

South Sudan - Shelter and Non-Food Items (NFI)s

South Sudan Displacement Crisis

Assessment of Hard-to-Reach Areas in South Sudan

February 2022

Overview

The continuation of conflict since December 2013 has created a complex humanitarian crisis in the country; restricting humanitarian access and hindering the flow of information required by aid partners to deliver humanitarian assistance to populations in need. To address information gaps faced by the humanitarian response in South Sudan, REACH employs its Area of Knowledge (AoK) methodology to collect relevant information in hard-to-reach areas to inform humanitarian planning and interventions outside formal settlement sites.

Using the AoK methodology, REACH remotely monitors needs and access to services in the

Greater Upper Nile, Greater Equatoria and Greater Bahr el Ghazal regions. AoK data is collected monthly, through multi-sector interviews with the following typology of key informants (KIs):

- KIs who are newly arrived internally displaced persons (IDPs) who have left a hard-to-reach settlement in the last month
- KIs who have been in contact with someone living in a hard-to-reach settlement, or have been visiting one in the last month (traders, migrants, family members, etc.)
- KIs who are remaining in hard-to-reach settlements, contacted through phone

Selected KIs are purposively sampled and have knowledge from within the last month about a specific settlement in South Sudan, with data collected at the settlement level. About half of settlements assessed have more than one KI reporting on the settlement. In these cases, data is aggregated at the settlement level according to a weighting mechanism, which can be found in the [Terms of Reference \(ToRs\)](#).

All percentages presented in this factsheet, unless otherwise specified, represent the proportion of settlements assessed with that specific response.

The findings presented in this factsheet are indicative of the broad shelter and non-food item trends in

assessed settlements in February 2022², and are not statistically generalisable.

