

South Sudan - Shelter and Non-Food Items (NFIs)

Assessment of Hard-to-Reach Areas in South Sudan

South Sudan Displacement Crisis

February 2021

Overview

The continuation of conflict since December 2013 has created a complex humanitarian crisis in the country, restricting humanitarian access and hindering the flow of information required by aid partners to deliver humanitarian assistance to populations in need. To address information gaps faced by the humanitarian response in South Sudan, REACH employs its Area of Knowledge (AoK) methodology to collect relevant information in hard-to-reach areas to inform humanitarian planning and interventions outside formal settlement sites.

Using the AoK methodology, REACH remotely monitors needs and access to services in the

Greater Upper Nile, Greater Equatoria and Greater Bahr el Ghazal regions. AoK data is collected monthly, through multi-sector interviews with the following typology of key informants (KIs):

- KIs who are newly arrived internally displaced persons (IDPs) who have left a hard-to-reach settlement in the last month
- KIs who have been in contact with someone living in a hard-to-reach settlement, or have been visiting one in the last month (traders, migrants, family members, etc.)
- KIs who are remaining in hard-to-reach settlements, contacted through phone

Selected KIs are purposively sampled and have knowledge from within the last month about a specific settlement in South Sudan, with data collected at the settlement level. About half of settlements assessed have more than one KI reporting on the settlement. In these cases, data is aggregated at the settlement level according to a weighting mechanism, which can be found in the [Terms of Reference \(ToRs\)](#).

All percentages presented in this factsheet, unless otherwise specified, represent the proportion of settlements assessed with that specific response.

The findings presented in this factsheet are indicative of the broad shelter and non-food item trends in

assessed settlements in February 2021, and are not statistically generalisable.

Assessment Coverage

2,639 Key informants interviewed

2,092 Settlements assessed

76 Counties assessed

72 Counties with 5% or more coverage¹

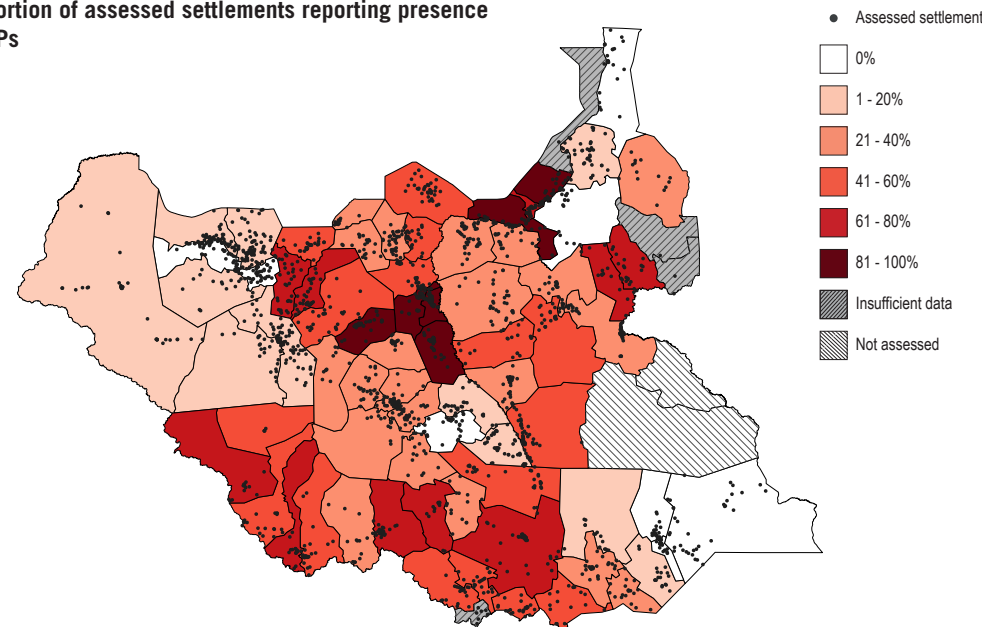

Assessment coverage

Proportion of settlements assessed

IDP Presence

Proportion of assessed settlements reporting presence of IDPs

¹ Data is only represented for counties in which at least 5% of settlements have been assessed. The most recent OCHA Common Operational Dataset (COD) released in March 2019 has been used as the reference for settlement names and locations.

