# South Sudan - Western Bahr El Ghazal

Assessment of Hard-to-Reach Areas in South Sudan

South Sudan Displacement Crisis

**June 2017** 

#### **Overview**

Since June 2016, Western Bahr el Ghazal has experienced multiple incidents of intense conflict in areas of Wau town, and the surrounding areas of Jur river, Wau and Raja counties. Many areas in Western Bahr el Ghazal are largely inaccessible to humanitarian actors due to insecurity and logistical constraints. As a result, only limited information is available on the humanitarian situation outside major displacement sites in Wau town.

In order to fill such information gaps and facilitate humanitarian planning, in late 2015, REACH piloted its Area of Origin (AoO) methodology, which takes a territory-based approach that may cover several bomas, to collect data in hard-to-reach areas of Unity State.

In December 2016, REACH decided to refine the methodology, moving from the AoO to the Area of Knowledge (AoK) methodology, an approach collecting information at the settlement level. The most recent OCHA Common Operational Dataset (COD) released in February 2016 has been used as the reference for settlement names and locations. Through AoK, REACH collects data from a network of Key Informants (KIs) who have sector-specific knowledge and gain information from regular direct or indirect contact, or recent displacement.

Using this new methodology, in April 2017, REACH has collected information on Western Bahr el Ghazal through KIs in Wau PoC site as well as Wau informal settlements.

Data collected is aggregated to the settlement level and all percentiles presented in this factsheet, unless otherwise specified, represent percent of settlements within Western Bahr el Ghazal with that specific response. The displacement section on page 2 refers to the proportion of assessed KIs arrived within the previous month (newly arrived IDPs).

Although current AoK coverage is still limited and its findings not statistically significant, it provides an indicative understanding of the needs and current humanitarian situation in assessed areas of Western Bahr el Ghazal State.

# **Assessment coverage**

200 Key Informants interviewed

85 Settlements assessed

# **Contact with Area of Knowledge**

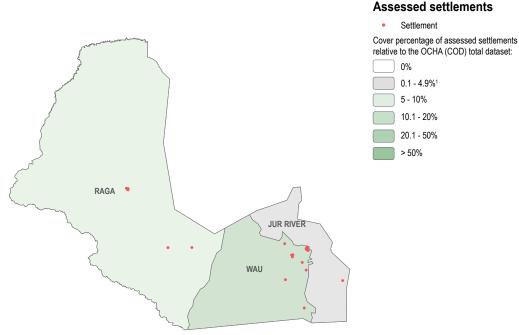

96% Kls reported to be newly arrived

KIs reported to have visited the AoK within the last month.

KIs reported to be in contact with

someone living in the AoK within the last month.

# **Assessment coverage**

#### **Reached settlements**

State	County	Assessed settlements	OCHA (COD) settlements	Cover percentage
WBeG	Jur River	14	809	2%
	Raga	23	340	7%
	Wau	48	336	14%

<sup>&</sup>lt;sup>1</sup> Counties with under 5% of settlement coverage are not disaggregated to the county level, but are included in state-level analysis.

98% 1 Security

79% 2 Access to food

3 Access to health 35%

#### **Previous location**

**Local community** 

Percent of settlements reporting local community

Insufficient data

remaining:

0 - 25%

26 - 50%

51 - 75%

76 - 100%

Top three reported most recent long-term locations for newly arrived IDPs:

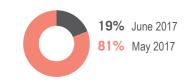

1	Wau County	63%
---	------------	-----

2	Raga County	25%

3 Jur River County 12%

# **Displacement**

Reported time of first displacement for newly arrived IDPs:

# **Displacement**

# **Demographic composition**

Reported gender ratio of IDPs in assessed settlements:

More women than men	50%
All/almost all women	25%
About equal	17%
All/almost all men	8%

# settlements:

All/almost all adults	38%
More adults than children	31%
All/almost all elderly	23%
About equal	8%

<sup>&</sup>lt;sup>2</sup> Most frequently cited as first second and third most important

# **Demographic composition**

Reported gender ratio of local community remaining in assessed settlements:

More women than men	41%
All/almost all women	25%
More men than women	16%
About equal	10%
All/almost all men	8%

Reported age ratio of local community remaining in assessed settlements:

All/almost all elderly	42%
All/almost all adults	36%
About equal	11%
More adults than children	11%

All/almost all adults	38%
More adults than children	31%
All/almost all elderly	23%
About equal	8%

Shelter/NFI Health

#### Health concerns

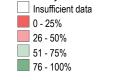

Most commonly reported heath concerns in the assessed settlements:3

#### Healthcare distance

Reported distance of the nearest healthcare facilities from the assessed settlements:

Under 30 minutes	36%
30 minutes to under 1 hour	25%
1 hour to under half a day	23%
Half a day	9%
More than half a day	<b>6%</b>

Top three reported reasons why healthcare facilities are not available from the assessed settlements:4

# **Feeding programmes**

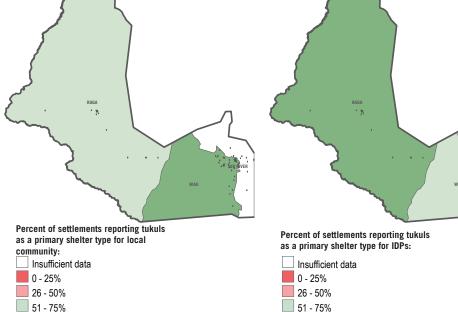

Reported availability of feeding programmes that provide Plumpy Sup, CSB++ or other nutrition supplements in the assessed settlements:

> Not available Available

Don't know

<sup>&</sup>lt;sup>3</sup> Key informants could choose up to three answers.

