## Camp 23 Teknaf, Cox's Bazar, Bangladesh

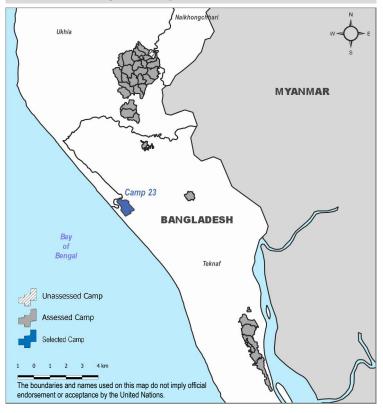

July 2019 and December 2018 comparison

#### **Background and methodology**

Since August 2017, an estimated 741,000 Rohingya refugees have fled from Myanmar into Cox's Bazar, Bangladesh, increasing the total number to around 910,000.1 The majority are reliant on overstretched humanitarian assistance, services, and resources including shelter, food, clean water, and sanitation. Information on Rohingya households, particularly in relation to protection and access to services, is in need of regular updating due to the variation in service provision across settlements, challenges presented by the monsoon and cyclone seasons, and the evolving social and contextual dynamics within each settlement. Therefore, REACH, in partnership with UNHCR, continued Round 5 of the Settlement and Protection Profiling (SPP) Assessment in order to support evidencebased monitoring and analysis of cross-cutting protection issues in Rohingya refugee settlements.

The fifth round of SPP was conducted in 33 out of 34 refugee camps and settlements in Cox's Bazar District from 25 June - 5 August, 2019. Surveys were conducted with households selected through simple random sampling of shelter footprints. Translators Without Borders supported with translating the form into Rohingya. Results of this assessment are generalisable to the population of each camp with a 95% confidence level and 10% margin of error. This factsheet presents an analysis of data collected in Camp 23, where 93 households were surveyed.

Where relevent, findings are compared to those of SPP Round 4 which took place from 25 November - 17 December, 2018.2 July 2019 data is presented in dark blue, and December 2018 data is presented in

#### **Key Camp Information**

**Camp Management RRRC** Site Management Support IOM / IOM Population (individuals)<sup>1</sup> 11,012 Population (families)1 2,672 Camp Area 2.65 km<sup>2</sup>

**Population density** 4.150 individuals/km<sup>2</sup>

#### Tim **Demographics**

Household composition by gender and age:

55% of individuals are under 18

80% of individuals are women and children

There is an average of **4.9** individuals reported per household

of households reported the presence of members with 2% disabilities4

#### From UNHCR Key Demographic Indicators dataset<sup>1</sup>

% of families with Persons with Specific Needs (PSN), by need<sup>3</sup>

Separated children	2%	Unaccompanied children	0%
Older person at risk	4%	Person with disability	3%
Older person at risk with children	2%	Single male parent with infants	0%
Serious medical condition	3%	Single female parent	29%
Families with PSN	39%		

85% of households arrived on 25 August 2017 or later

#### **Protection**

Five most frequently reported interventions needed to improve the sense of safety and security in the camps<sup>5</sup>:

	.,			
July 20	19			Dec 2018
63%	Advice about safety issues	0	Improved paths and roads	48%
45%	Better camp management	2	Advice about safety issues	42%
42%	Increased community watch groups	6	Natural disaster warning systems	27%
28%	Natural disaster warning system	4	Better camp management	21%
25%	Improved paths and roads	6	Improved access for vulner- able persons	19%

2. UNHCR, Bangladesh: UNHCR Camp Settlement and Protection Profiling - Round 4, December 2018. data2.unhcr.org/en/documents/details/68127

3. For definitions of key terms relating to special needs and disability, refer to UNHCR "Guidance on the Use of Standardized Specific Needs Codes" https://bit.ly/2GnJE0h.

4. For this round of data collection, disability was measured at the household level using the Washington Group Short Set of questions on disability. According to this methodology, 'disability' is determined as anyone in the household having at least 'a lot of difficulty' following six domains: walking, seeing, hearing, cognition, self-care, and communication.

5. Respondents could give up to three answers.

Dec 2018

49%

# **Settlement and Protection Profiling** Camp 23

Three most frequently reported perceived risks faced by individuals in the camp<sup>6,7</sup>:

July 20	19	1	M	len		Dec 2018
53%	No issues		0		No issues	35%
30%	Fear of kidnapp	ing	2	Fea	ar of kidnapping	33%

	households reported by	nina v	icited by a community	h a alth

households reported being visited by a community health worker in the two weeks prior to data collection<sup>18</sup>

- 15. Respondents could give up to three answers.
- 16. Respondents were asked to report information for each individual in their household. The denominator for this indicator is all individuals
- 17. Respondents could give multiple responses.
- 18. Round 5 data only. These indicators were not included in SPP Round 4.
- 19. In July, this question was asked only to households with children under the age of 18. In December 2018, it was asked to all households.
- 20. This number is a combination of households that reported 'satisfied' or 'very satisfied'.

#### Education

94% of households reported being satisfied or very satisfied with the education available in the camps<sup>19,20</sup> 87%

Three most frequently reported education priorities for children<sup>16,19</sup>

83%	Supplies	U	Better teachers	54%
<b>55</b> %	Better teachers	2	Improved curriculum	51%
35%	Money for education	8	Religious education	40%

#### "<u>I</u>" 🖍 CwC and Site Management

Three most frequently reported preferred methods of receiving information<sup>17</sup>:

July 2019				Dec 2018
96%	Face to face	0	Face-to-face	89%
41%	Loudspeakers	2	Loudspeakers	81%
11%	Printed leaflet	8	Phone call	72%

**57%** of households reported wanting the oppurtunity to have community representation in their camps

**74%** of households reported knowing how to access available assistance<sup>18</sup>

July 2019 Dec 2018

of households reported facing barriers in accessing assistance in the camps.

92% of households reported feeling that assistance providers listen to their opinion

Three most frequently reported sources of assistance to complain or raise a problem related to assistance in camps<sup>17</sup>:

0	88%	Mahji
2	49%	Camp In Charge
<b>B</b>	6%	Government authorities/army

#### **₹** Priority Needs

Three most frequently reported priority needs:

0	Access to food	40%	
	Access to food	46%	
2	Solar	20%	
	Fuel	28%	
3	Solar	24%	
	Shelter materials	<b>7</b> %
