Returnees	300	1,800	6

Size of settlement	25,151 sq m
Average area per person	11 sq m
Altitude	1,780 m

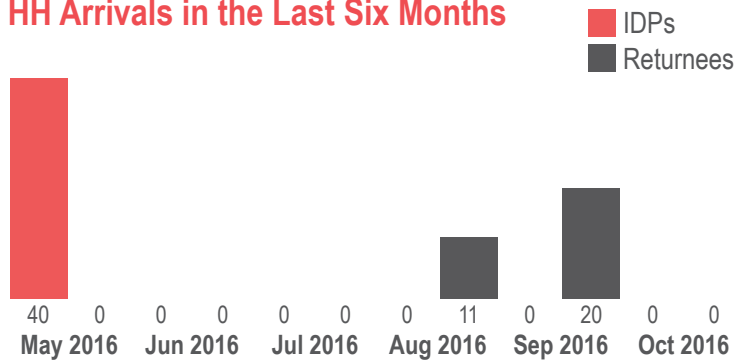

## Displacement

This informal settlement is located on Bagرامي Main Road, close to Habib Gulzar Ltd, in an area that is isolated from any Kabuli neighbourhood. The land is owned by the Government of Afghanistan and residents are not currently paying rent. Pashtun communities comprise the largest proportion of the population, with just 20% coming from Tajik communities. Most of the residents are returnees from Pakistan with some IDPs arriving from Kandahar.

The settlement was established in 2008, with 100 households returning from Baluchistan, Pakistan. In 2010, 59 IDP households joined the site, travelling from Zheray, Kandahar. A further 94 returnee households expanded the settlement in 2013, having previously lived in Sindh, Pakistan. In 2015, 75 households, returning from Balochistan, Pakistan, also joined the site. The settlement reached saturation in 2016 when 41 IDP households and 31 returnee households entered the site. There is now no space for the settlement to expand.

Residents reportedly plan to stay in the settlement as the central location of the site offers access to food and health facilities. Residents also reported that they feel they have nowhere else to go.
