

# COMMUNITY RESPONSE PLAN

## PD5, Kunduz, Kunduz Province, Afghanistan

June 2022

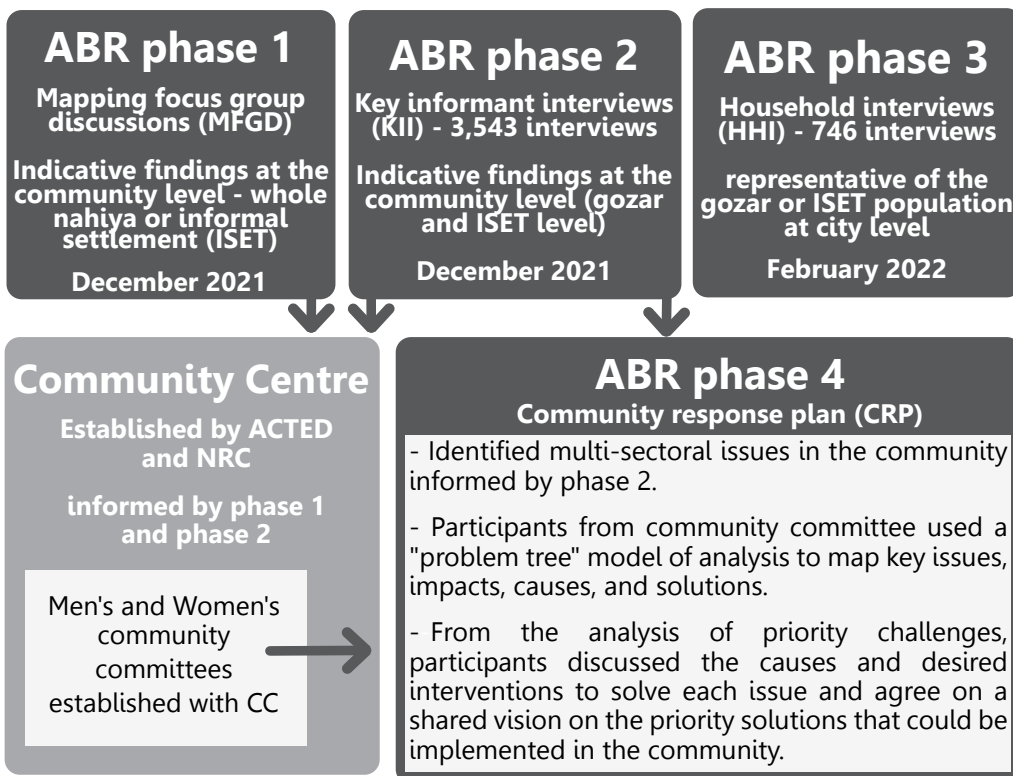

Area Based  
Response  
AFGHANISTAN

### Introduction and Background

Developed through community planning workshops with local community representatives following the completion of REACH Area Based Response (ABR) assessment from November 2021 to February 2022, Community Response Plans (CRPs) are reports that outline a shared local vision for community wide interventions.

Facilitated by a consortium of ACTED, NRC and IMPACT, CRPs take an evidence based approach to planning, effectively translating response gaps identified through REACH ABR into actionable intervention strategies, formulated as specific projects. Using a community-led planning approach, CRPs act as a road map for multi-sectoral interventions.<sup>1</sup>

### CRP Process Overview

## Q KEY ISSUES &amp; RECOMMENDATIONS

## Education

% of KIs reporting **most school age children are able to attend primary school**:

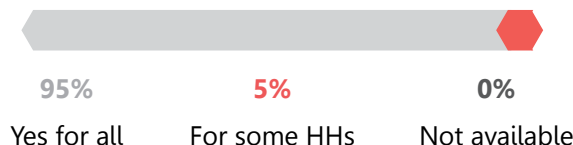

The most reported barrier for primary school aged boys (54%) and girls (53%) to access education facilities was the lack of primary school in the area.

**Stakeholder recommendations:**

Establishment of training centre for adults education, expanding and equipping Rustaq Abad high school, hiring female teachers in Rustaqabad school, computer, English language and mathematics courses, university entrance exam preparation.

## Electricity

% of KIs who reported the **availability of electricity**:

**38%** of KIs reported that most HHs experienced electricity shortages often.

**Stakeholder recommendations:**

**No projects were proposed during the workshop**

## Environment

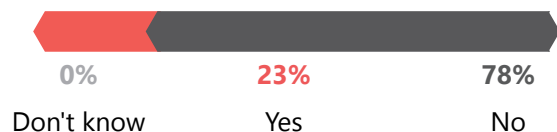

% of KIs reporting the **main environmental concern** in the ISET/gozar:

**Stakeholder recommendations:**

Repair of water channels in sub streets, plantation of trees, construction of a drainage, awareness courses on environment protection, establishment of a standard and modern park, construction of culverts.

