

WASH Site Profile - Camp 4

Ukhiya, Cox's Bazar, Bangladesh (March 2018) GPS Coordinates: 92.14290896 21.20827358

Summary

This profile provides an overview of water, sanitation and hygiene (WASH) infrastructure within Camp 4 in Ukhiya, Cox's Bazar. Primary data for this round was collected between 11 March - 2 April 2018. Findings should be considered indicative only.

Site Overview

# of individuals:	26295
# of households:	7208
# of shelters:	4703
# of individuals per shelter:	6

Key WASH Infrastructure

# of latrines	1681
(% functional):	(88%)
% of safe latrines ² :	82
# of handpumps	399
(% functional):	(73%)
# of washrooms:	706

Location Map

Access to Water

Three most commonly identified types of water points, by functionality

	•		•		
57%	Handpump/tubewell	73%	\langle	27%	
26%	Water tank	77%	\langle	23%	Functional Non-functional
7%	Unimproved water source	80%		20%	Non-idiretional

Key sectoral achievements

	Target	Current Round	Achievement
# of people per functional handpump	max. 250 ³	66	
% of shelters with at least 1 functional handpump within 200m⁴	100%	100%	

Targets based on WASH Sector Standards/Indicators for the Rohingya response, Sphere Minimum Standards/Indicators as well as Department of Public Health and Environment (DPHE) Minimum Standards/Indicators • Minimum standard/indicator reached, • 75%-99% minimum standard/indicator reached, • 50-74% minimum standard/indicator reached, • Less than 50% of minimum standard/indicator reached

¹ REACH enumerators conducted a full sweep of all sites and camps (as per boundaries defined by ISCG) and used an Open Data Kit (ODK) form to log all key infrastructure observed during this sweep, with further details to be logged for WASH infrastructure. ² Safe refers to fully covered latrines (i.e. a latrine with four walls, a roof and a door) ³ This target is based on standards for the medium and long term (3 months +), for the immediate phase (0-3 months) it is 1000. ⁴ The distance is based on standards for the long term (6 months+), for the immediate phase (0-3 months) it is 750 metres and for the medium phase (3-6 months) 500 metres.