# **Shelter sharing**

Reported number of people sharing a shelter in assessed settlements:

1 to 5	45%
6 to 10	41%
11 to 15	12%
More than 15	2%

# **Sheltering IDPs**

76 - 100%

Reported proportion of the local community sharing shelters with IDPs:

All	0%
More than half	15%
Around half	46%
Less than half	38%

available

3

<sup>&</sup>lt;sup>4</sup> Key informants could choose up to two answers.

**Food Security** 

Percent of settlements reporting access to adequate amounts of food:

Insufficient data
0 - 25%
26 - 50%

51 - 75% 76 - 100%

# **Coping strategies**

The average number of reported coping strategies used in the assessed settlements:

1.0 coping strategies reported on average

# Land availability

Reported availability of land for agriculture in the assessed settlements:

60%
Available
40%
Not available

# Market distance

Assessment of Hard-to-Reach Areas in South Sudan

Reported distance of the nearest market from the assessed settlements:

Under 30 minutes	31%
30 minutes to under 1 hour	35%
1 hour to under half a day	19%
Half a day	13%
More than half a day	2%

# Food unavailability

Top three reported reasons why people cannot access enough food in the assessed settlements:<sup>5</sup>

# **Market availability**

Reported availability of a functioning market accessible from the assessed settlements:

#### WASH

# Percent of settlements reporting access to clean

#### **Sanitation**

Reported use of sanitation facilities over open defecation in assessed settlements:

All	11%
More than half	25%
Around half	11%
Less than half	25%
None	28%

#### Water distance

Reported distance of the nearest safe water source from the assessed settlements:

Under 30 minutes	42%
30 minutes to under 1 hour	37%
1 hour to under half a day	18%
Half a day	<b>3%</b>

# Water availability

Reported availability of a safe water source accessible from the assessed settlements:

#### **Water sources**

Reported primary safe water source available from the assessed settlements:

Borehole	69%
Protected well	20%
Water yard	7%
Donkey	<b>3</b> % I
Tapstand	1%

<sup>&</sup>lt;sup>5</sup> Key informants could choose up to three answers.

# South Sudan - Western Bahr El Ghazal

Assessment of Hard-to-Reach Areas in South Sudan

**South Sudan Displacement Crisis** 

**June 2017** 

# **Education**

Percent of settlements reporting access to education:

# School attendance

# **Education availability**

Reported available education services in the assessed settlements:6

None	26%
Pre-primary	68%
Primary	74%
Secondary	29%
ALP <sup>7</sup>	0%
Vocational training	3% ▮

# **Education attendance and availability**

Top two reported reasons why children are not attending school in the assessed settlements:

1	High fees	58%
2	Insecurity	29%

Top two reported reasons why education services are not available in the assessed settlements:

1	Facilities destroyed by conflict	44%
2	Teachers have been	25%

Reported proportion of settlements where 6-17 years old boys and girls attend school respectively:

<sup>&</sup>lt;sup>6</sup> Kev informants could choose more than one answer <sup>7</sup> Accelerated learning programmes

# **Protection**

2%

# Women

Reported primary protection concerns for women in the assessed settlements:

1	Looting	31%
2	Killing/injury by other community	25%
3	Sexual violence	22%
4	Killing/injury by same community	16%

#### Men

Reported primary protection concerns for men in the assessed settlements:

1	Killing/injury by other community	42%
2	Killing/injury by same community	37%
3	Looting	11%
4	Abduction	6%
5	Forced recruitment	2%

#### Children

Reported primary protection concerns for children in the assessed settlements:

%	1	Looting	33%
%	2	Killing/injury by other community	19%
%	3	Other	10%
%	4	Killing/injury by same community	8%
%	5	Abduction	6%

# **Community relations**

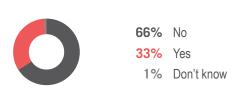

5 Cattle raiding

Reported relationships between IDPs, returnees8 and local community in the assessed settlements:

Very Good	21%
Good	64%
Neutral	7%
Poor	<b>7%</b>

# **Land disputes**

Reported presence of disputes over land ownership in the assessed settlements:

<sup>&</sup>lt;sup>7</sup>Local community displaced and returned home, reported in 55% of assessed settlements.

# **About REACH**

REACH facilitates the development of information tools and products that enhance the capacity of aid actors to make evidence-based decisions in emergency, recovery and development contexts. All REACH activities are conducted through inter-agency aid coordination mechanisms. For more information, you can write to our in-country office: south.sudan@reach-initiative.org or to our global office: geneva@reach-initiative.org.

Visit www.reach-initiative.org and follow us @REACH\_info.