## Food security/markets

% of KIs reporting **ability of most households to access enough food** to meet daily needs in the past 30 days:

% of KIs reporting the **level of hunger** faced by most HHs in the settlement:

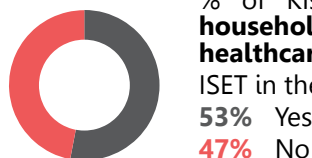

Hunger Level	Percentage
Hunger is worst it can be	15%
Hunger is bad	64%
Hunger is small	21%
Almost no hunger	0%

**Stakeholder recommendations:**

Distribution of aid (food), establishment of a flour mill.

## Healthcare

% of KIs who reported that **most households had access to an active healthcare centre** close to their gozar/ ISET in the past 3 months:

All KIs reported that households facing access barriers could not afford to access services (96%), could not access due to lack of transport (61%) or due to insufficient female medical staff (34%).

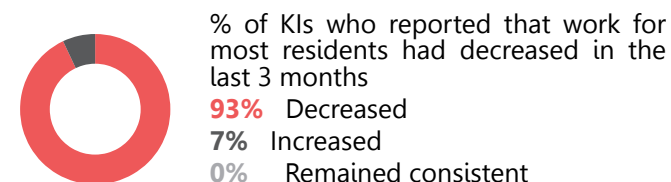

**Stakeholder recommendations:**

Establishment of 50 bed clinic, increased number of professional medical staff in Sar e Dawra healthcare clinic, distribution of health kits for women.

## Livelihoods

The **most common form of income** in the settlement reported by KIs:

**71%** Daily labour, no contract

**Stakeholder recommendations:**

Establishment of a vocational training centre, establishment of institutions for youth employment, employment programs for youth, vocational trainings (TVET), employment for women, livestock, bee keeping and poultry projects.

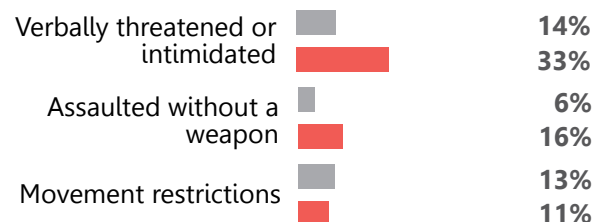

## Q KEY ISSUES &amp; RECOMMENDATIONS

## Protection

% of KIs who reported being aware of **protection incidents** in the past 3 months (most reported):

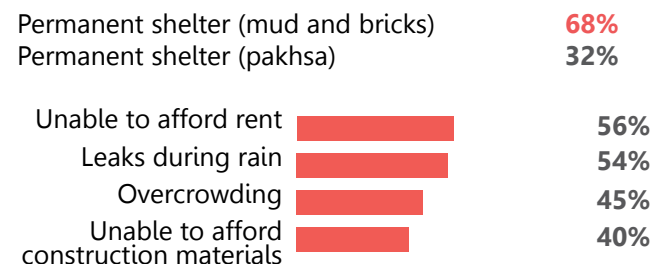

Women  
Men

**Stakeholder recommendations:**

awareness programs on women rights, community seminars on unity and discrimination.

## Shelter/NFI

% of KIs reporting the **main shelter concerns** in the ISET/gozar:

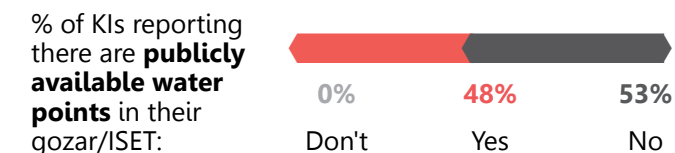

**Stakeholder recommendations:**

Distribution of aid (NFI), building shelter, repairing shelters, emergency assistance (rent).

## WASH

36%

of KIs reported that most people are unable to access sufficient quantity of water to meet daily needs (drinking, cooking, domestic use and hygiene)

**Stakeholder recommendations:**

Public awareness programs on best hygiene practices, construction of deep wells, repairing of existing non-functional wells, awareness programs on clean water, distribution of 300 water filters, extension and repair of water reservoir, construction of a public bathroom.

## Waste management

% of KIs reporting the **most common method of waste management**:

**Stakeholder recommendations:**

Provision and installation of garbage collection points, construction of garbage collection points, provision of two equipped trucks for waste transporting.
