Location Map

Summary

This profile provides an overview of water, sanitation and hygiene (WASH) infrastructure within Zone TT in Ukhiya, Cox's Bazar. Primary data for this round was collected between 20 October and 9 November 2017.¹ Findings should be considered indicative only.

Access to Water

Key sectoral achievements

	Target	Previous Round	Current Round	Achievement
# of people per functional hand pump	max. 500 ³	354	354	
% of shelters within 200 metres of a functional hand	100%	100%	100%	

Targets based on WASH Sector Standards/Indicators for the Rohingya response, Sphere Minimum Standards/Indicators as well as Department of Public Health and Environment (DPHE) Minimum Standards/Indicators • Minimum standard/indicator reached, • 75%-99% minimum standard/indicator reached, • 50-74% minimum standard/indicator reached, • Less than 50% of minimum standard/indicator reached

¹ REACH enumerators conducted a full sweep of all sites and camps (as per boundaries defined by ISCG) and used an Open Data Kit (ODK) form to log all key infrastructure observed during this sweep, with further details to be logged for WASH infrastructure. ⁴ Safe refers to fully covered latrines (i.e. a latrine with four walls, a roof and a door) ³ This farget is based on standards for the medium and long term (3 months +), for the immediate phase (0-3 months) it is 1000. ⁴ The distance is based on standards for the long term (6 months+), for the immediate phase (0-3 months) it is 750 metres and for the medium phase (3-6 months) 500 metres.
