Note: Data, designations and boundaries contained on this map are not warranted to be error-free and do not imply acceptance by the REACH partners, associates, donors mentioned on this map.

The figure contains two inset maps. The top map is a detailed view of Juba, showing the location of PoC1 (marked with a square) and PoC3 (marked with a square). The bottom map shows the location of Juba within South Sudan, with neighboring countries (Sudan, Ethiopia, C.A.R., D.R.C., Uganda, Kenya) and a red dot indicating Juba's location.

The main map displays an aerial view of Juba PoC 1. It features a large area outlined by a dashed line, representing the UNMISS perimeter. Within this perimeter, several blocks are delineated by solid lines and labeled with letters: A, B, C, D, E, F, G, H, I, J, N, O, P, Q, R, and S. The map is color-coded to show buffer distances from water points (indicated by blue icons). The buffer zones are: 0 to 50 m (lightest blue), 51 to 100 m (medium blue), 101 to 150 m (darker blue), 151 to 200 m (orange), and 201 to 250 m (red). Numerous small black dots represent shelter locations. A scale bar (0 to 100 m) and a compass rose are located in the bottom right corner.
