

Cross-Border Population Movement

Kapoeta Road Monitoring

Kapoeta South County, Eastern Equatoria State, South Sudan

South Sudan Displacement Crisis

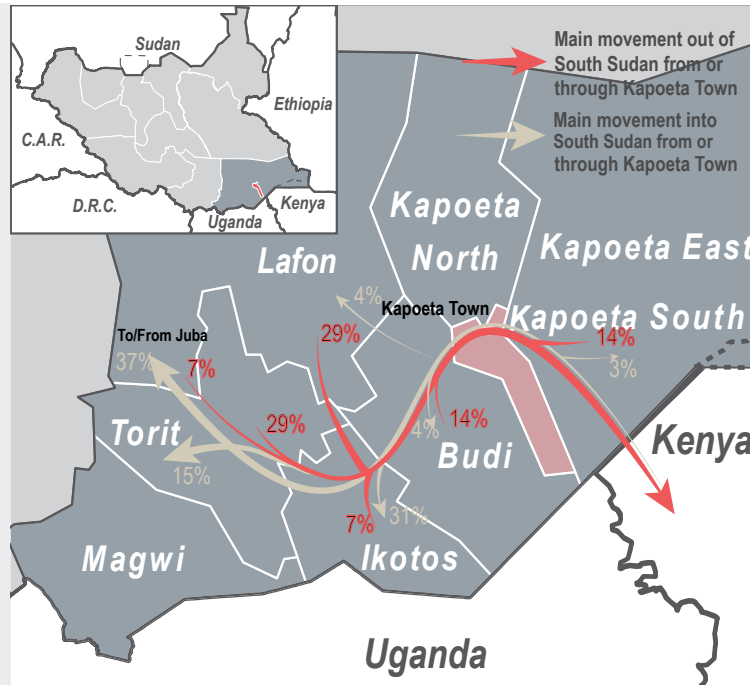

April 2021

CONTEXT AND METHODOLOGY

Kapoeta town is located in Kapoeta South County, Eastern Equatoria State, near South Sudan's border with Kenya. Since the beginning of the crisis in South Sudan in December 2013, Kapoeta town has been a gateway through which many internally displaced persons (IDPs) have passed on their way to refugee camps in Kenya.

This factsheet provides results from the REACH road monitoring exercise in Kapoeta town. REACH monitors two bus/car parks where travellers are travelling to and from Torit/Juba and Narus/Kakuma, in order to record the arrivals and departures of households (HHs) on a daily basis. Daily data is synthesized into a monthly factsheet to provide an overview of wider movement trends, including push/pull factors, vulnerabilities and intentions. The following findings are based on primary data collected over 22 days between 1 and 30 April 2021.

Not all entry points to Kapoeta town were covered systematically, and some arrivals and departures reportedly took place outside of data collection hours (7:30 am - 4:30 pm). As a result, data presented in this factsheet does not capture all population movements and, **as such, findings are not representative but rather indicative only** of broader population movement trends for the assessed population.

GENERAL MOVEMENT TRENDS

Average daily number of individuals inbound to (grey) and outbound from (red) South Sudan **with the intention to stay in their final destination for more than six months** recorded in Kapoeta Town from May 2020 to April 2021:¹

Type of movement[‡]

Total monthly number of HHs and individuals recorded in April 2021:

	HHs	Individuals	% ²
Inbound to South Sudan	111	409	50%
Outbound from South Sudan	14	67	6%
Internal movement within South Sudan	97	195	44%

Self-reported refugees

Proportion of inbound (left) and outbound (right) HHs who self-reported having refugee status in another country:

Vulnerabilities³

61% of total **inbound** HHs reported that at least one member of the HH had a vulnerability, including:

85% of total **outbound** HHs reported that at least one member of the HH had a vulnerability, including:

INBOUND TO SOUTH SUDAN⁵

Demographics

72% of inbound households were partial households.⁶

Previous locations in Kenya

Primary reported locations from which inbound HHs were leaving:

Kakuma Refugee Camp	55%
Kalobeyei Integrated Settlement	45%

Intended destination in South Sudan

Primary reported intended destinations for inbound HHs:

Juba County	37%
Ikotos County	31%
Torit County	15%

Push factors

Primary reported push factors for inbound HHs to leave their last location:

Distance from family/home	51%
Lack of food	22%
Lack of education services	11%

Intended duration of stay in destination

Reported length of time that respondents intended to stay in destination:

Less than a month	5%
From 1 to 3 months	14%
From 4 to 6 months	11%
More than 6 months or permanently	71%

Notes:

1. Due to the COVID-19 pandemic, most national border crossing points were closed for personal travel in March 2020. Therefore, the average daily number of individuals inbound to (grey) and outbound from (red) South Sudan with the intention to stay in their final destination for more than six months recorded in Kapoeta Town dropped to on average zero arrivals and departures in the months of April to July 2020.

2. This percentage represents the percent of households, not the percent of individuals.

3. Key Informants were able to provide multiple answers and therefore findings can exceed 100%.

4. Additionally, 7% of inbound households reported that at least one member with a physical disability, and 7% reported a household member with a mental disability.

5. Unless otherwise specified, these figures reflect trends for all HHs interviewed, regardless of the length of time that the HHs are planning to stay at the destination.

6. Partial HHs are those where not all members of the self-identified family unit were reportedly travelling. Please note, family units in South Sudan often extend beyond the nuclear family.

‡. Percentages are rounded to the nearest integer, so responses may not add up to 100% exactly.

OUTBOUND FROM SOUTH SUDAN⁵

Demographics

50% of outbound households were partial households.⁶

Previous location in South Sudan

Primary reported locations from which outbound HHs were leaving:

Lafon County	29%
Torit County	29%
Kapoeta South County	14%

Intended destination in other countries

Primary reported intended destinations for outbound HHs:

Kakuma Refugee Camp	64%
Kalobeyei Integrated Settlement	36%

Pull factors

Primary reported pull factors for outbound HHs to go to another country:

Presence of food distributions	43%
Presence of education services	36%
Proximity to family/home	21%

Intended duration of stay in destination

Reported length of time that respondents intended to stay in destination:

Less than a month	0%
From 1 to 3 months	0%
From 4 to 6 months	0%
More than 6 months or permanently	100%
