# Joint Multi-Cluster Needs Assessment: Jariiban District Profile

Mudug Region, Somalia

August 2017

#### **Background**

The ongoing drought has contributed to a rapid deterioration of the humanitarian context in Somalia, with a predicted high risk of famine in 2017. In support of the humanitarian planning response, the Clusters and the Assessment Working Group developed the Joint Multi-Cluster Needs Assessment (JMCNA) with the support of REACH in order to assess needs and access to basic services in Somalia.

The Somalia population was sampled for statistical representativeness at the district level with a confidence level of 90% and a margin of error of +/- 10%, employing a cluster sampling approach using the Population Proportional to Size method with replacement. Data collection was conducted by AAHI, ACF, ACTED, ADESO, Aid Vision, CARE, DBG, DRC, Galmudug MoH, HINNA, INTERSOS, IOM, NRC, PAH, REACH, SADO, SCI, SHARDO and SI.

This factsheet presents an analysis of data collected in Jariiban District between 15 and 24 July 2017 as part of the JMCNA. In total, 131 households were surveyed across Jariiban District.

# **†**∤**†** Demographics

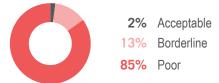

Household composition, by gender and age:

of households reported that they are not from the community they currently reside in.

## Food Security

Food Consumption Scores (FCS) of households:

Coping Strategies Index (CSI) scores of households3:

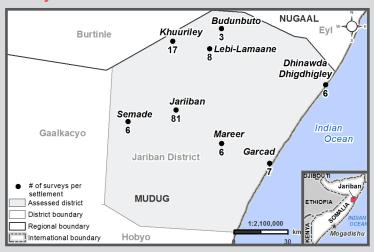

0	Minimum score
11	Average score
40	Maximum score

Reported challenges experienced by households when attempting to access food over the past three months<sup>2</sup>:

loodoo lood ofor the paot times months		
Lack of resources to buy food	70%	
Lack of food items available to purchase	39%	
Lack of cooking utensils	28%	
Lack of cooking fuel	35%	
None of the above	26%	

days on average that households' food stocks will reportedly last.

#### **Survey Locations**

# **Vulnerabilities**

% of households reporting the following members:

32%	Pregnant or lactating woman
20%	Sick child
8%	Disabled or chronically ill person
2%	Unaccompanied or separated child

## Priority Needs

Top 3 priority needs reported by households1:

1. Food	71%
2. Shelter	54%
3 Water	52%