Assessment Coverage

2481 Key informants interviewed

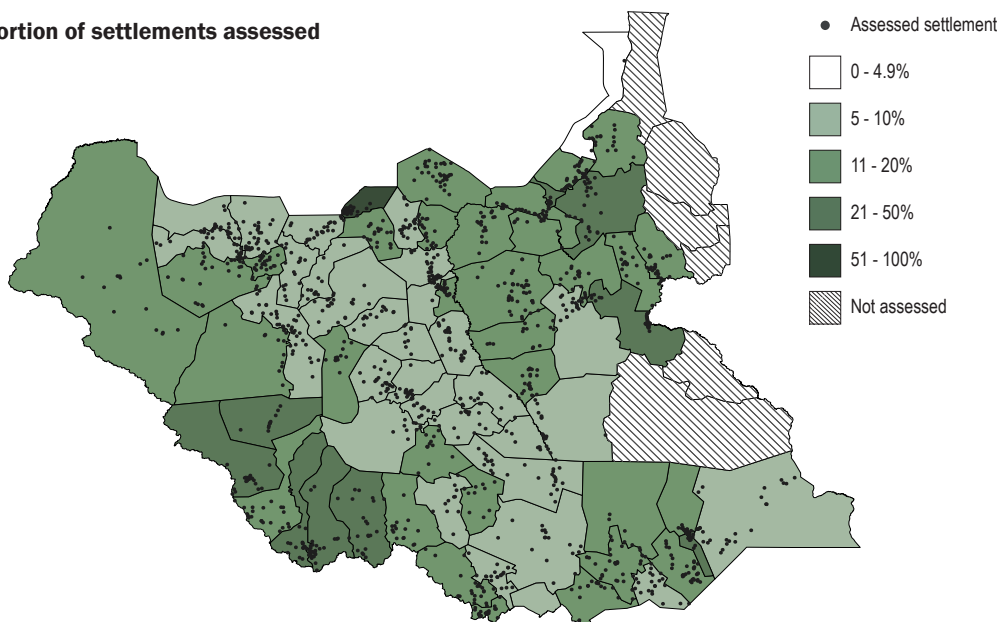

2046 Settlements assessed

72 Counties assessed

71 Counties with 5% or more coverage¹

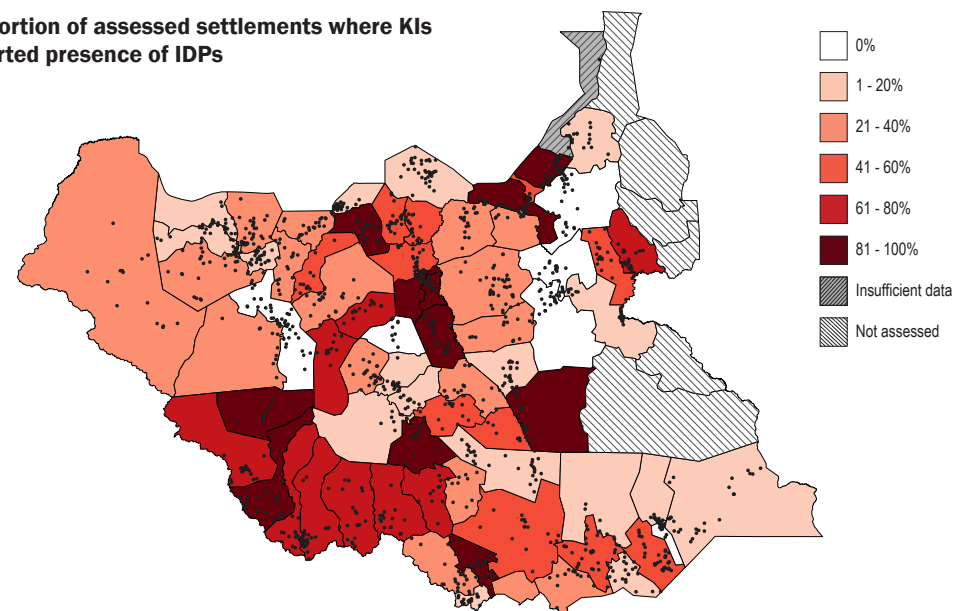

Assessment coverage

Proportion of settlements assessed

IDP Presence

Proportion of assessed settlements where KIs reported presence of IDPs

¹ Data is only represented for counties in which at least 5% of settlements have been assessed. The most recent OCHA Common Operational Dataset (COD) released in March 2019 has been used as the reference for settlement names and locations.

² Unless otherwise specified all questions have a recall period of 30 days prior to data collection

South Sudan - Shelter and Non-Food Items (NFIs)

