

A grid is used to represent the main defecation's locations. Each square contains between one or more households. Squares without any household have been deleted. Each household was allowed to identify multiple locations. The proportion of each category has been weighted by the number of households in each square, in order to assign the same weight to each of them.

Camp management

-  UNHCR Office
-  DRC/ACTED

Defecation location

-  Bush
-  Bush and latrine
-  Mainly latrine
-  Latrine

Administrative

-  Village
-  Road
-  Camp area
