Registration actor: Camp management

Summary

This profile provides an overview of conditions in Harshm camp. Primary data was collected through household surveys on 16-08-16. Households were randomly sampled to a 95% confidence and 10% margin of error, based on population figures provided by CCCM. In some cases, additional information from camp managers has been used to support findings. Round V of data collection was in April 2016.
