ACTED ACTION CONTRE LA FAIM SOLIDARITÉS INTERNATIONAL

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian situation in a context of sudden onset emergencies, conduct multisector assessments (MSAs) of needs and to provide various types of emergency assistance in order to save lives, including distribution of essential non-food items (NFIs) and high energy biscuits (HEBs), emergency water, sanitation and hygiene (WASH) interventions, as well as cash transfer programming (CTP). Currently, the RRM is made possible through the support of the United States Agency for International Development (USAID/BHA), the Directorate-General for European Civil Protection and Humanitarian Aid Operations (DG ECHO), the Swiss Agency for Development and Cooperation (SDC) and the Swedish International Development Cooperation Agency (SIDA). All RRM products are available on the portal.

## ✴ Alerts received or sent by the RRM in 2023

- 1 to 9,999
- 10,000 to 20,000

[1]Assessments and interventions, which were not finished by the end of October 2023, are not included. [2] Exploratory missions. [3]Rapide multi-sector need assessment . [6]In-kind and CTP. [4]Post-distribution monitoring. [5]MSA-R are not triggered following a RRM alert. MSA-R aim at gathering information on areas not recently affected and/or not recently accessed by humanitarian actors. [7]The term 'host community' refers to individuals that have not been displaced as the result of a humanitarian-related event. [8]The term 'returnees' refers to people who have come back to their pre-crisis location following a period of internal displacement. [9]The term 'repatriates' refers to former refugees who have returned from neighbouring countries.
