators collected, please see the SIMAWG Needs Identification Dynamic Reporting Tool, available here: <http://www.reach-info.org/syr/simawg/>

### Methodology and limitations

These findings are based on data collected remotely (in Jordan, Lebanon, Kurdistan Region of Iraq and Turkey) from Key Informants residing in their community of origin in Syria.

Information was collected from Key Informants in 58 communities in 11 of 16 sub-districts of Al Hasakeh governorate. For each question asked, confidence levels are assigned based on the Key Informant's area of expertise and knowledge of the sector-specific situation.

For a full description of the methodology, please see the Terms of Reference, available on the [REACH Resource Centre here](#) (link).

- Covered in February

### Shelter

#### Most common shelter

-  Independent apartment or house
-  Shared apartment or house
-  Collective public space not for shelter
-  Private space not for shelter
-  Unfinished apartment or house
-  No IDPs
-  No information

Min - Max: rent paid per room (where known)

#### Um Hajra Almoqbela

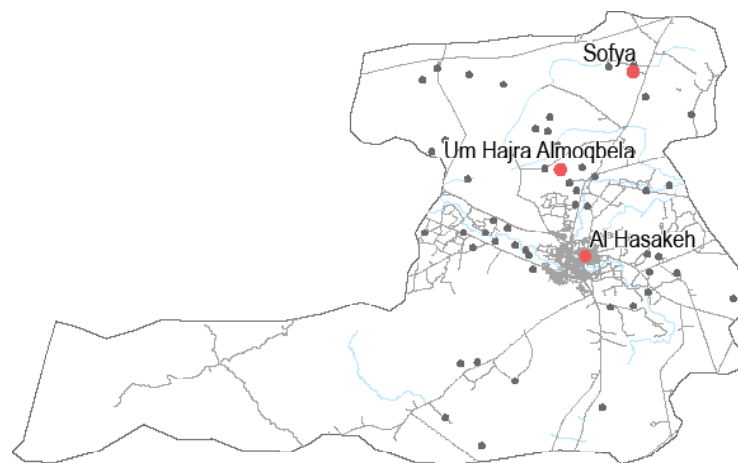

IDPs NDP  
   
 3500 - 5000 SYP

#### Sofya

IDPs NDP  
   
 No rent information

#### Assessed communities (3/52)

Um Hajra Almoqbela  
 Sofya  
 Al Hasakeh (neighbourhoods assessed within Al Hasakeh city are shown on next factsheet)

### Displacement

#### Um Hajra Almoqbela

 1-25%   
 20000 - 30000 SYP

#### Sofya

 51-75%   
 500 - 1500 SYP

-  % of pre-conflict population remaining
-  IDPs already living in village
-  IDPs arrived in last month
-  Cost of transportation to the border

### Livelihoods

 Most common strategies used to cope with lack of income / resources

#### Um Hajra Almoqbela

- Borrowing from family/friends
- Selling household assets
- Reducing meal size

#### Sofya

- Borrowing from family/friends
- Selling household assets
- Reducing meal size

### NFIs

#### Um Hajra Almoqbela

 **B** 2500 SYP  
**D** 40000 SYP  
**F** Not available

#### Sofya

 **B** 2300 SYP  
**D** 40000 SYP  
**F** 65 SYP

#### Most common electricity source

-  Main network
-  Generator
-  No source available
-  No information

#### Fuel Prices

**B** Butane (cannister)  
**D** Diesel (litre)  
**F** Firewood (tonne)

NA: unable to purchase in village