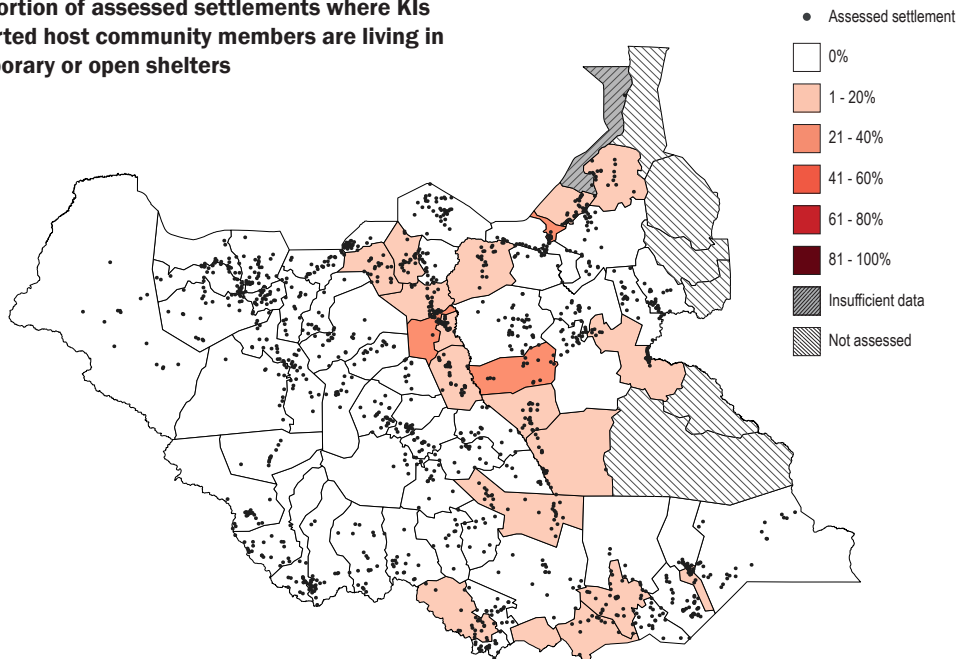

South Sudan Displacement Crisis

Assessment of Hard-to-Reach Areas in South Sudan

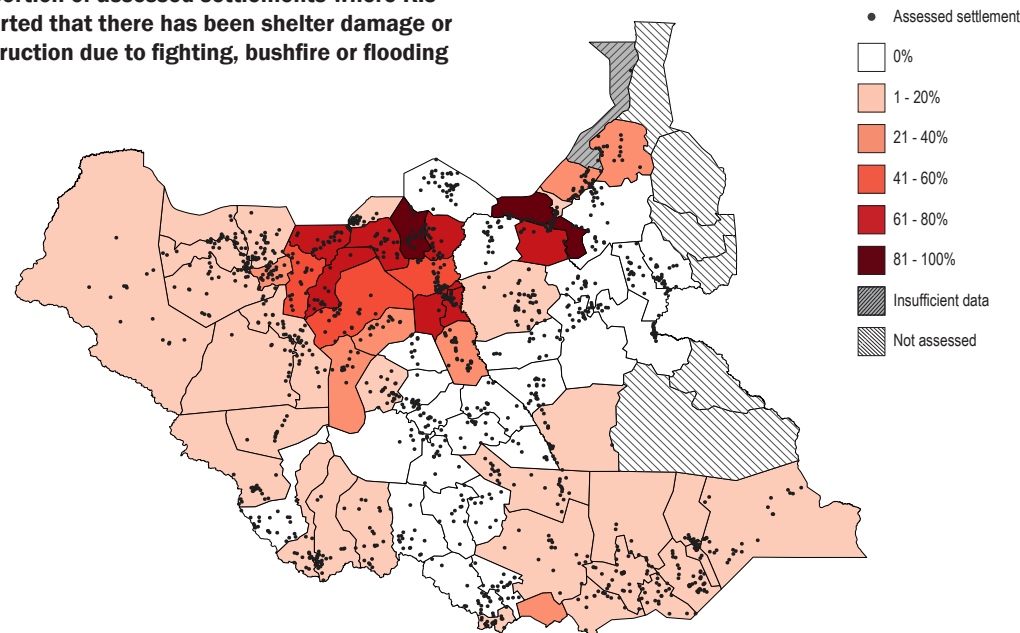

February 2022

Shelter status

Proportion of assessed settlements where KIs reported host community members are living in temporary or open shelters

Proportion of assessed settlements where KIs reported that there has been shelter damage or destruction due to fighting, bushfire or flooding

Host community shelter

Top five counties with the highest proportion of assessed settlements where KIs reported that the host community members are living in temporary or open shelters

Mayendit	38%	
Malakal	37%	
Duk	22%	
Rubkona	20%	
Leer	14%	

Shelter damage: conflict

Top five counties with assessed settlements where KIs reported shelter damage due to conflict in the 30 days prior to data collection

Tonj East	23%	
Tonj North	15%	
Mayendit	15%	
Abiemnhom	6%	
Magwi	5%	

Shelter damage: flooding

Top five counties with the highest proportion of assessed settlements where KIs reported shelter damage due to flooding in the 30 days prior to data collection

Panyikang	100%	
Rubkona	85%	
Mayom	77%	
Guit	76%	
Canal/Pigi	76%	

Shelter damage: bushfire

Top five counties where KIs reported shelter damage due to bushfire in the 30 days prior to data collection

Kajo-keji	27%	
Juba	12%	
Torit	11%	
Nagero	8%	
Lafon	7%
