Location Map

Summary

This profile provides an overview of water, sanitation and hygiene (WASH) infrastructure within Zone MM in Ukhiya, Cox's Bazar. Primary data represents infrastructure present as of 9 November 2017.1 Findings should be considered indicative only.

Access to Water

Three most commonly identified types of water points, by functionality

| 98% Handpump/ tubewell | 78% | | 22% | |
|----------------------------|-----|---|-----|--------------------------------|
| 2% Unimproved water source | 88% | | 88% | Functioning Not functioning |
| N/A N/A | N/A | • | N/A | |

Key sectoral achievements

Targets based on WASH Sector Standards/Indicators for the Rohingya response, Sphere Minimum Standards/Indicators as well as Department of Public Health and Environment (DPHE) Minimum Standards/Indicators
Minimum standard/indicator reached,
75%-99% minimum standard/indicator reached, < 50-74% minimum standard/indicator reached, www.exandard/indicator reached

| | Target | Previous Round | Current Round | Achievement |
|---|-----------------------|----------------|---------------|-------------|
| # of people per functioning hand pump | max. 500 ³ | 74 | 34 | |
| % of shelters within 200 metres of a functioning hand pump ⁴ | 100% | 100% | 100% | |

¹Primary data for this round was collected between 20 October and 9 November 2017. REACH enumerators conducted a full sweep of all sites and camps (as per boundaries defined by ISCG) and used an Open Data Kit (ODK) form to log all key infrastructure observed during this sweep, with further details to be logged for WASH infrastructure. ²Safe refers to fully covered latrines (i.e. a latrine with four walls, a roof and a door) ³ This target is based on standards for the long term (6 months+), for the immediate and medium phase (0-6 months) it is 500. ⁴ The distance is based on standards for the long term (6 months+), so the medium phase (3-6 months) 500 metres.

Key sectoral achievements

Targets based on WASH Sector Standards/Indicators for Rohingya response, Sphere Minimum Standards/Indicators as well as DPHE Minimum Standards/ Indicators • Minimum standard/indicator reached, • 75%-99% minimum standard/indicator reached, • 50-74% minimum standard/indicator reached, • Less than 50% of minimum standard/indicator reached

| | Target | Previous Round | Current Round | Achievement |
|---|----------------------|----------------|---------------|-------------|
| # of people per functional (non-full) latrine | max. 50 ⁴ | 61 | 17 | |
| # of people per safe latrine | N/A | 53 | 78 | N/A |
| % of shelters within 50 meters to a functional (non- full) latrine | 100% | 81% | 100% | |
| % of latrines that are at least 10 meters away from a water point | 100% | 73% | 56% | |

⁴ This target is based on standards for the long term (6 months +), for the immediate phase (0-3 months) it is 100 and for the medium phase (3-6 months) 75.
