

Nyal Port Monitoring

Panyijiar County, Unity State, South Sudan

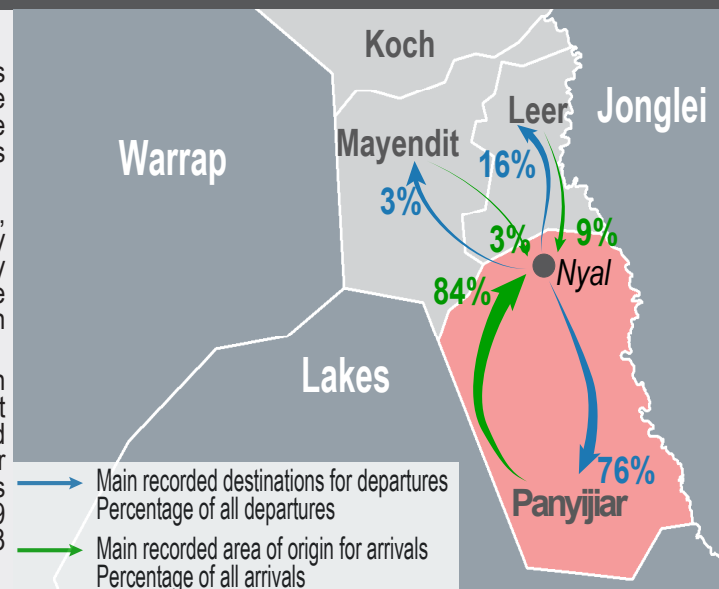

South Sudan Displacement Crisis
December 2021

CONTEXT AND METHODOLOGY

Nyal town is located in Northern Panyijiar County, Unity State, along the banks of the Sudd, the third largest swamp in the world. Since the beginning of the crisis, internally displaced persons (IDPs) from Unity and Jonglei States have perceived Nyal as a safe location with ample resources. Recently, Nyal has also become a key location for people travelling to and from nearby islands.

Since 1 November 2016, REACH has monitored three ports in Nyal – Gap Port, Nyal Port and Katieth Port – to record the arrivals and departures on a daily basis. The information gathered covers household (HH) demographics, key push and pull factors, vulnerable populations, and transportation routes. The daily data was synthesised to provide evidence for more effective humanitarian planning.

The REACH team collected data from 7:30 a.m. – 5:30 p.m. Monday through Friday to ensure wide coverage of Nyal's three ports. REACH teams attempt to interview all arrivals and departures at the HH level using a contextualised survey. However, the data presented here is not representative, rather indicative of movement trends for the assessed population.¹ This factsheet is based on data on 193 departing HHs (706 individuals), 231 arriving HHs (779 individuals), and 3 transiting HH (16 individuals), which was collected over 23 days between 1 and 31 December 2021.

GENERAL MOVEMENT TRENDS¹

Average daily number of individuals departing (red) and arriving (grey); January to December 2021.

DEPARTURES FROM NYAL

Demographic

94% of departing households were partial households.²

Vulnerabilities

28% of departing households reported that at least one member of the household was **breastfeeding**.

16% of departing households reported that at least one member of the household was **pregnant**.

8% of departing households reported that at least one member of the household was **critically ill**.

Push factors

Most commonly reported reasons for leaving Nyal.³

Pull factors

Most commonly reported reasons for travelling to desired location from Nyal.³

Reasons for leaving Nyal

Primary reported push factors for leaving Nyal, Sep to Dec 2021:

	Sep 21	Oct 21	Nov 21	Dec 21
Distance from family/home	57%	58%	58%	66%
Lack of food	6%	14%	9%	16%
Lack of health services	6%	6%	5%	8%

Destination county location

Reported county or state to which departing households were going:

Intended duration of stay in destination

Reported length of time that respondents intended to stay in destination:

Notes:

- Indicative trends; REACH does not record all arrivals and departures.
- Partial households are those where not all members of the self-identified family unit were reportedly travelling.

ARRIVALS TO NYAL

Demographic

98% of arriving households were partial households.²

Vulnerabilities

20% of arriving households reported that at least one member of the household was **breastfeeding**.

14% of arriving households reported that at least one member of the household was **pregnant**.

9% of arriving households reported that at least one member of the household was **critically ill**.

Pull factors

Most commonly reported reasons for choosing to come to Nyal after being displaced.³

Push factors

Most commonly reported reasons for leaving previous location³:

Reasons for coming to Nyal

Primary reported pull factors for coming to Nyal, Sep to Dec 2021:

	Sep 21	Oct 21	Nov 21	Dec 21
Presence of markets/goods	36%	39%	57%	42%
Perceived availability of food	31%	14%	1%	24%
Presence of health services	8%	12%	14%	14%

Previous county location *

84% of the arriving households reportedly came from Panyijiar County:

Intended duration of stay in Nyal

Reported length of time that respondents intended to stay in Nyal:

Notes:

3. Reported presence of services or opportunities is indicative of respondents' perception and does not necessarily reflect availability.

* Percentages rounded to the nearest integer; responses may not add up to 100%