Assessment of Hard-to-Reach Areas in South Sudan

South Sudan Displacement Crisis

February 2021

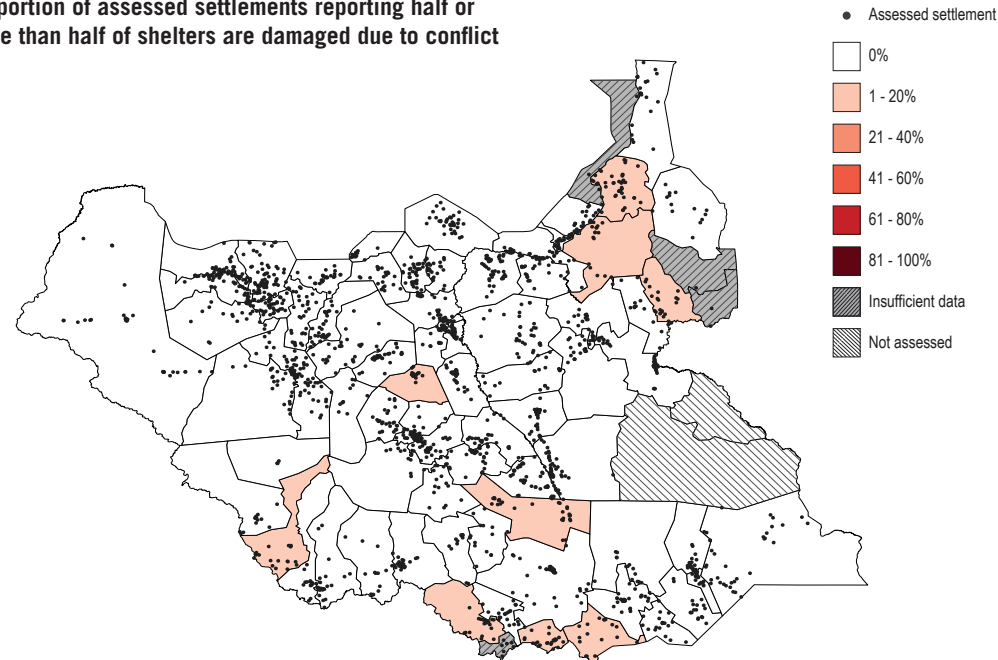

IDP shelter

Proportion of assessed settlements reporting half or more than half of IDPs are living out in the open

Shelter damage

Proportion of assessed settlements reporting half or more than half of shelters are damaged due to conflict

IDP shelter

Top five counties where the highest proportion of assessed settlements reported half or more than half of IDPs are living out in the open

Tonj East	23%	■
Terekeka	15%	■
Gogrial East	13%	■
Luakpiny/Nasir	11%	■
Aweil North	7%	■

Top five counties where the highest proportion of assessed settlements reported IDPs are primarily living in temporary structures or out in the open

Lafon	100%	■
Yirol East	100%	■
Twic East	100%	■
Melut	100%	■
Awerial	100%	■

Other counties where 100% of assessed settlements reported that IDPs are staying in temporary shelters or out in the open include: Duk, Morobo, Raja, and Torit.

Shelter damage

Top five counties where the highest proportion of assessed settlements reported half or more than half of the shelters are damaged as a result of conflict

Rumbek North	14%	■
Baliet	13%	■
Luakpiny/Nasir	10%	■
Kajo-keji	9%	■
Yei	8%	■

Top five counties where the highest proportion of assessed settlements reported any severity of shelter damage as a result of conflict

Yei	40%	■
Kajo-keji	26%	■
Luakpiny/Nasir	24%	■
Rumbek North	21%	■
Tonj North	16%	■

NFI Needs

Proportion of assessed settlements reporting an NFI distribution has occurred in the three months prior to data collection

Proportion of assessed settlements reporting mosquito nets as their primary NFI needs

NFI needs: mosquito nets

Top five counties where the highest proportion of assessed settlements reported mosquito nets are their primary NFI need

Luakpiny/Nasir	30%	■
Panyijiar	29%	■
Fangak	29%	■
Nzara	25%	■
Fashoda	16%	■

NFI needs: plastic sheeting

Top five counties where the highest proportion of assessed settlements reported plastic sheeting is their primary NFI need

Panyikang	83%	■
Mayendit	69%	■
Panyijiar	53%	■
Leer	53%	■
Fashoda	41%	■

NFI needs: blankets

Top five counties where the highest proportion of assessed settlements reported blankets are their primary NFI need

Maridi	30%	■
Mundri West	29%	■
Twic	26%	■
Mvolo	20%	■
Mundri East	20%	■

NFI needs: pots

Top five counties where the highest proportion of assessed settlements reported cooking pots are their primary NFI need

Mundri West	43%	■
Tonj East	35%	■
Lainya	29%	■
Ezo	27%	■
Nzara	25%	■
